OUT AMONG THE PEOPLE

LOOKING BACK AT 40

There is evidence that from long service before the mast of the good ship matrimony I have lost much of the certain something the radio crooners howl about. The demand has fallen to a mere nothing but time was when my services at the receiving end of an affaire de amour (is that French for canned tripe, Dude?) was much in demand. But it was innocent business, and entirely in the family.

I had what was perhaps the kiss-invest flock of girl cousins a 10 year old boy ever had and when mother was moved to re-visit the scenes of her childhood it was I who stretched the reins over the back of a sleepy old horse that drew us slowly to our destination. Father engaged the outfit from a livery stable for a dollar and a half a day which included a bundle of fodder and a dozen ears of corn for the beast. I walked alongside the buggy up most of the hills and it was often necessary for mother to join me. The aged nag would stop and drink at every branch and occasionally just stopped dead in the middle of the road for no good reason. I suppose he just didn't give a damn. The middle of the road suited him as well as the end of it.

It has been my observation that affectionate natures run in families and my mother's people were of that sort. Our first stop on the way was at the home of an old aunt. She was in appearance a crone, but a dear old soul bent and caloused by hardships, and worry over a wild son. Here I could always expect much fondling from a girl cousin. She was sweet and I never found any reason to resist her. A hint that I might have been cute in those far off days brings a burst of ha! ha! in my own household and I suppose justly, for they had nothing on which to erect such wild imagination—just a faded old Gable—a thin blue wisp of the glowing embers of yesteryear! But no one can deny us our memories and it is a solace to those of us facing toward the west—down that lonesome road of the long ago. The world is so vastly different now that one does not have to be ancient to feel out of place in it; unsuited to conditions of which he cannot become a part, having been nurtured in simplicity and fed on fundamentals of a slow-moving age.

Arriving at our destination mother would make the rounds of her sisters and old acquaintances while I basked in the favor and enjoyed the mothering of my girl cousins. I liked it, for I always did like to be mothered and I still do. Long ago I figured some day I would marry a big strapping woman to mother and fight for a season of mothering. How far I missed the mark! At least to the size and fierceness.

An incident graced sharply on my memory had to do with a call mother made upon an old acquaintance on one of our trips. I remember we found her in tears and she and mother talked long and in subdued tones. I missed the beautiful girl in this home who was always one of my "sweet hearts," and it was many years later that I learned the cause of the tears and the reason for her absence. Beautiful thing that she was, her circumscribed life in the backwoods, perhaps a longing to escape so common-place surroundings, caused her to lowwisely and her infant was placed in her arms for their last long sleep.

I remember her in sumnerly attire, picture hat and a fluffy dress of white voile. Whether that was the manner in which she was put away I don't know and altho to dust she has long since returned, to me she sleeps back yonder in old Spring Hill cemetery dressed in white, picture hat and all, with her infant asleep in the crook of her arm.

Bill Would Exempt Hail Sufferers

Representative Claud Senn has introduced a bill in the legislature designed to exempt hail sufferers from the five mill property levy in case they were left with only a third of a crop. Representatives Pope and Dominick of this county and the representatives of several other counties joined Mr. Senn in introducing the bill. Speaking of the bill Mr. Senn said he believed it stood a good chance of passage since several counties were affected by hail and that the bill would have the solid support of these. Laurens, Lexington, Calhoun, and Marlboro are some of the counties which suffered last summer as a result of hail, but seemingly Newberry was harder hit than the others.

STUDENTS HEAR PROF. EPTING

Professor T. E. Epting was the outstanding speaker at the chapel exercises of Newberry College Wednesday morning when an appropriate program was held in celebration of the birthdays of Lee and Jackson. Mr. Epting had as his topic, "Christ in the Camp."

The speaker stated that it was the general conception that when men entered a camp, they leave religion behind—that religion and militarism are thought incompatible. "The men and leaders of the Confederacy were men motivated by religious principals," remarked Mr. Epting, as he proceeded to give several testimonials of outstanding men of the Southern army of the presence of religion in the camps.

The college French professor pointed out that countless numbers of testimonials could be found proving that the Confederate forces permeated the entire army. "The army of the Confederacy, its leaders and men, truly had Christ in the camp," concluded Professor Epting.

Devotional services for the morning were led by Dr. R. A. Goodman and the speaker was introduced by Mrs. R. D. Wright, president of the Drayton Rutherford Chapter of the United Daughters of the Confederacy. Special vocal numbers were rendered by Professor Milton Moore, Miss Sybil Pruitt, and Miss Mary Helen Goodman.

This fitting celebration is observed at Newberry College each year by the two local U. D. C. chapters, Drayton Rutherford and Calvin Crozier.

DOWN MEMORY LANE

Columbia, Jan. 17.—W. A. McSwain of Newberry was today elected insurance commissioner to succeed F. H. McMaster, who was not a candidate. Mr. McSwain received 100 votes.

When Dr. Bowers asked a man in the questionnaires catechism if he spoke any other language, the man replied in the negative, saying that he didn't curse. He must be a good man to think that cursing belongs to a foreign language.

The fuel administrator has ordered all manufacturing plants east of the Mississippi to close down for a five day period to save coal. This includes all heated buildings that use coal. And this is to last ten weeks, all plants to be closed down on each Monday. As to Newberry it affects the Newberry cotton mill and the Mollohon Manufacturing company. The Oakland company is run by electricity from the Southern Power Co.

Appropriate exercises in honor of Robert E. Lee will be held in the high school auditorium Friday, January 18, at 4 p. m. There will be singing, a recitation by Mary Alice Hipp, and a short talk by Rev. E. V. Babb. The Calvin Crozier chapter, UDC, which has this meeting in charge, invites all to be present.

The legislature will very probably remain in session the full forty days. Two weeks of the session are now about gone and nothing has been done of any consequence.

The government's thermometer in Mr. W. G. Peterson's observatory registered 15 degrees Saturday. It fell to 8 Sunday and rose again to 20 on Monday.

The Dutch Weather prophet predicted the snows that have fallen. W. P. (Weather Prophet) Housel is a successful w. p. He now says the severe form of winter has passed. This will be confidently and thankfully entertained.

The food administration has decided to purchase 30 per cent of the output of the flour mills. Out of this it will supply the allies, the army and navy and will maintain reserve stores to meet local shortages.

Washington.—Woman suffrage by federal constitutional amendment won in the house with exactly the required number of affirmative votes. Announcement of the vote was greeted with wild applause and cheering. Women in the galleries literally fell upon each other's necks, kissing and embracing, and shouting "Glory, Glory, Hallelujah!"

The railroad situation has improved under government operation sufficiently to guarantee that there will be no further coal famine in any part of the country this winter. Director General McAdoo was informed by A. H. Smith, assistant in charge of transportation on eastern lines. Local shortages will be inevitable under existing conditions, Mr. Smith said, but indications are that no important industries will be forced to shut down because of lack of fuel.

HAS PITCHED 50 CROPS

C. E. Earle was in to see us a few days ago and remarked that in his long life he had pitched more than 50 crops. Mr. Earle had an attack last August but now he looks hale and hearty. He says that after resting awhile he feels like doing as much as ever but finds he soon tires. At 74 he has earned a rest and has learned what many never learn—that old machine "ain't" what she used to be and will have to have a little petting from now on. Of course he subscribed to the Sunpaper and we expect to collect \$25 more from him, a dollar at a time, before he joins the "angelic choir."

JAMES AULL ACCEPTS POSITION IN COLUMBIA

James Aull has accepted a position with the R. L. Bryan Company of Columbia. He began his work there Monday. Mr. Aull was recently employed on a local newspaper. Mrs. Aull and daughters will remain in the city at 1401 Boundary street until the schools close in June.
