

**Will Keep You Well**

When you get a terrific sick headache, become constipated or have any stomach or liver trouble, a dose or two of

**Granger Liver Regulator**

will put you in good shape. It is a purely vegetable preparation, non-alcoholic and acts pleasantly and effectively.

Concord, N. H., Jan. 17, 1917  
I was sick six months last year and the doctor told me to go to Florida. I got some Granger Liver Regulator in Florida and it did me good. I brought four boxes home with me and now I am feeling a great deal better.

**Comforting News**

One of the most interesting forecasts for the coming winter on the price of food stuffs is that butter will soar to 60 cents a pound, and eggs at 6 or 7 cents apiece, or 75 cents a dozen, are expected. These statements augur ill for the consuming public during the fall and winter unless Hoover and his food administration board succeed in lowering prices.

Other articles in the food line are also going up in the face of the bumper 1917 crops. In spite of the great corn crop that is one of the largest in the history of America, grist and meal are scarce and the prices are sky high. Meats of all kinds are high, and there appears to be little possibility of any relief in that direction.

## IRON FINE FOR BLEEDING GUMS.

IF TROUBLED WITH SORE, BLEEDING GUMS, USE THIS MOUTH WASH THE DENTISTS USE.

### GOOD FOR CUTS AND OLD SORES.

Any person troubled with sore, bleeding gums, which oftentimes are almost too sensitive to touch, will be elated after rinsing the mouth with a half-and-half solution of water and natural iron, known as "Acid Iron Mineral" which may be secured at most every drug store.

Dentists use it to stop bleeding and as a mouth wash when extracting teeth and it is perfectly harmless. It acts as a germicide and antiseptic as well as a splendid healing agent.

For cuts, this same natural iron is fine. Pouring a little on the spot stops bleeding and prevents soreness and festering. Thousands of people troubled with old sores never healing have found the solution in Acid Iron Mineral, which being a highly concentrated form of natural iron makes a superb external remedy.

Go to the nearest drug store and ask for a bottle of Acid Iron Mineral. If druggists haven't it, send \$1 to the Ferrodine Chemical Corp., Roanoke, Va. for a large bottle.

Note: For piles, ulcers, sores and skin affections, the Ferrodine Chemical Corp. has perfected an ointment consisting of this highly concentrated natural iron and soothing medicinal elements which combined makes this ointment uncalled. Ask your druggist for a fifty cent jar of "A-I-M Ointment" or send direct.

### LOOKS FOR 30-CENT COTTON.

Commissioner Smith Urges Farmers to Store and Hold the Staple.

Col W G Smith, State warehouse commissioner, has issued a letter to the farmers of the State in which he advises them not to rush their cotton to the market but to take advantage of the State warehouse system and hold it for a better price. The commissioner is convinced that the staple will bring not less than thirty cents.

In his letter, Colonel Smith declares that there is plenty of money in the banks and that the bankers will readily loan on State warehouse receipts, and at reasonable rates of interest. He says the year's cotton crop should be marketed very slowly as to rush cotton on the market as rapidly as it is gathered and ginned will lower the price.

"Farmers should see to it that the price of cotton is kept on a parity with the price of other agricultural products," says the letter. "Measured by this standard, the market price should be thirty cents and above; besides the manufacturer can pay thirty cents a pound for cotton and still make a fair and reasonable profit on the manufactured goods."

The farmer who does not own a cow and a few hogs next year will begin to feel the pinch of war-time prices in earnest. The scarcity and high price of all fats is becoming a matter of world-wide concern. The owner of milk cows and hogs can produce his own butter and lard and defy high prices, but the man who has to buy his fats, and without fats one cannot live, will have to pay dearly for them.

### CONVICTED OF MANSLAUGHTER.

Deputy Sheriff Williams, of Anderson, Sentenced to 2 Years.

After deliberating three hours, the jury trying the case of Deputy Sheriff Jim Williams of Anderson, indicted for the murder of V Barney Wilson on May 24, returned a verdict of guilty of manslaughter with recommendation for mercy. The case, which was called for trial last Thursday morning, attracted a great deal of attention and the large court room was packed throughout the day. Mr Wilson, the deceased, had been a special employe of the Federal government, and he was in the company of Postoffice Inspector Curran and Jake Gosnell, also a special employe of the government, when he was shot by Williams. The shooting occurred nine miles from Anderson, late in the afternoon, after the Federal court then in session had adjourned for the night. Williams served as bailiff during the session of the court.

According to the testimony, the men had been drinking Jamaica ginger and whiskey and were in a scuffle when Williams pulled his gun and fired three times. One bullet went wild, but the other two took effect in Wilson's body, causing instant death. One of the bullets passed through Wilson's body and lodged in Curran's right hip, inflicting a painful, but not serious wound. Former Governor Blease was a member of the counsel for the defendant in the trial. Judge I W Bowman sentenced Williams to two years in the State penitentiary. Williams is out on bail pending proceedings for a new trial.

#### Hebron Happenings

Hebron, Sept 12:—The farmers around here are busy picking cotton. Mr and Mrs C W Adams made a flying trip to Cades Saturday morning.

Mrs J S Sellers and grandson, of Marion, are visiting Mr R McElveen. Messrs Leland Coker and Dan Calder of this place have left for Camp Jackson, where they will be trained for military service.

Miss Jeddie Coker has returned from Turbeville, where she has been attending singing school.

Singing school started at Hebron last Monday, the 10th.

Mr and Mrs C W Adams, Mr and Mrs J C Coker and Miss Leola Gibbons visited their sister, Mrs S N Calder, Sunday.

Rev H W Godbold filled his regular appointment Sunday afternoon at Hebron.

Mr W E Smith has left for Clinton, where he is attending school. Protracted meeting will begin at Hebron the fourth Sunday.

### SAVE THE DOES.

During the Hunting Season Kill Only Full-Grown Bucks.

The open season for deer is now at hand in many parts of the country and in fifteen States the law allows both bucks and does to be killed. In the other States does are protected at all seasons. The United States department of agriculture strongly urges that these fifteen should make 1917 a close season on does. It points out that about 10,000,000 pounds of venison are produced in a year.

Since the does as a rule average less in weight than bucks of the same age, killing of a doe instead of a buck usually means considerably less meat. Furthermore the department points out that the supply of deer will not increase if the breeding stock is killed off. The rapidity with which deer increases when does are protected is shown by the experience in Vermont, Pennsylvania and other States, and a doe spared this fall means one more fawn as well as one more doe next spring. Several recommendations are made by the department, as follows:

Do not kill a spike buck or doe when you can obtain a full-grown buck.

Do not kill deer when weather conditions or difficulties of transportation prevent saving the meat.

Save every pound of meat. Save the skin and the head also if the antlers are in good condition.

Do not shoot deer at night, or in the water, or unless you can clearly see that the animal aimed at is a full-grown buck. Failure to observe this rule usually results in a violation of the game laws and often in the loss of human life.

#### NO SECOND CALL FOR ARMY YET.

Crowder Says President is Not Considering Such Move.

Provost Marshal General Crowder, in issuing new rulings concerning the execution of the selective draft law, last Friday reiterated that no date had been set for a second call for men for the national army, and that so far as known, no second call is contemplated by President Wilson.

Rulings issued at the same time provide that a registrant whose order liability does not permit of his being selected for the first quota cannot, even at his own request, be advanced and sent with that quota.

The acceptance of substitutes for men selected for military duty is prohibited, and local boards are instructed not to consider claims for exemption based upon a discharge of a registrant from the army, navy or marine corps at the expiration of enlistment or for some physical disability since corrected.

Another ruling is that registrants may in certain circumstances be exempted or discharged to enable them to continue in non-military pursuits, but after they are selected for military service they may not be assigned to non-military service.

What appeared to be a fully equipped bomb making plant was disclosed to the police in Hoboken, N J, Saturday night when an explosion blew off the roof of a small building as two detectives were passing. A man who fled from the structure was seized by one of the officers. He gave his name as Robert Lichenfeldt and his age as 53 years. He admitted that he is of German birth. The fire that followed was quickly extinguished without additional damage from the dangerous contents of the structure, which is in a thickly populated section. Police reserves removed the bomb-making ingredients, which included bottles of sulphuric acid, muriatic acid, sulphate of iron, nitroglycerine and several pans of white powder.

#### CAR LOADS.

The Williamsburg Live Stock Co. has just unloaded a carload of the famous McCormick Mowers and Rakes and a carload of those good Chattanooga One-Horse Wagons. See them and get the best.

### What is LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA  
A Digestive Liquid Laxative, Cathartic and Liver Tonic. Contains Cascara Bark, Blue Flag Root, Rhubarb Root, Black Root, May Apple Root, Senna Leaves and Pepsin. Combines strength with palatable aromatic taste. Does not gripe. 50c

## And any one of Eight Bodies in a Minute.

A SMITH FORM-A-TRUCK and the famous 8-in-1 farm body covers every possible use for a truck on the farm—an exclusive Smith Form-a-Truck feature.

Simply pull lever and get any one of 8 combinations of farm bodies—stock rack—hay rack—hog rack—grain—flat rack—high flare board—flat rack, scoop board down. Then change from one type to another in an instant without a single tool.

#### Twice the Work of 2 Teams

Don't take your horses out of the field—don't delay farm work. Use Smith Form-a-Truck. Haul twice as much as two teams. And at one-half the cost. Yet it costs no more than a team and harness—\$350.

Use the Smith Form-a-Truck for hauling milk—grain—crops—feed—manure—lumber—coal—and everything else on the farm.

#### Save 3 Time

When you haul crops or milk to town with horses you must leave early. You get back late. Your day is wasted.

Smith Form-a-Truck will make the same trip in two-thirds less time. Save this time for profitable work on the farm.

#### Save 20 Acres and \$300

Government statistics show that in a single year four horses require the feed of 20 acres—and cost \$41 to feed and stable. Bedding, veterinary, medicine, shoeing, care—cost extra. The Smith Form-a-Truck costs only \$350 a year—and saves this 20 acres.

#### Wonderful Economies

Less than 8c per ton mile, exclusive of driver's wages. 6,000 to 8,000 miles per set of tires—12 to 18 miles per gallon of gasoline—12 to 15 miles per hour. And repair expense practically nothing.

Smith Form-a-Truck costs you absolutely not one penny while idle.

#### Made for 6 Cars

The Smith Form-a-Truck attachment and a new or used Ford, Maxwell, Dodge Bros., Chevrolet, Buick or Overland, makes a fully guaranteed, powerful, strong, 1-ton truck. Every day you delay using a Smith Form-a-Truck on your farm you are losing money.

## Would you mix your cattle-feed with cotton?

YOU know that such a combination would be carried through the digestive tract without giving the milk-producing and fat-producing food a chance to be assimilated. The lint on old style hulls acts the same way. It forms a pad or cushion-like covering around the concentrates that prevents the digestive juices from extracting the full amount of protein.

## BUCKEYE COTTONSEED HULLS LINTLESS

contain no lint to clog or flux the digestive tract. They are digested and they allow the other forage to be digested the same as hay or any other roughage. When you mix your feed with Buckeye Hulls you know that you are using roughage that will help—not hinder—the meal, corn, oats, or whatever concentrate you prefer.

#### Other Advantages

2000 pounds of real roughage to the ton—not 1500. Cost much less per ton. Go much farther. No trash or dust. Easy to handle because sacked. They mix well with other forage. They take less space in the barn.

Mr. C. K. Henderson, Aiken, S. C., says: that he would rather have Buckeye Hulls than any others. He uses Buckeye Hulls altogether—says they are cheaper and better.

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twice before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

#### Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.
