He stole from its nest in my golden hair
A knot of ribbon blue;
He placed on my hand a jewel rare,

Farm and Gardens.

Agriculture is the General Parent of man: It
is the Basis of all others, and therefore, the
most Useful and Honorable.

Sheep-Raising.—An experience of
several years in sheep-raising, has taught
me that the dangers to be guarded against
in Tennessee—and a fortiori in States
further South—are very different from
those that affect breeders in England or
the North.

One great enemy, indeed, we have in
common with them—the dog. Against
him I know of but one effective weapon—
strychnine. It is quiet and sure, and
spite of all the arguments of incredulous
dog-owning neighbors, who declare that
the innocent only suffer by it, I find
that it stops the sheep-killing—usually
for months after a good dose is put out.

But we have one obstacle to overcome,
not mentioned in any work on sheep; it
has met my eye—a long, dry spell in
August and September, during which all
vegetation is parched, the growth of
fresh grass suspended, and water becomes
scarce and bad. At this season, my
sheep are so much troubled by the fly
and the heat, that they entirely reverse
their habits—standing or lying in the
shade all day and feeding only at night.

The remedy is to have the lambs come
earlier than is advised by the standard
authorities, and to this end the rams
should be put with the ewes not later
than the 15th September, and removed by
the 1st November, or at the farthest by
the 10th. The lambs will then come
between 15th February and 15th April,
and will be tolerably advanced by 1st
of August, when they should be weaned
and the ewes received from the drain of
nursing them.

There is another advantage in early
lambs, when bred for the butcher—that
they come in quite in advance of the
Northern market, bring fine prices and
command a ready sale. For instance, I
got \$3.60 per head for my earliest lambs
this year—the rest ranging from \$3.50 to
\$3.00 each when the same size.

This summer drought (which we scarce
ly ever escape) is an element that every
Southern farmer ought to consider, in his
calculations for the year. It wonderfully
reduces the grazing capacity of our
lands, and the farmer who stocks his
farm with what it will bear in May or
June, may find he has double his proper
number of cattle or sheep in September
or October.

These remarks are the result of a some-
what costly experiment. If they save any
of your readers from loss, I shall be glad.
One word more—it is better your ewe
should miss breeding than to have her
drop a lamb in May or June.

WIND COLIC IN HORSES.—The best
and cheapest remedy that I have ever
known for colic in horses, is to take a
bunch of cotton rags, put them into an
old tin pan, and set them on fire so that
they will smoke but not blaze. Hold it
near the horse's nose, so that he will
draw the smoke through his nostrils. Do
this for about fifteen minutes; the horse
will sweat, the wind pass off, the horse
will shake himself and may lie down
and roll, and will eat his mess all right.
Many who have tried it can testify to it.

The Gales of Araby are not spicier than the
aroma which the fragrant Soudon imparts to
the breath. Nor is the heart of the ivory nut
whiter than the teeth that are cleansed daily
with that matchless fluid.

To Owners of Horses.—No one who has ever
used Dr. Tobias' Venetian Liniment, will ever
be without it; it is a certain cure for Colic, Fore
Throat, Cuts, Bruises and Old Sores. Warranted
superior to any other; in pint bottles at One
Dollar. Sold by all Druggists. Depot, 10 Park

neatly put up in UNEXPANDED 2 oz., 5 oz. and
10 oz. bottles, and are for sale by the trade generally,
in every principal city and town in the
United States, Canada and British Provinces,
as well as in many other foreign countries.

Help for the Hopeless.—You are weak, de-
jected, miserable, and nothing does you any good
you say. Don't despair. There is balm in Gilead
Have you tried Vinegar Bitters? No! Then
why don't you? Whether your complaint be
dyspepsia, biliousness, nervous weakness, con-
stitutional debility, or any other trouble, Vinegar
Bitters will revive and renovate your shattered
system, as a genial rain refreshes the withered
flowers.

Can be consulted on the following diseases,

and diseases of a kindred nature, free of charge

and in strict confidence.

Charges moderate, and within the reach of

all. Office hours from 9 a. m. to 7 p. m.

RHEUMATISM and NEURALGIA.

In all arthritic complaints, as rheumatism

gout, neuralgia, etc., this practice is almost per-

fect. The most intense pains are almost in-

stantly relieved—enormous swellings are re-

duced—limbs which have been contracted and

stiff for years are relaxed. Cases of twenty,

thirty and forty years' standing have been cured

by me, after all other means have failed.

A great accomplishment is my triumph over

pain, by which I can often, in a few moments,

teethe and carry off the most excruciating suf-

ferings.

If this system did nothing more than to re-

lieve pain, it would stand superior to any other

system extant.

CATARRH.

Stopped-up Head, Running of the Nose,

constant hawking and spitting,

constant Blowing of the

Nose.

Thousands suffer from that most annoying

disagreeable complaint—Catarrh, without

knowing what it is.

Often the secreted mucus flowing down the

throat clogs up the lungs and lays the founda-

tion for consumption.

The most skillful physicians fail to cure it.

I cure any case of obstruction—stopped up

head—discharges of greenish, thick, thin or

glairy mucus from the nose, internal or ex-

ternal—pain or fullness between the eyes—con-

stant blowing of the nose—inflammation of the

nasal passages, ulceration of Schneiderian

membrane, etc., in the course of a few days.

DEAFNESS.

Nervous Deafness, Noises in the Head, Otor-

rhoea—Otitis (discharge from Ear),

Paralysis of Auditory Nerve.

I am daily treating all affections of the ear

with the most gratifying results. Some who

had paid aurists nearly \$1,000 without benefit,

have been cured by me in a few weeks at moderate

expense.

MERCURIAL DISEASES.

Mercury, injudiciously used, has filled the

earth with wrecks of humanity. Thousands

suffer from its effects who have been uncon-

sciously drugged by their physician. It is vain

to attempt the cure of the majority of diseases

while it remains in the body.

Although I have heard of several so-called

antidotes for mercury in the human body, I

have never yet seen a physician who could

eliminate it from the system.

I can satisfy any patient or physician that I

can absolutely extract mercury, lead, zinc, and

other mineral poisons, in every case.

CANCERS.

Noli-ma-Tangere, Lupus, or Wolf Cancer,

Scirrhus Cancer—Fungous Cancer,

Rose Cancer—Spider Cancer.
