The Alding,

An Illustrated Monthly Journal, universally admitted to be the Hind onest Paris Leal in the World. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores. THE ALDINE, while issued with all the reg-ularity, has none of the temporary or thirdy interest characteristic of ordinary periodical-It is an elegant miscellany of pure, light, and It is an elegant mizechaiy of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE, will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE with rivals of a similar class, THE ALISINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a com-plete volume cannot duplicate the quantity of fline paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides!

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last Fall, when THE A LLINE as-sumed its present noble proportion and repre-sentative character, the edition was more than could during the past year; proving that the American public appreciate, and will support a sincere effort in the cause of Art. The pub-lishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguing friends of TILE AL_{τ} DINE.

The publishers are authorized to announce designs from many of the most eminent artists

of America. In addition, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have become familiar, through photographs, or copies of any kind.

The quarterly tinted plates, for 1873, will reproduce four of John S. Davis' inimitable child-sketches, appropriate to the four seasons. These plates, appearing in the i-sues for Janua-ry, April, July, and October, would be alone worth the price of a construction. worth the price of a year's subscription,

The popular feature of a copious'y illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art . world at a cost so trilling, will command the subscriptions of thousands in every section of the 4:30 p m country; but, as the usefulness and attraction 4 9:00 a m of THE ALDINE can be enhanced, in propo-tion to the numerical increase of it' supporters, 4:30 p m the publishers propose to make "assurance dou-bly sure," by the following unparallelled offer o

It is not an adventure gotten up for the benefit of stockholders, but a purely mutual company, managed entirely for the benefit of those who take policies in it.

As it invests its funds at 10 per cent., while New York companies being compelled by law to invest in their own State, only earn 6 to 7 per cent, We claim that our dividends will be larger and consequently insurance cheaper than any New York company. nov 27-3mo
