## Bryson Opposes Textile Imports

Washington, April 5.—The importation of Japanese textile complete with American products was protested by Rep. Joseph R. Bryson of Greenville, in a speech to the House today.

Proper safeguards must be taken to protect the interests of this country's textile industry, the Greenville congressman said, urging House members to fight against the influx of foreign goods.

Quoting from a report of the American Cotton Manufacturers Institute, Bryson said "an ever increasing volume of Japanese textiles is coming into America and competing with our own textiles."

The congressman declared that in Japan the textile worker receives ten cents an hour while in this country the average hourly textile wage is more than ten times that amount.

"Grave thought should be given to the ever increasing import of cotton goods from Japan," he emphasized. "Surely we cannot afford to impair our own industrial security and reduce our high standards of living as we seek to help those in foreign countries." It appears Bryson added, that other low-wage substantial countries are looking to America with the hope of sending their goods here for sale.

"I call upon you, my colleagues," he concluded, "to gird your loins for a fight to the finish against this influx of foreign made textiles."

## Truman Denies Flying Saucers

Washington, April 4.—President Truman and Defense Secretary Louis Johnson took a hand today in the so-far-futile efforts of the armed forces to convince the public there's no such thing as flying saucers.

But even as they chorused skepticism, new saucer reports continued to pour in from various parts of the country.

Mr. Truman announced through his press secretary at Key West, Fla., that he knows nothing of any flying saucers being developed by this or any other country.

"We are not denying this because of any development of secret weapons, but purely because we know of nothing to support these rumors," said Press Secretary Charles G. Ross.

Johnson told reporters with a grin that he'd like to have a few saucer squadrons to beef up national defense. But he added soberly that he is "satisfied there is nothing in" the various reports.

He specifically supported previous Air Force and Navy denials that they are experimenting with new aircraft or guided missiles which would explain the reports.

## Sale of Seals Will Help The Crippled

There is still time to purchase Easter seals.

Officials of the Crippled Children's Society said yesterday many persons have responded to the drive but hundreds of others have failed to send in remittances for seals mailed them.

Everyone is asked to remember that every Easter Seal bought helps a crippled child along the road to recovery.

The S. C. Crippled Children's Society needs \$100,000 to carry on the work it is doing today.

Easter Seals help crippled children walk, play and learn.

## Solons Alarmed About Finances

Columbia, April 4.—The House of Representatives became alarmed over the state financial condition today after salaries of 5,000 state employees 16,000 teachers and appropriations of all departments—except the highway—were cut 24 percent for the last three months of the current fiscal year by the Budget Commission.

Brushing aside all other state matters today the House wrestled with the problem for two and a half hours and then assumed responsibility of starting a revenue measure to provide additional funds if the Budget Commission rescinds its action.

What type revenue measure will be adopted to raise the necessary 3,700,000 was not determined. Several methods were suggested. A general sales tax and a statewide property tax.

State employees awoke Sunday morning to learn that almost one fourth of their salary would be withheld by the state during April, May and June. An employee whose salary is fixed at \$3,000 a year would lose \$60 per month for the three months.

## Warings Feel Sorry For Us

Richmond, Va., April 2.—Judge and Mrs. J. Waties Waring, of South Carolina, said here today that "Force, not gradualism, is the only way to gain rights for the Negroes in the South."

"Give the South the shock treatment," Mrs. Waring said. "This hatred of the Negro is an obsession and an insanity. The shock treatment of modern medicine is the only cure."

The Warrings, who have aroused critical comment in South Carolina because of their stand against segregation, spoke before about 150 persons at a meeting of the Richmond committee for civil rights.

Mrs. Waring declared: "When a Southerner says 'Leave us alone, we'll handle our problems ourselves,' just remind him it has taken a long time and everything that has been accomplished has been done by the NAACP (The National Association for the Advancement of Colored People)."

"The weakness of the South is a terrible word—'fear,' she said. She added that her husband used force through his court, "and it got results."

"White supremacy and the politicians are like Russia," Mrs. Waring said. "They coexist with lynchings and threats. We can never have Democracy that way. We do not hate Southerners. We just feel very, very sorry for them."
