

DO YOU NEED A MEDICINE?

IT COSTS YOU NOTHING TO INVESTIGATE.

There is no one who does not need a Liver Medicine occasionally.

The symptoms of Liver Complaint are well known to every one, such as constipation, dyspepsia, loss of appetite, sleeplessness, headache, a tired feeling and many others of a similar nature.

Thousands die annually by not heeding the warnings of nature.

Many acquire some chronic disease from which they never recover.

Many of these could be spared for years of usefulness, by keeping in the home some reliable remedy.

We believe that we can convince any fair-minded person that there is no better remedy for the Liver known, than Dr. Thacher's Liver and Blood Syrup.

The formula is known, consisting of: Buchu, Hydrangea, Mandrake, Yellow Dock, Dandelion, Sarsaparilla, Gentian, Senna and Iodide of Potassium. You know just what you are taking. How many other formulas of a liver medicine are published? Ask your druggist about this. It is already prepared and can be taken immediately.

The strength is extracted in the most skillful manner, certainly superior to any powdered preparation known. (We also manufacture a Liver Medicine in powdered form, with which any druggist can supply you, but this, like all other dry Liver Medicines requires preparation.)

Dr. Thacher's Liver and Blood Syrup is pleasant to take, does not lose its strength, as Liver Medicine in dry form, and will keep in any climate.

Your doctor, however skillful, could prescribe nothing better.

There is no opportunity for a doctor to make a mistake in writing a prescription, or a drug clerk to make a mistake in compounding the same, (besides a doctor's bill and the cost of the medicine.) You can be absolutely sure of the proper proportion being in every dose.

Dr. Thacher's Liver and Blood Syrup has been used with the greatest confidence and success in thousands of homes for 52 years, and is prepared by a pharmacist of 25 years' experience, in a laboratory equipped with the most modern appliances for the most perfect safety.

If you do not understand your case, write today for a Free sample bottle and "Dr. Thacher's Health Book." Give symptoms for advice. We simply ask that you try it at our expense. We know what it will do.

Fought Nearly Two Hours.

Paris, March 6.—The much talked of duel between the Italian fencing master, Peni, and Baron Atheos di San Malato, was fought at noon today at Nouilly. It lasted two hours, and fifty minutes and was finally stopped because Baron di San Malato's hilt had raised a large blister in the palm of his hand. The engagement developed a wonderful display of skill between the two rival schools. The duel was witnessed by a large number of distinguished French swordsmen. The adversaries were reconciled after the fight.

How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency toward pneumonia. It always cures and is pleasant to take. Sold by J. F. Mackey & Co. Druggists.

Chinamen Give Signals to Japs

Petersburg, March 2.—According to a dispatch from Port Arthur twenty Chinese were arrested there for signalling the Japanese ships off the shore with flashlight and lanterns. A warning has been issued that similar offenders will hereafter be treated as spies and shot.

Happy, Healthy Children.

Any child can take Little Early Risers with perfect safety. They are harmless, never gripe or sicken, and yet they are so certain in results that robust constitutions requiring drastic means are never disappointed. They cannot fail to perform their mission and everyone who uses DeWitt's Little Early Risers prefer them to all other pills. They cure biliousness. Sold by Crawford Bros.

Too Much Expense.

One of the clauses in the legislative appropriation bill recently introduced in congress forbids the payment of any money appropriated therein for paying the expense of horses and carriages or drivers other than for those used by the president, the heads of departments and secretary to the president, and this clause is designed to put an end to an abuse which has existed for many years. The Washington correspondent of the Philadelphia Public Ledger, referring to the measure, says: "The practice has been for every assistant secretary and many chiefs of divisions to have carriages for their exclusive use purchased with public funds and maintained at the public expense. This was done by indirect methods and payments made from appropriations of a miscellaneous character. These carriages not being required by the officials are used by the women members of their families in making calls, attending parties and theatres. There is no effort to conceal this use of the public property and funds for private convenience and profit. There is one case that is especially noticeable. The head of a certain division, who lives at a boarding house, kindly loans his landlady the official carriage to do her marketing, and in the afternoons and evening the daughter of the house has the unrestricted use of the outfit."

As if We Cared Adamsky.

Since Americans are showing so much joy over the defeat of General Damphoolsky, it is hinted that the czar is getting hot, and will not let the Russian bands play Hiawatha at our big fair. As if we cared Adamsky for that.—Americus (Ga.) Times-Recorder.

Working Overtime

Eight hour laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Only 25c at Crawford Bros., J. F. Mackey & Co. and Funderburk Pharmacy.

New York Breaks Death Record.

New York, March 2.—The department of health recorded 1,797 deaths during the week ending February 27, more than ever recorded in this city during a similar period in the winter months. The mortality is attributed to grip and its complications. The epidemic of influenza is also general in nearby New Jersey towns.

A free bottle of Blood Syrup will be sent to any reader of this paper who will write to the Thacher Medicine Co., Chattanooga, Tenn.

A gossip has few friends, but she manages to get good and even with numerous enemies.

Progress of the South.

The development of the south is treated in an interesting way by a writer in the New York Sun. It is pointed out by this writer that the south has ten-million bale cotton crop, a twenty-five million ton coal output, a 5,000,000 ton pig iron production, aside from lumber, fruit, tobacco and other products. Manufacturing enterprises have taken the place of the old time plantations and have established new channels of employment for the people. After describing these conditions the Sun writer says: "The results of all this are manifest not alone in the cities, but in almost every town, village and hamlet. New buildings appear everywhere. Sewer systems, water works, electric plants for lighting and for trolley lines are fast becoming as much of a necessity as in the north and west, and the south has the money to pay for them. Municipal bond issues have reached a huge aggregate and have, in general, found ready sale at good prices, often in the immediate local market. Southern ports have done an enormously increased business, and southern railways have been hard pressed to handle their traffic. The establishment of these new conditions upon a foundation of unquestionable firmness opens a broad vista. The south has not yet been an objective point for the home seeker, to whom it really offers so much that is attractive. It is to be hoped that the day will soon come when its
