

"Cleopatra's Fan"
Quilt Is the Choice

Cleopatra herself once used palm-leaf fans as graceful as these that adorn this striking quilt. You need but three materials to bring out the contrast of this rich design—one that will beautify any room. Know the grand thrill of piecing these simple 9 1/2 inch blocks for quilt or pillow. Pattern 1579 contains complete, simple instructions for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

Pattern 1579.

A Three Days' Cough
Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—soft, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

The Curse of Progress

Striving to Please

A young subaltern joined a guards depot, his upper lip as yet unadorned with even the suspicion of down. The adjutant sent for him. "You must grow a mustache." "Yes, sir." "And not one of those Chaplin affairs—a proper mustache." "Yes, sir." The interview was finished, but the subaltern did not move, so the adjutant asked: "Well, what more do you want?" "Any particular color, sir?"

Quality of Hope

Hope quickens all the still parts of life, and keeps the mind awake in her most remiss and indolent hours. It gives habitual serenity and good humor. It is a kind of vital heat in the soul, that cheers and gladdens her, when she does not attend to it. It makes pain easy and labor pleasant.—Addison.

Don't Neglect Minor
Throat Irritation

Don't take chances. Rub on soothing, warming Musteroie. Relief generally follows. Musteroie gets such marvelous results because it's NOT just a salve. It's a "counter-irritant"—cooling, warming, stimulating and penetrating—helpful in drawing out local congestion and pain. Recommended by millions for 30 years. Used by many doctors and nurses. All druggists. In three strengths: Regular Strength, Children's (mild), and Extra Strong. Approved by Good Housekeeping.

Priceless Time
A wise man can find nothing of that value for which to barter away his Time.—Howe.

Read to Consider
Read not to contradict and confute, nor to believe and take for granted, nor to find talk and discourse, but to weigh and consider.—Bacon.

GET READY FOR
WINTER DRIVING

No section of our population is more dependent upon the automobile as a means of transportation than the residents of the smaller communities and rural districts.

Yet each Fall, many car owners cause themselves a great deal of trouble and expense by neglecting one or all of the simple yet necessary steps to assure proper operation of the car in Winter weather.

A minimum Winter protection program should cover:

1. Complete change to correct grade of lubricants for motor, transmission and differential.
2. Motor tuned up, including adjusting of carburetor, valves, distributor, sparkplugs, generator and all electrical equipment.
3. Drain and flush cooling system. Refill with suitable anti-freeze solution.

Selection of motor oil and greases for Winter driving is particularly important. You must select an oil which will permit easy starting, that will lubricate the motor throughout the entire driving range of speeds and will continue to do so for a reasonable mileage.

For many years Quaker State Winter Oils and Greases have been recognized as the highest quality and most generally satisfactory Winter lubricants on the market.

Through Quaker State's highly developed methods and equipment it is possible to produce a motor oil which will have a satisfying body over the 400-degree range of temperature it will meet. That is, when the motor temperature is way below zero, the oil will still be fluid enough to allow the motor to turn easily and also to flow freely to all the bearings. Yet this same oil has enough body to stand up and to give the motor proper lubrication when the temperature inside the cylinder wall reaches 400° and over.

As with any other product you buy, you get what you pay for. An oil of Quaker State quality is necessarily expensive to make. This does not mean, however, that Quaker State is more expensive to use. Being pure, concentrated lubrication, it stands up longer in service. It gives more miles per quart and at the same time gives the bearing surfaces safer protection.

You will want to step into the car, even when the mercury is hiding in the bulb and press the starter with every expectation that the motor will start off with its usual Summer zest. This sure starting, plus motor protection, is only possible by preparedness.—Adv.
