Figures Reflect Sound City Management

Newberry City income ran a little over budget expectations for the first five months of the operating year, while expenditures were a little off, reports Mayor James E. Wiseman.

Total receipts as of March 1, 1950 were \$248,160.62 against a budget estimate of \$204,668.85. Expenditures came to \$196,100.95 against an estimate of \$207,712.25. Although the city of Newberry is operating in the "black" so far, it is further noted by Mayor Wiseman that only 76 per cent of the real estate and personal property taxes have been collected and that only 64 1-2 per cent of the businesses in the city paid their licenses before the penalty went into effect. The cost of running the city the past 5 months run like this:

Administrative	\$42,514.98
Police department	15,024.07
Fire department	5,029.55
Health department	1,350.00
Street department	16,279.19
Trash and garbage department	11,680.30
Insurance	986.58
Repayment bank loan	20,000.00
New equipment	1,245.13
Withheld taxes (employee income)	2,937.60
Repairs to public buildings	1,301.66
S. C. Retirement System (employees) paid	3,752.12
Discount on Taxes Paid	563.08
Inventory—gas and oil	376.11

Mayor Wiseman says that although the picture looks bright at the near-halfway-mark of the year, it must be kept in mind that the City has received the majority of revenues for the entire year and that expenditures for the next six months will be greater than in the past five in view of the fact that the new sewer disposal plant will soon be in operation and also that the city is planning improvements to the utility system.

The Mayor added that the addition to the Water Filter plant has been completed and Newberry now has a filter plant with a capacity of 2 million gallons per day. He does not anticipate a water shortage in the foreseeable future.

Day in and day out throughout the year the cost of running the city is \$900 for each of the 365 days said Mr. Wiseman.—Compiled for The Sun.

But Fight In Vain

My crusading friend J. K. Bredin of Manning wired me twice Tuesday to give front page prominence to a protest against the Columbia free spenders. The Colonel is alarmed over the size of the appropriation bill and the threat of new taxes.

I "fought the good fight" along with the Colonel for many years at some material loss. I did not mind the loss as long as I thought something worthwhile was being accomplished but I failed to see where our yapping paid off, so I quit and informed the good Colonel. I told him I was tired of swimming upstream; that anything the rascals did in the future was OK by me.

That was some years ago. I am even more determined in my stand today. What can a few voices accomplish against a nation-wide spending spree set in motion by Washington's billions, caught up by states and municipalities and all of it shot thru with graft and corruption?

That we are headed for hell and destruction is a little doubt. Many of the men who are spending this nation into bankruptcy are sincere men but they are not men with vision or well grounded in the history of nations. They do not realize that after a while they will have to remove all liberty to make their schemes work. Lenin and Stalin did not set out to enslave the Russian people but they had to enslave them to carry out their ideas of government. It can happen here. It is happening here, at an alarming rate.

There is hardly a family today in which some member is not a recipient of a government handout in one way or another. Hundreds of thousands live in government owned houses and subsidies of one sort or another ties other tens of thousands to Uncle Sam. Gradually the tentacles of bureaucracy are closing about the people and once the pressure is applied it will be too late to yelp about "rights." These will be no rights except those the dictators wish to hand out. They packed the supreme court. They can junk the constitution, or nullify it.

I believe you will confirm my judgement to let the rascals rove, ramble and stamped and join me in sackcloth and ashes while we await the shackles.

Graham To Center Be

Newberrians will have the privilege of hearing Dr. Billy Graham, Thursday, March 23rd at 7:30 p.m. in the College Gymnasium. If weather permits, the meeting will be held in the College Stadium to accommodate the crowd. Coming with Doctor Graham will be his entire party including Ted Smith, pianist; Beverly Shea, soloist; Rev. Grady Wilson, Assistant evangelist; Cliff Barrows, song leader, and Mr. W. G. Haymaker, who is in charge of the South Carolina tour.

Billy Graham is a native of Charlotte, North Carolina and is now serving as president of Northwestern Schools, Minneapolis, Minn. Graham is, to date, a rock-ribbed conservative. It may surprise some who have not heard him, but Graham, so far, has not resorted to "much softening, emotionalism" in his preaching; indeed, to date, the Graham preaching has been realistic, rather than sentimental. Graham's reading of the Bible is unique, and undoubtedly for many makes the Scriptures ring as they had never heard it ring before. In preaching the oldtime religion he has drawn throughs in Los Angeles, Cal., Boston, Mass., and now in Columbia. Thousands have been turned away in Columbia alone.

His closing service in Columbia will be held Sunday, March 12 at 3 p.m. in the University Stadium, which will seat over 35,000. Many from Newberry will go to Columbia Sunday. If you desire a ride, please leave your name with Jimmie Wiseman at Hotel Wiseman by Friday noon, March 10th.
