### Several Candidates.

Already there is talk of candi-  
dates for a successor to the late  
Hon. Geo. W. Croft, congressman  
from the second district, and, al-  
though there will of course be a  
reasonable time allowed before  
there are any definite announce-  
ments made, the fact that the  
law requires that an election shall  
be held to fill a vacancy of this  
kind makes discussion in order.

Prominent among those men-  
tioned are Mr. L. J. Williams, late  
chairman of the board of dispen-  
sary directors; former Governor  
M. B. McSweeney; Mr. H. H.  
Crum, former state liquor com-  
missioner; W. J. Talbert, who  
represented this district for years  
in congress; D. S. Henderson, who  
was state senator from Aiken for  
a number of years and a candi-  
date for the United States senate  
two years ago; S. G. Mayfield,  
state senator from Bamberg, and  
Robert Aldrich, state senator  
from Barnwell.

No action has been taken by  
the governor yet, as he does not  
consider that it would be appro-  
priate to yet do anything.—Col-  
umbia Record.

### More Riots.

Disturbances of strikers are  
not nearly as grave as an indi-  
vidual disorder of the system.  
Overwork, loss of sleep, nervous  
tension will be followed by utter  
collapse, unless a reliable remedy  
is immediately employed. There's  
nothing so efficient to cure disor-  
ders of the Liver or Kidneys as  
Electric Bitters. It's a wonder-  
ful tonic, and effective nerve-  
ine and the greatest all around me-  
dicine for run down systems. It  
dispels Nervousness, Rheumatism  
and Neuralgia and expels Mala-  
ria germs. Only 50c, and satis-  
faction guaranteed by Crawford  
Bros., J. F. Mackey & Co. and Fun-  
derburk Pharmacy. Druggists

**Kodol Dyspepsia Cure**  
Digests what you eat.

### Life Near Arctic Circle.

Milwaukee Sentinel.

"My home is forty miles this  
side of the Arctic Circle," said  
Henry J. Dieter, of Teller City,  
Alaska.

"The place was named after  
Senator Teller, of Colorado, and  
we have the only good harbor on  
the Behring Sea. Siberia is situ-  
ated across the strait forty miles  
from us. We often go over into  
the Czar's dominion in large  
skin boats which are used by the  
natives. The people from Siberia  
come to our country in the sum-  
mer and catch their winter's sup-  
ply of fish.

"I have spent several winters  
in Teller City. On November  
16 each year the sun disappears  
and is out of sight until February  
26. During this time we have  
about two and a half hours a day  
which resembles what you call  
twilight in this country. By  
taking a newspaper to the win-  
dow you are able to read. On  
December 21 the days begin to  
grow longer and June 24 we have  
twenty-four hours of sunshine.

"Our snow storms are differ-  
ent from the ones you have here.  
The moisture in the atmosphere  
freezes and falls, not in great  
flakes, but in particles, as fine as  
dust, and there is a constant fall  
during the whole of the 'closed'  
season, and when we have a  
wind we have an atmosphere  
through which it is almost im-  
possible to make headway. That  
far northern country is filled  
with people who have lost their  
fingers, or hands, or arms, by hav-  
ing them frozen. This, however,  
was the result of the pioneer days.  
Now they know better than to  
expose themselves. The only  
way in traveling is to take the  
sleeping robe, which is the only  
article of fur made use of, with a  
few days' provisions, and when a  
storm overtakes you just go into  
camp and wait until it is over,  
which is generally about three  
days as the limit."

### Do You Want Strength?

If you want to increase your  
strength you must add to and not  
take from the physical. In other  
words, the food that you eat must  
be digested, assimilated and ap-  
propriated by the nerves, blood  
and tissues before being expelled  
from the intestines. Kodol Dys-  
pepsia Cure adds to the physical.  
It gives strength to and builds  
up strength in the human system.  
It is pleasant to taste and palat-  
able, and the only combination  
of digestants that will digest the  
food and enable the system to  
appropriate all of its health and  
strength-giving qualities. Sold  
by Crawford Bros.

### Death of Congressman Croft.

Washington, D. C.—As a result  
of blood poisoning, caused by a  
splinter in the hand, Hon. Geo.  
W. Croft, representative in con-  
gress, from the second district of  
South Carolina, died at his board-  
ing house in Sixth street, north-  
east this morning. The immedi-  
ate cause of death is given as  
heart exhaustion. Several opera-  
tions have been performed in the  
hope of saving his life, but with-  
out avail. He received the in-  
jury nearly two months ago but  
blood poisoning did not develop  
for some time afterward. Yes-  
terday, when it was feared he  
could not survive, his wife and  
two sons were summoned from  
their home in Aiken, S. C. They  
will arrive later in the day.

### HORSE'S HOME INSTINCT.

Soldier's Mare who Wanted to  
Live in Missouri.

I have read with some  
interest in some of the recent is-  
sues of Forest and Stream of the  
"back-tracking instinct" in hor-  
ses, and am reminded of a trait  
possessed by a large mare owned  
by my father when I was a small  
boy living on the old farm in the  
Ozark Mountains, in Washington  
county, Arkansas, writes a corres-  
pondent in Forest and Stream.

My father was a Confederate  
soldier, belonging in a cavalry  
company, and when he with his  
command surrendered he was al-  
lowed to keep his mount. He  
had purchased the mare from a  
party from Missouri, who had  
taken her from some point in  
Missouri to the Red River coun-  
try in south Arkansas at the be-  
ginning of the civil war.

She was about five years old  
when the war ended, and we  
kept her ten years, and to my  
certain knowledge, never at any  
time did she gain her freedom  
but that she started north in the  
direction of Missouri, and travel-  
led until overtaken and brought  
back. We tried all kinds of ex-  
pedients to induce her to remain,  
but nothing but confinement kept  
her in Arkansas. In those days  
the grass was fine in the moun-  
tains, and all kinds of stock  
grew and fattened on it, with no  
cost but a little salt occasionally.  
But even after three or four of  
her colts were grown up in the  
herd, and with a colt in the pas-  
ture, she would occasionally gain  
her liberty and start north on a  
fast trot, and had to be caught  
and brought back. And finally,  
when she had become old and of  
small value, one spring day my  
father ordered me to take her out  
on the range and let her go. This  
I did, and within ten minutes she  
began to feed out north, and I  
took one look at her, went home  
and never saw her again.

### Working Overtime.

Eight hour laws are ignored by  
those tireless, little workers—Dr.  
King's New Life Pills. Millions  
are always at work, night and  
day, curing Indigestion, Bilious-  
ness, Constipation, Sick Head-  
ache and all Stomach, Liver and  
Bowel troubles. Easy, pleasant  
safe, sure. Only 25c at Crawford  
Bros., J. F. Mackey & Co. and  
Funderburk Pharmacy.

### Mined the Yalu River.

London, March 11.—It is re-  
ported from Tientsin that the  
Russians have mined the Yalu  
river at all points where the  
Japanese are likely to attempt  
crossing. The Japanese force in  
northern Corea is said to number  
two hundred thousand, and an  
early advance into Manchuria is  
expected.
