THE STATE'S PHOSPHATE MINERAL

The phosphate interests of the State are not near as large as they once were and the revenue is not what it was, though even yet the industry is not insignificant. The revenue to the State is now about \$125,000 a year. One of the largest companies that was in the business, the Coosaw, has shut down and gone out of business. Since the opening of the mines in Florida the price has gone down, and, besides, the Florida rock is said to be superior to the South Carolina rock, and yet the companies now operating in South Carolina have good demand for their output and are making money.

It was our pleasure last week to go with the phosphate commission on the annual tour of inspection of the works. The party was composed of Phosphate Inspector T. J. Cunningham, Gov. M. B. McSweeney, Col. J. H. Manning, Col. D. H. Tompkins, who are members of the commission, Col. U. X. Gunter, representing the attorney general, Mr. Jesse Gantt and the writer. At Allendale, where we had a stop of several hours, we were joined by Capt. A. W. Anderson, superintendent of the C. W. C. R. R., and Mr. E. Williams, the general freight agent, and Col. W. C. Mauldin. Capt. A. W. Anderson tendered the party his private car which added very much to the comfort of the trip.

Inspector Cunningham submitted the following figures which are a comparison for corresponding eight months of 1901 and 1902, including the first eight months of each year:

Company.	Tons rock on hand Aug. 31, 1902.	Royalty Aug. 31, 1902.
Stono mines.....	500	\$1288.25
Coosaw Co.....	500	5096.75
Beaufort Co.....	21852	187.65
Empire Co.....	8111	4687.45
Central Co.....	8273	290.00
		7821.50
	38736	\$19840.60
	1901.	1901.
Stono mines.....	0	\$1409.50
Coosaw Co.....	36384	3320.00
Beaufort Co.....	6533	5410.75
Empire Co.....	9247	1095.75
Central Co.....	9195	7180.13
	61339	\$18416.13

The industry is not as large as it formerly was, and yet the companies now mining are doing a good business and have no idea of quitting. The companies now at work are the Central, the Beaufort, and the Empire. It is said these companies are thinking of taking up work in that part of the territory abandoned by the Coosaw Co. The rock is just about as good as it ever was and the supply is still almost inexhaustible.

It is a big industry and worthy the attention of the State Geologist in connection with the Inspector. The royalty is a direct income to the State and costs only the salary of the Inspector and the expense of the annual inspection.

Beaufort is an interesting old town and the people the most hospitable. We also made a stop at Port Royal, and the naval station. It looks almost like a crime to tear up all the work that has been done here, and we don't believe the government will do it. A first class dry dock and excellent machine shops upon which a great deal of money has been spent. It looks as if it might be used for some purpose, even if the station is moved to Charleston.

The work of wiping out factional bitterness and partisan strife has already been accomplished and Gov. McSweeney very largely did the work. In the administration of the affairs of the office Gov. McSweeney has not recognized the old factional lines, but has always tried to do what was best for the whole people of the State and has tried also to re-establish local self-government by being guided in making appointments in the several counties by the recommendations of the men who have been trusted by the people to represent them. There has been no town against country during his administration, and but for the conservative and business-like course pursued by Governor McSweeney the nomination of Capt. Heyward would not have been probable. We are glad to see that Capt. Heyward says he is going to keep up the policy pursued by Gov. McSweeney and keep down all factional differences and make an earnest effort to be the governor of all the people. In this course he will have the endorsement of all the good people of the State, and his administration will go down in history with the good will and well done of the people of the commonwealth.

The Spartanburg Herald says it has learned from experience and a fair trial of both plans that it does not pay to enforce the rule of cash in advance for subscriptions. We have found it difficult to enforce any rule in the matter of collecting subscriptions. We believe that the great majority of the people who subscribe for a paper will pay for it and that all of them intend to pay for it. The trouble is that mostly of them put it off too long and the editor suffers.

All business that's business is "reciprocity" business. We help those who help us; it pays us in them. The Newberry Steam Laundry.

West End Items.

As I never hear from West End, I will let people know we are still alive.

The ice cream festival given by the Lutheran church was quite a success, and we were so glad to see our Mollohon neighbors so well represented.

Palistine and our boys played an interesting game of ball Saturday afternoon. The score stood 17 to 9 in favor of Palistine. Well, look for West End the next season. They are going to fence in their ground and they will have the finest ball park in the State. That's right boys, get together and all take an interest.

I know our popular superintendent and president will help you, nothing helps a town more than an up-to-date ball team.

I see our boys wearing our next mayor's picture.

Miss Mary Sanders, of Pacolet, is visiting her brother Thomas.

Miss Nancy Eison has returned after spending several months with her father at Maybinton.

I presume the candidates are glad that the election is over and the final roll is called. They have been putting in some hard licks, many of them appear almost worn out from the unusual exertion. "Skinner."
