LEGISLATION NEEDED.

The information has been received from Judge Pressley that he has not sufficiently recovered his health to be able to hold the September term of the Sessions Court at Newberry, but that he will try to give us an extra term later in the year.

For unlately there is no pressing need of a session of the criminal court at present, and we can very well dispense with the September term. But we cannot overlook the truth that if there were criminal business demanding instant investigation, it would be "stayed" till later in the year.

Last spring, several of our counties in which courts were needed were obliged to go without courts, owing to the sickness of two of the Circuit Judges. An attempt was made to fill the appointments from the other six Circuit Judges, but their time was wholly occupied, and the court business of these counties was blocked and left to accumulate. At that time a number of the newspapers of the State called attention to this unfortunate state of affairs and urged the importance of making provision to meet similar exigencies in the future. And we feel that our General Assembly will be called upon, as it should be, at its next session, to provide a suitable remedy for this defect in our judicial system.

Eight Circuit Judges are scarcely enough to transact the judicial business of one million people, and when one of them is unable, from sickness or other cause, to discharge his duties, the people must suffer. The time of every Judge is so occupied in the discharge of his own duties, that he cannot reasonably be asked to fill the appointments of a sick brother.

It seems to us that the number of Circuit Judges should be increased to ten, making one for every hundred thousand of our citizens. This would so far lighten their work that temporary vacancies could be filled by appointments from the Circuit Judges. It would cost something to employ two additional Judges, but the people cannot afford to quarrel about a few dollars, when their interests are at stake.

We believe, too, as we have said before, that there should be at least four judges on the Supreme bench. If the Supreme Court were enlarged, temporary vacancies on the circuit bench might be filled by members of that Court; that is, if the number of Circuit judges were not increased.

Whatever change may be regarded as wisest, we hope that some action will be taken at the next meeting of the General Assembly. The defect which we have mentioned is a serious one, and it should not go without a remedy.

Some influential Democratic papers are industriously trying to persuade us that the Republican canvass will suffer from a want of "soap"—campaign money. If the statement were true it would be exceedingly agreeable, but we decline to be persuaded. The Republican party has control of the government, including the treasury department, and it may be expected to "soap" the vote of Indiana just as it did at the last election.

Gov. Hendricks is actively engaged in the campaign in Indiana, which was formally opened last Saturday. In closing his speech on that day he said "the vote of Indiana is the desire of my heart." Just so. And we suppose that the vote of New York is the desire of several hearts. The desire is perfectly legitimate, but the right of possession will be disputed.

Some of our contemporaries were unalterably opposed to June nominations, one ground of their opposition being the belief that early nominations would be followed by a long and tiresome canvass. What have our contemporaries to say on that subject now?

The Butler canvass in Massachusetts will be managed by a Col. Dripkwater. It is not to be inferred from this, that the Beast is a prohibitionist, or that he is engaged in a "drink-water" canvass.

The cases against Col. E. B. C. Cash and others, the outgrowth of the Cash-Richards difficulty, have been abandoned by the State.

A mad dog in Enfaunla, Ala., recently bit some hogs, which died and were eaten by negroes, 37 of whom were in turn attacked by hydrophobia.

Ang. 28, a hurricane broke upon Evansville, Ind., and a cyclone struck Huron, Dakota.

The disease recently reported as the cholera in Iowa turns out to be the dysentery.

Ex Queen Isabella wants to re-assert herself on the throne of Spain.

A case of yellow fever has appeared in New York.

We have been requested to publish a full statement of the scandal suit in Columbia, of which some mention was made in these columns recently, that justice might be done all the parties. We do not think it necessary. The verdict of the jury to which the case will be submitted will settle the question.

We are glad to see, however, that there is no prospect of recovering anything from the defendants even if judgment is obtained against them. Some games are very exciting and closely contested. Some contend the "fastest on record, equal to Maud S., making it in one, nine and half seconds. The game of Pedro is common. I wish for my friends in Newberry County to take a hand in the game. The young ladies and gentlemen dress well and make a fine appearance; excelling anything in the way of style in the ball room I ever saw, except at balls in Newberry.

This water is remarkable to give any person an appetite, man, woman or child will eat about four times as much as at home. The proprietors give good fare, and plenty of it and good servants, but the great trouble is four cooks though experts cannot prepare food fast enough. As soon as the bell rings the guests come to the table like swarms of black birds on a field of barley, and so hungry it is a hard matter for them to wait on the waiters. These 250 water drinkers eat as much as 1,000 persons who have not access to the water.

If the water has failed in its effects on the body of our veteran, it seems to have stirred up his imaginative powers wonderfully while largely increasing his appetite. Think of his drinking ten gallons per day, and eating four times as much as while at home.—Ed. H. & N.

Don't box your child's ears. Numerous instances are recorded where serious results, often permanent injury, have followed such punishment. Nature has provided every child with a place where corporal chastisement may be safely administered, and that place is not located on the head.

We want say who he is, but the reader may guess: A man from the country bought a Roman candle and lighted it to go to bed by. He says you can bet your eyes the light of the man that looked at it, if he can find him out.

FOR THE HERALD AND NEWS.

THE MAJOR AT GLENN'S. GLENN SPRINGS, S. C. Aug. 27, 1884.

Mr. Editor: I arrived here about two weeks ago to drink this powerful and great water; but I find the water does not have the effect on me as in former years. It is not the fault of the water, though, but old age. Yet I begin to feel that it is taking effect on my stubborn liver, and stiff limbs and joints. When I say "powerful water" I mean what I say. I have been coming to this spring since the year of 1842, missing very few summers for 43 years. I have witnessed some remarkable cures of diseases the human family is subject to both males and females, and particularly females. The women should not stay away from this remarkable water, no matter what may be their disease, old or young, it is certain to cure by drinking freely of it. In my past long life I have visited the greater portion of the watering places in the United States, France and Germany, but I have found none equal to Glenn's water for all diseases. This water has a powerful reputation from the fact that it is shipped pretty much all over the United States. The shipments have become great, amounting to from \$10,000 to \$15,000 per annum at \$4 per case of 24 quart bottles. The water is shipped in winter equal to summer. By shipping in kegs or barrels it comes cheaper than by case. The proprietors have erected a good new house at the spring for bottling and putting up the water for shipment. The arrangements are complete and scientific, that none of the medical properties of the water can escape being leaving the springs. It is true this water is good when shipped but nothing like it is when drunk at the spring, where you can dip down deep and drink from one gallon to ten gallons a day of the cool water of life. When it is shipped, and you have to buy the water, very few drink enough. This water will not hurt, no matter how much you drink, the more the better. This water is shipped to the State, to Baltimore, Philadelphia, New York, Alabama, Georgia, Mississippi, North Carolina, Florida, Washington, Virginia, and over the deep to France and Germany.

I will only speak a few words of the two young men, the Messrs. Simpson, proprietors of the hotel. They are kind and accommodating, and as gentlemanly as young men can be, and I feel like extending an invitation to them to come down to Newberry to captivate our accomplished and beautiful young ladies, to assist them in keeping hotel. But when I get to thinking that we have the same kind of young men in Newberry, I fail to extend the invitation. I can't put any barrier in the way of our young men. Right here I must ask the young ladies of our city to keep watch over the young men, and if they hear of any that are not walking a straight chalk line, telegraph me and I will send a guard after them. Young ladies keep strict spies out for them until I get home. When I first landed here this season the number of visitors was not great, but for the last two weeks great numbers have come in, the guests amounting to about 250 of all sorts, old and young, and many distinguished gentlemen and ladies of this and other States. I will not attempt to name leading gentlemen of the State. I find all guests both gentlemen and ladies so perfect in their manners and deportment, I can't make any distinction. The old and young come here for the benefit of the water, but this water soon makes visitors have life, and they must have amusements, cutting the fantastic, throwing nine pins, playing billiards, and all kinds of games of cards for amusement. Some games are very exciting and closely contested. Some contend the "fastest on record, equal to Maud S., making it in one, nine and half seconds. The game of Pedro is common. I wish for my friends in Newberry County to take a hand in the game. The young ladies and gentlemen dress well and make a fine appearance; excelling anything in the way of style in the ball room I ever saw, except at balls in Newberry.

A CARD.

With grateful thanks to my fellow citizens of Newberry County for the liberal support given me as Candidate for the office of Sheriff, I beg to say that while it would have afforded me pleasure to have been elected, it would afford me no less pleasure to serve you as heretofore in my old position of salesman in the well-known house of M. F. THOMAS COOK.

TRIBUTE OF RESPECT.

W. C. T. U., NEWBERRY, S. C., Aug. 5, 1884. The universal conqueror has snatched from our circle T. EDDIE GRENEKER, one of our best beloved, and most deserving members. His amiable disposition and endearing virtues shall, however, live in affectionate remembrance, and his early departure be embalmed with the tears of friendship and the sighs of grief. Long shall our memories retain his dear image, and the benignant traces of the countenance which now moulders in the tomb. Happy Spirit, we congratulate thy safe accession to immortal joys! O may we meet on that blissful shore, where the parting sound and tear are known no more, where all the favored inhabitants are connected in the most endearing and everlasting bonds in the presence of our blessed Redeemer, who is all in all. ABOUT SEVERAL SCHOOLS. MESSRS. EDITORS: I notice in last week's Observer an article from a Stony Battery correspondent, in which he states that there are several good schools in that neighborhood, but thinks there would be better schools if the people were relieved from paying any school tax and let run their own schools. I am a teacher of 12 years' experience, and taught school at least five years in the Stony Battery section, and when I look over my books I earnestly wish the public would pay all. TEACHER.

"HERALD AND NEWS."

Messrs. Editors: Perhaps to no heart does the consolidation of the HERALD AND NEWS bring more real pleasure than to ours. We have a personal acquaintance with the brothers Greneker, and possess for them the highest possible esteem, and are glad to know that their talents and energies will be concentrated on one and the same sheet. The NEWBERRY HERALD has long been to us a dear and valued friend. For its columns we wove our first literary garland, and the encouragement given by its noble editor and proprietor, was a proud stimulus which emboldened us to send forth our "wee wildwood blossoms," until they were gathered and treasured even in Buckingham Palace. May the Herald and News meet with the unprecedented success which the rare and versatile talent of its editorial staff merit, is our earnest wish.

And while congratulating the living, we remember with the reverence born of a long, sincere friendship, the true hero, which now pulses true, and the busy hands now peacefully folded, which were wont to labor in this same office. Brave, noble Eddie! your balance-sheet was kept pure and stainless, and the Master has signed approval. MAGGIE. Williamston, S. C.

ON A MULE'S BACK TO SPRING HILL.

Last Thursday we took mule-back and journeyed toward Pomaria. Before sun-down we were pleasantly entertained at the hospitable residence of Mr. Jacob Epping. We were much pleased to meet our class-mate, and talk of the "good old days." After retiring we were about to go to the dreamy land, when we were aroused by some one speaking. It was our friend, he said: "Take care, I want it to run as smooth as a die." We suppose he had finished oiling the wheels, and boarded the train for his sweet-heart's town, for just before going to sleep he was speaking of her.

Friday morning in company with Mr. M. J. Epping, we set out for Spring Hill to attend a reunion of the students of Newberry College. We drove up one hill and down another until at last we ascended Spring Hill. Cotton is very good and is opening more than near here.

We looked around and found that it was a reunion indeed; more than twenty students and ex-students were present. The address of welcome was delivered by Mr. T. H. Dreher, and responded to by Prof. C. W. Welch, president.

Other speeches were made by Prof. H. Dysinger, S. T. Riser and E. O. Counts. In the afternoon questions relating to education were discussed by Dr. Holland, Prof. Dysinger, Rev. Miller and others. Music between the speeches by a select choir, made the occasion very pleasant.

The dinner must not be forgotten. After the conclusion of Mr. Riser's speech, the president announced an intermission of an hour and a half for dinner.

All gathered in the shade of the neighboring oaks and partook of the genuine "Dutch Fork" Dinner. We never met a kinder and more hospitable people; they knew just how to be kind and prepare good things. And the good mothers did not forget to bring their daughters out in their best looks. We didn't know Dutch Fork could afford such a good looking set of girls. Look out ye people, Newberry will send down her sons aung.

When the sun hung low in the west we set our faces homeward, and with reluctance we bid adieu to Spring Hill and its kind people. Chance, if chance it be, does nice things, sometimes. It so happened that one of the boys who lives on this side of the line, took another boy with him to the reunion, sent him further down in the fork and was dreading the long drive home by himself when happily he thought of a remedy. He just got a girl to come home with him. TUCK.

POST OFFICE.

NEWBERRY C. O., S. C. List of advertised letters for week ending August 30, 1884: Adams, G. W. Jordan, Henry Carrille, Wash. Johnson, James Connel, Mrs. Mary Knicker, Daniel Campson, Silas Nutridge, Alex Crowder, Th. Young, L. L. Cammer, J. H. Pitts Davidson, Mrs. M. A. Roof, Mrs. Chloee Wicker, W. W. Parties calling for letters will please say if advertised. R. W. BOONE, P. M.

The fondness of the colored race for high-sounding names is illustrated by a Florida darkey named Romeo, who is wedded to a maid of his race called Juliet. This couple have twins, whom they have named Romulus and Remus, and the family is conveyed to church on Sunday by a horse named Pontius Pilate.

President Arthur, at the expiration of his term, will go back to New York, where he will reside in his former law firm, but act as consulting counsel. Mr. Arthur is worth about \$250,000—a fortune that has come to him in a legitimate way, and he never speculates.

An asylum for aged domestic animals has just been opened at Genesee, France. There are already assembled a cow 36 years of age, a hog aged 25, and an 18-year-old goat. The senior member of this happy family, however, is a mule 40 years of age.

Twisted Bones.

Mr. J. R. Stewart of Macon, Ga., a well known and trustworthy gentleman, makes the following statement: "My son, who was between three and four years old, was all drawn up with rheumatism. His bones were twisted, and he was all doubled out of shape, suffered intense pain, had lost his appetite, was cross and fretful. He was reduced to a mere skeleton, and had to be carried about on a pillow. As these cases of rheumatism, where the bones were twisted and the joints were all crooked, had for years baffled the skill of the most eminent physicians, I determined to use Swift's Specific, with the most satisfactory results. My son commenced improving with the first dose of the medicine. His sufferings diminished daily, his appetite increased, he became cheerful and in good spirits. Gradually he regained use of his limbs, the twisted bones and joints straightened out and in less than two months he was entirely cured, and could walk and get about as well as any child of his age.

Beware of imitations of Swift's Specific, given up by unprincipled parties to deceive the public; some of these frauds bear the lie on their faces purporting to be vegetable remedies, when they are really nothing but strong solutions of mercury and potash. Treatise on Blood and Skin Diseases mailed free. The Swift Specific Co., Drawer 3, Atlanta, Ga., 159 W. 23rd St., N. Y., and 1206 Chestnut St., Phila. Pa.
