His Persons Work.

f the most curious and at the ime most dangerous callings d by any man is that which has amous the individual known sa nerican steeple climber." What name is has never been ascerbut under this cognomen he is throughout this country and That he is a man of rare nerve ing is shown in the many perilts he has performed in his parcalling and in spite of many adth escapes from being dasneath he is still in love with his en years ago, when he was a

n the United States navy, he ed his first feat of climbing, e gilded a cock on the top of e at Bremen. The authorities a large sum of money to any ho would do the job and "the an steeple climber" was the e who had the nerve to tackle decided to adopt steeple climbprofession and has since fol-

MERICAN STEEPLE CLIMBER

t. As is natural in such danwork he has met with scores of its, but he seems to bear a d life. While working on the pole in New York he received ric shock and, losing his head, to the roof of the building, a e of 75 feet. He escaped unand in a short time was back t work. At another time he inting a flag pole on a school in New York when the pole through the roof like a shot and e came to he was sitting on the th the top of the pole clasped arms. He was badly bruised, nted to continue his work.

reatest feat was the placing of taff on top of the Eiffel Tower During the sixteen years he en in business he has climbed g poles and sixty-three steeples. no scaffolding whatever. When bs a steeple he affixes little of rubber to his legs, which fast hold of the steeple and he does the same when climbing a flag pole. When he reaches the top he ties a rope and slides down with it.
