Mr. Kennedy apparently lost out in his squabble with Secretary of Labor Perkins concerning legisla-tion to curb labor disorders in the American merchant marine. SIX bombing planes of the United States army air corps success-fully completed an epochal mass flight of 6,000 miles from Miami, Fla., to Buenos Aires. The only intermediate stop was at Lima, Peru. From there the bombers roared over the snow-capped Andes and landed at the Argentine capital, where thousands cheered the aviators. The planes carried 48 men besides the flight commander, Lieut. Col. Robert Olds.

Jack traced Fritz to an address in Camden, N. J., and from there to St Louis, Mo. From there the trail led through Chicago, Milwaukee, Hancock, Mich., and finally ended in Calumet, Mich., where Jack was told

that Fritz was working in a copper mine called the Quincy shaft. It was the spring of 1923, a year after he had started, when Jack finally got to the same town his man was in. But still he didn't know then see how His home folk virtual-ly made the power of the omnipowhat the man looked like. thrust Him over the precipice, and He in all the glory and poise of the Son of God had walked through their

With them putting into effect the new farm law were Halifax and Sir Alexander Cadogan, permanent undersecrewhich gives him increased powers tary for foreign affairs. It was learned that the break between Chamberlain and Eden came to a climax a few days before when Grandi and the prime minister had a conference concerning the basis on which negotiations might be opened for a general understand-ing between London and Rome. Some British leaders feel that

ers, and is prepared to defy any combination of powers which may be formed against her.

Here are some of the other things Hitler told the reichstag:

Germany refuses to accept "credits or other promises" in substitution for the colonies taken from her by the treaty of Versailles.

Reports of dissension between the Nazi hierarchy and the Reichswehr are "nonsense" and in his new role as supreme commander of the Reich's armed forces he has decided to "strengthen the army to prevent the menace of war."

Germany's relations with Great Britain can not be improved so long as British statesmen and newspapers attempt to meddle with what the Reich regards as its own internal affairs.

Germany has no intention of returning to the League of Nations. -\*-

#### Halifax Succeeds Eden

R EFUSING to go along with Prime Minister Neville Chamberlain in his plans to "buy" a friendly settlement with Germany

and Italy, Capt. An-thony Eden, British foreign secretary who has fought the ambitions of European dictators for two years, resigned from the cabinet. With him went Viscount Cranborn, the principal foreign undersecretary. V i scount Halifax was appointed to suc-

ceed Eden temporarily. This change was in effect another triumph for Hitler, was especially regretted by France, and threatened to precipi tate a serious crisis for the British

government. Viscount Halifax, lord president of the council and former vicerov of India, is a personal friend of Hitler and an insistent advocate of immediate friendship with Germany and Italy, even at the cost of great concessions by Britain. He was sent to Berlin not long ago to talk over

matters with the Nazi leaders. Eden told the house of commons that he had resigned rather than deal with Italy in the face of Premier Mussolini's "rife, hostile prop-

mans in that country. From Prague, the Czech capital, came word that Czechoslovakia would not even negotiate with Germany regarding autonomy for those Germans and would not yield to coercion as did Austria. Officials said that if negotiations are Hitler's aim,

### For Price Increases

BEFORE going to Hyde Park for a short vacation, President Roosevelt announced two moves designed to restore prosperity. He declared the administration's economic policies are being directed toward a limited increase in prices, to be achieved without inflation or any substantial increase in the cost

of living. He ordered the Reconstruction Finance corporation to renew its lending to industry and the railways.

The President specifically mentioned farm prices as needing to be increased. On the other hand, he said certain other prices, such as those in the building industry, have remained at a high level for the Lord Halifax

last few years. No specific monetary action is contemplated to increase those considered too low, he added.

The meteorological and hydrographic records compiled by the scientists in their vigil through the arctic night are expected to help Russia in plans for regular transpolar flights from Russia to the United

#### **Rumania Goes Fascist**

R UMANIA is now a Fascist cor-porative state of guilds patterned after Italy. This was settled when Kirg Carol proclaimed the new constitution, which provides for

a parliament composed of guilds of farmers, workers and intellectuals. Both the chamber of deputies and the senate are reduced in size and election of members is to be by trades and professions, not by po-

King Carol litical parties. The

king will appoint half the senators and will have veto power over all legislation. All Rumanians are declared equal, with radical distinctions, and religious freedom is granted with the Orthodox Rumanian church as the state religion. Trials by jury are abolished and the death penalty reintroduced for

certain crimes. The constitution was created by Rumania's powerful crown council, a special body established by King Carol to define general policies and chart the course of parliamentary measures. Carol and Dr. Miron Cristea, head of the nation's latest cabinet, collaborated in drawing up

the constitution.

#### He Was About to Brain Jack.

When the car stopped Jack turned to look at Fritz. That move saved his life. For there was Fritz, the copper ingot in his hands, holding it high above his head, ready to bring it down on Jack's own cranium. Somehow he had found out that Jack was a detective out to get him—and he was going to get Jack first if he could.

"I ducked," says Jack, "and the ingot hit me a glancing blow on my left shoulder. I was stunned for a minute, nevertheless. My senses left me, but I must have fought on automatically, for when I came to again have known that Jesus had His wis-I found myself half out of the car gripping the edge with my fingers while Fritz was trying to break my grip and throw me over the side.

"Usually I carried a small automatic revolver, but this time I had orders to bring my man back alive and hence carried a different sort of weapon. "I got that gun out and fired it. It gave a loud report and

sprayed Fritz's hands with the concoction. When he saw that he said, 'Stop-I'm shot' and gave up the battle."

Fritz didn't know he actually hadn't been shot until he was back at ground level again and Jack had him safely locked up in a mine storeroom. Later he was taken to the local jail and, later still, extradited to the state that wanted him for trial. "He was sentenced to jail for twenty years at hard labor," says Jack, "but that doesn't half make up for the forty years' growth he scared me out of." Copyright.-WNU Service.

In John 7:17 Jesus gave the answer: "If any man will do his will, he shall know of the doctrine, whether it be of God, or whether I speak of myself." We see then that the reason for their unbelief was really an unwillingness to do the will of God. The controlling motive of their life was wrong. Had they been moved by a desire to do God's will, and a purpose to live in accordance therewith (even though there might have been failure in

that earnest effort), they would dom from God. II. The Power of Divine Commis-
