Eighteen iced drinking fountains are maintained through the summer in Providence, R. I. The first was established in 1894 by the Young Woman's Christian Temperance Union, and later the city authorities took hold of the work. About forty tons of ice is required for each fountain during the season. It is placed in an ice chamber containing coils of pipe.

The Millionaire's Regret.

Dismal Dawson-Funny' isn't it, that a millionaire ain't happy?

Everett Wrest-I see nothin' strange about it. It is the time they have wasted that makes 'em sore when they think of it.

"Time wasted?"

"Sure. Don't you know that most of em has spent their lives in hard work?-Indianapolis Journal.

Pumice Stone in America.

Heretofore our supply of pumice stone has come almost exclusively from Italy. Now an American product is forcing its way into the market. This material has been found of excellent quality in Western Nebraska, and in a pulverized form. There are seven different deposits, these comprising in all about 400 acres. According to a report made by Prof. R. G. Salisbury of the University of Chicago, there are approximately 800,000 tons in sight. The deposits, with adjoining lands, have been acquired by the Chicago Pumice Company. They, however, desired also a lump pumice stone. After much search such a deposit was found in Utah, 245 miles south of Salt Lake City. This property comprises 120 acres, and it is virtually an entire mountain of the

material of all degrees of purity.-Man-

ufacturer.

GEORGE M. PULLMAN FOUND DEAD. Millionaire Palace Car Man Suddenly Expires in Chicago.

George M. Pullman, the man who made it possible to travel in comfort and who bears the distinction of having precipitated the greatest strike on record in America, and who has succeeded where others failed in establishing a communal town, died suddenly of heart disease in Chicago at 5 c'clock a.m. Mr. Pullman's death occurred in his magnificent brownstone home at the corner of Prairie avenue and Eighteenth street, where he lived for many years. Mr. Pullman, while in apparently good health recently, formerly had some stomach trouble, which he attributed largely to the condition of his eyes. It was not known that he was ill, and the first knowledge that the end had come was reported when the lifeless body was found. Mr. Pullman retired to his room as usual, not complaining of any ailment. No one was present when the end came, and death, it is sup-

posed, was due to apoplexy or heart disease. George Mortimer Pullman, head of the great palace car company that bears his name, was born in a small town in Chautauqua County, New York on March 3, 1831. His chief inheritance poverty, he struggled during his early boyhood to acquire an education, but at fourteen was forced to give this up, entering the employ of a country merchant, and finally at seventeen joining his elder brother in a cabinet-making business at Albion, N. Y. In 1859 he moved to Chicago and engaged in the then novel business of raising entire blocks of stone or brick buildings. In the same year his attention being directed to the great disconforts of long-distance. to the great discomforts of long-distance railway traveling, he remodeled two old day coaches of the Chicago and Alton into sleeping cars, and, these proving acceptable to travelers, he, in 1863, built the "Pioneer" at a cost of \$18,000. This car, although crude as compared with those of the present day, was built on practically the same plan. From this small beginning has grown the great Pullman Company, which, organized in 1867, now operates about 2500 palace cars on more than a hundred thousand miles of railroad. Besides forming the car company, Mr. Pullman in 1880 founded the town of Pullman, Ill., in which are the Pullman car shops Pullman's fortune has been estimated at \$40,000,000.

Mr. Pullman was a brother of Rev. Dr. J. M. Puliman, former editor of the Christian Leader. He leaves two sons, Sanger and George M., Jr., and two daughters, Mrs. Carolan, of San Francisco, and Mrs. Frank O. Louden, of Chicago.

BISMARCK ON MONROE DOCTRINE. He Thinks It a Piece of Insolence on the Part of the United States.

The Neueste Nachrichten, of Leipsic, publishes a report of a conversation which Prince Bismarck is said to have had with a recent visitor, in the course of which the x-Chancellor is quoted as saying that the Monroe Doctrine is "uncommon insolence toward the rest of the world, and does vio-ience to the other American and European States with American interests." e analogous, the Prince is said to have added, if Russia and France combined to disallow frontier changes in Europe, or the preponderating Powers in Asia, Russia and Great Britain arrogated the right not to change the political status without their

Continuing Prince Bismarck is reported to have remarked: "Their great wealth, due to the soil of America, has led the American legislators to over-estimate their own rights and underestimate the rights of the other American and the European States."

TRIED SUICIDE SIX TIMES.

Wealthy Farmer Who Feared Poverty Hanged Hinself Successfully.

Thomas H. Hooper, a wealthy farmer who lived near Trenton, N. J., after six attempts at suicide, succeeded in hanging himself from the rafter of a barn.

Hooperimagined that he was becoming oor, because he did not receive large returns from his farm, which he had leased on shares. He was afraid of ending his days in an alms-house, and so determined on death. He tried paris green twice, he cut his throat once, he threw himself in a lake, and twice put the rope around his neck. He had been closely watched by the members of his family. On the day of his death he chatted cheerfully, and then went to the barn and hanged himself. He leaves a large estatε.

FIGHTING IN INDIA.

British Fall into an Ambuscade and Have Fifteen Killed.

Two squadrons of the British Ninth Bengal Lancers fell into an ambuscade in the hills between Bars and Mamanni in India A native officer and fourteen sowars were killed, seven sowars were woundd and twenty-seven horses were killed.

In the fighting between the brigade of roops commanded by General Sir Yeatman Biggs and the insurgent tribesmen from Chagru, on the Samana Range, Major Jen-nings Bramley and two privates of the Gor-don Highlanders were killed, Lieutenant Pears and fourteen privates of the King's Own Borderers were wounded, seven native soldiers were killed, and thirty-eight native soldiers were wounded. The loss of the enemy was severe.

Suicide Follows Fire.

Rather than face her brothers, for whom she kept house, fearing that they would blame her because the house caught fire during her absence, seventeen-year-old Mamie Lynch, of New York City, went to her sister's house to sleep, and during the night committed suicide by poison. Since her sister Josephine's marriage, several years ago, Mamie had been housekeeper for the two brothers, Jerry, who is a paver, and Cornelius, who is a lithographer, their mother and father being long dead.

Pretended to Lynch Them.

After dragging John Hazelrig and Jim Penn, two colored men, through a forest and swinging them up on trees until they were nearly unconscious, a mob at Sum-merville, Ga., decided that they were innocent and released them. The men had been accused of firing the barn of a prominent farmer, and the mock lynching was an effort to extort a confession.

Steamboat Boiler Explosion.

The explosion at Charleroi, Penn., of the boiler of the steamboat G. B. Force, owned by the Pittsburg Plate Glass Company, killed the captain, James Ryan, and the cook, William Patterson. The body of Patterson was found six hundred yards across the river buried in the sand and mutilated. The body of the captain has not yet been recovered.

All the Students Walk Out. All of the students of the Baptist University at Sioux Falls, South Dakota, walked out of the institution, and demand the re-moval of the President before they will re-turn. The arbitrary rulings of the President and the slight provocation on which he inflicted punishment were the causes. It is likely that he will have to go.

A Short Australian Wool Clip.

A considerable shortage in the Australian wool clip is inevitable, owing to the drought, which has caused the death of large numbers of sheep. The Argus esti-mates the total deficiency at 175,000 bales.

BRITISH CABINET AND SILVER. The Mission of the United States Commis-

sioners Apparently a Failure. The United States Monetary Commistion regarding the action taken by the British Cabinet. Private advices, however, convince them that the Cabinet has dealt the deathblow to their mission. It is expected that the Commissioners will shortly be informed that Her Majesty's Government regrets being unable to accede to their proposals, but is willing to listen to any other plan they may suggest. But both other plan they may suggest. But both parties to the conference know that no

other practical scheme can be advanced.

In the event of the expected reply being received the United States Commissioners (Senator Edward O. Wolcott, of Colorado: (Senator Edward O. Wolcott, of Colorado: ex-Vice-President Adlai E. Stevenson, of Illinois, and General Charles Jackson Paine, of Massachusetts) will return to the

United States. It is learned that the only thing the Cab-inet officially discussed in connection with the currency question on Saturday was Sir James Westland's report. Sir James is head of the Financial Department of India, and his voluminous report took the strongest grounds against reopening the mints

The United States Commissioners believe their failure means that no further effort in behalf of bimetallism will be made for many years to come. They attribute their failure to the opposition of the bankers and of the London Times. Until these forces were aroused all signs pointed to the cooperation of the British Government.

The afternoon newspapers echo the coipings of the marging newspapers.

opinions of the morning newspapers in congratulating the Government on "finally disposing of the bimetallic scare" and ex-pressing regret that it should "ever even have seemed to receive support in high quarters

Hugh C. Smith, Governor of the Bank of England, said to a representative of the Associated Press: "The bank is a private company, without any Government control, and is not responsible to the Government, except in the terms of its charter. The Government cannot issue any orders relative to the bank's reserves. At the same time the Government is the bank's best customer, and the Council of Governors being composed of law-abiding citizens, whenever the Gov-ernment makes a request we do our best to The Government must be precomply. sumed to know what is best for the country.

The press has been filled with misstate. The Government wrote asking if the bank was willing to renew its offer made at the Paris Monetary Conference in 1881 regarding the reserve. I replied in the same tenor as the memoran-dum which the bank sent to that conference, though more guardedly. That is all that happened. The statement that the bank has been coquetting with the American Commissioners is pure rubbish. Excepting what I have read in the papers I have nover heard of those gentlemen."

ADMIRAL WORDEN DEAD.

Hero of the Monitor and Merrimac Fight Expires, Aged Eighty.

Admiral John L. Worden, retired, the hero of the battle between the Monitor and Merrimac during the Civil War died at Washington. Pneumonia was the immediate cause of the old hero's death. He was eighty years of age.

BEAR ADMIRAL J. L. WORDEN, U. S. N.

Admiral Worden was one of the few remaining heroes of the glorious old regime of the United States Navy, which began with its foundation and ended with the close of the Civil War. Born in Sing Sing, Westchester County, N. Y., on March 12, 1818, he entered the navy as midshipman in 1835. He was promoted to a lieutenancy November 30, 1846, and served his country in all quarters of the globe.

He was sent to superintend the construc-tion of Ericsson's Monitor, and left New York in command of her when she started for Hampton Roads to meet and check, if possible, the Confederate ram Merrimac. The victory won there revolutionized the building of the navies of the world. Con-gress gave Worden a vote of thanks, and recommended his promotion. He became a Captain and commanded several of the other monitors during the closing opera-tions of the war. In 1886 he was retired with the full rank and pay of an Admiral, the only instance of the kind in the history of the navy.

MASSACRED BY CHINESE REBELS. The City of Kuang Yang Captured and Many Thousands Put to the Sword.

The city of Kuang Yang, in Hunan Province, has been captured and its inhabitants massacred by a band of rebels forming part of a rebel army which is devastating Huan and Kuang Provinces, in Southern

The bandits scaled the walls of Kuang Yang, with the intention of capturing the provincial prison and releasing three of their members. One band tore down the prison, setting free several hundred mur-derers, thieves and imprisoned debtors. Another gang attacked the central part of the city, first murdering the magis-trate who had sent three of the bandits to prison. His entire family, num-bering thirty-two, including servants, was killed. The night was spent in slaying and plundering. All mandarins and every civil and military officer in the city were beaten. The number killed and injured exceeded 14,000. The insurgents numbered 15,000 men, half of them armed. Their avowed object was to destroy the existing government in Southern China. The Gov-ernment is greatly alarmed, but has no adequate means of suppressing the insur-

White Man Lynched.

A lynching, in which the victim was a white man named Cole, occurred near Wilmot, Mich. Cole had committed a cold blooded murder, and was pursued, cap-tured and hanged by a posse composed of the murdered man's friends. Cole had a bad reputation.

Lovering to Be Court-Martialed.

Secretary Alger has instructed General Brooke to order a court-martial for the trial of Captain Lovering, of the United States Army, in case the captain does not ask for a court of inquiry. Captain Lov-ering, it is alleged, brutally maltreated a private named Hammond at Fort Sheridan, Chicago, recently.

MISSIONARY TO MARRY.

Norton Had No Opposition-The Temperance Movement-Marked Improvement in the Public Schools.

The prospects for a strikingly successful fair this year are brightening. Almost every day some new and attractive feature is developed. Secretary Holloway last week came to the front with a suggestion of a kind of farmers institute during the festival. He gave but the following in regard to the mat-

"In addition to the various attractions already noticed for fair week it is suggested that each night during the fair 2 combination meeting of farmers be called to meet at some convenient place, a sort of cross between a farmers institute and an experience meeting.

"The people from all sections of the State will be in the city with nothing specially to do, and these meetings, it is thought, will not only be well attended but profitable to thos who attend. An hour or more each night devoted to an address upon some agricultural subject, then a discussion to follow, and short talks by farmers giving their practical experience. A general invitation should be extended not only to all men, but to the ladies also.

"The professors of Clemson College are able and will lead off in addresses. Make the occasion a regular love feast for our people."

The Carolina Spartan of last week contains the following: "In a recent issue of the New York Sun there is an interesting interview with the Gilbert Reid, a missionary just returned from China. For several years he worked under the direction of the Presbyterian Board, but he is now preparing to open an institution of learning for the higher classes of the Chinese. He thinks the time has come wnen something can be done in that field. Mr. Reid, and Miss Sallie Reynolds, who went from South Carolina to China eight or ten years ago, under the direction of the woman's board of the Southern Methodist church, will be married in Columbia, November 10th. She will have charge of the woman's department in that in-

A through freight and passenger service has been inaugurated between Charleston, points and on the South Carolina and Georgia road and all points on the Ohio River and Charleston railroad. The schedule arranged and which is now in effect furnishes one of the quickest and most convenient routes for Blacksburg, Gaffney, York-ville, Rock Hill, Camden, Shelby, Marion and Rutherfordton in North Carolina. The distance from Charles-ton to Blacksburg and all points south of Blacksburg has been shortened fully two hours and a half.

The Superintendent of Education has received a great many of the annual reports from the various counties of the State giving the statistics for the present year as to the public schools. All the reports so far received indicate a considerable increase in the enrollment in the public schools, and a handsome increase so far as the length of the session is concerned. This year the schools are getting the income from a three mill instead of a two mill tax.

The State organizer of the Woman's Christian Temperance Union is now making a determined effort to increase its membership and further the field of its usefulness, and with this end in view the president has issued an appeal to the women of the State to ally themselves with the organizations. The president calls upon the women of the State to join the various branches and where none exist to join the great temperance movement.

The will of the late ex-Senator T. J. Robertson, of Columbia, has been probated. The ex-senator left a fortune of about \$1,000,000. He leaves to his widow the handsome home on Arsenal Hill and \$100,000 in United States bonds at 4 per cent. with accrued interest. The rest of the property is equally divided between his two sons, John Caldwell and Edwin Wales Robertson.

With the exception of Marion and Horry counties, the returns of the general election for Congressman from the Sixth district are complete. The five counties which have sent in their returns give Mr. Norton 1,425, the total vote cast. The other two counties will increase the vote to probably 2,000. There was no opposition to Mr. Norton and the election was merely perfunc-

The population at the State hospital for the insane is increasing at an alarming rate. For the past year the increase has been steady and marked. Just at present the population is greater than at any time since the institution was founded. There are now 923 patients confined there. The physicians say that the most of the new patients are women.

The South Carolina State Holiness Association closed its series of meetings at Leesville last week. The meetings were attended by a very large number during the entire session.

Columbia is to have a new ice factory. It will cut prices and the consumers will get the benefit.

The statements of the several railroads of the State for the month of June last compare with those of the same month of the preceeding year. The net earnings were \$27,790.31; per cent. increase of net earnings 5.17; tonnage, 1896, 317,815 tons; 1897, 372,942 tonsincrease 55, 127 tons; passenger earnings 1896, \$166,754.36; 1897, \$163,926.95—decrease \$2,827.41.

Leucorrhæa—"Whites."

This is a disorder from which few women escape at some period of their lives. It is in the nature of nasal catarrh. In a healthy condition the lining membrane of the genital organs secretes sufficient mucus to moisten them, but if the mucus membrane is congested or inflamed, the secretion bocomes profuse, irritating and offensive. The best results will follow the use of our Mexican Female Bemedy as an injection, and adose twice a day for some time of that great uterine tonic, Dr. Simmons Squaw Vinewine, will cure the complaint.

G. W. Q. Ly Energy, Miss., writes; M. A. Simmons Liver Medi-cine has been used 20 years on Father's family had

Nerrousness, Sick Headache, Dyspepala, Biliousness. My Sister was confined to bed for months from Enlargement of Liver. Our Doctor gave her up to die. She began taking M. A. S. L. M., and was soon entirely well. There is no just comparison the latter by careful test having been found not so reliable has been discarded.

Menstrual irregularities.

Puberty is the period when menstruation is established. It is the time when the girl becomes a woman, and also the time from which many female diseases date. The menstrual flow usually continues from three to six days and comes on about every twenty-eight days. The quantity exaded varies from two to eight ounces, but the amount consistent with the health of one person may be excessive and weakening in another. The function is regarded as being regular when its effect upon the system is favorable. The departures from healthy menstruation are numerous and should be corrected by using Dr. Simmons Squaw Vine Wine.
