#### A FINE RECORD

Cecil Kinard of West End is perhaps Newberry's most consistent church-goer. Word has reached us that with only one miss he has attended two Services each Sunday (A. R. P. Sabbath) for seven years. That foots up 720 services. The single time he missed was caused by a call about church time of a plastered citizen he could not well shake. Even then we expect Cecil got in a litle missionary work.

## GUB'MENT MATTRESS

The tale is told of a local aged Negro who found a woman more to his liking than the one with whon he had spent most of his life. Finding his newly acquired bride needed a mat-tress he took a wheelbarrow and went to the home of his former wife who was as yet unaware that she was a widow and told her the government was giving brand new mattresses for old ones. The old lady fell for the bait and the philandering male wheeled her mattress off to his new Ga.

We're going to have a barge line! No? Yes! Its going to start somewhere down about Augusta, but its coming up Saluda river, into Bush and fin-ally up Scott's creek. That will be a great day for old Newberry when the good ship Chamber of Commerce comes puffing and grunting up Scott's creek to the College street wharf and lays a shirt factory right on the lawn of the A. POCTOR KNOWS BEST Faith is a wonderful thing, and nowhere does it accomplish better physical results than in one's confidence in his or her doctor. I recall an instance of a happy husband who had the idea that his physician was really infallible. The poor dub's wife fell seriously and suddenly sick, and he called in his favorite medico. The wife lay still and medico. The wife lay still and speechless—and a speechles wife is almost positive proof of death, I take it. After quite an ominous silence the doctor turned to his friend and sadly said: "Well, my friend, your wife is dead." Whereupon the little lady opened her eyes in surprise and assured the doctor that was NOT dead at all. To which husband retorted: "Hush, Sarah, doctor knows."
