

Government Insurance!

We advise all young men in the ARMY and NAVY to buy Government Insurance, which is furnished at a much lower rate than regular life insurance companies can give. The time for those already in the service to take out life insurance has been extended from

February 12th to April 12th.

We advise those persons who are not in Government Service to read what is said of each kind of Insurance as stated below:

Life Insurance

If you are interested in the welfare of your wife and children after your death PROVE it by taking a POLICY in the SOUTHERN LIFE & TRUST CO, of Greensboro, N C. They look after your health for you by giving you FREE MEDICAL EXAMINATION EACH YEAR.

Net cost much lower than in the average company.

TOTAL AND PERMANENT DISABILITY CLAUSE INCLUDED.

Fire Insurance

You have put your Money, Time and Thought in designing your Home. Fire can put it all in ashes in a few minutes. Protect it with a FIRE INSURANCE POLICY.

Accident and Health

In view of the high cost of living no salaried man can afford not to have an Accident and Health Policy, for to get sick would mean financial embarrassment. Can you imagine how comforting it would be to have an insurance company pay you an income during disability?

BE PREPARED.

Surety Bonds.

Don't ask any individual to become surety for you. It is like asking a man to endorse a note. It is embarrassing to you, and more so to him. Get your bond from a SURETY Company. They are in the business for that purpose, and their rates are reasonable. Always ask for SURETY in the

The United States Fidelity and Guaranty Company,
of Baltimore, Maryland.

Live Stock.

The cost of horses, mules, and cattle is steadily increasing. You have invested your money in them. Make it secure with a POLICY against death caused by

Disease, Accident, Lightning, Fire.

Hail.

Did you ever see a field of cotton, tobacco, or corn riddled with hail bullets? It would indeed be discouraging to you to have your tobacco crop wiped out this season without a Hail Insurance Policy in the HARTFORD.

Automobile

Gasoline will burn, so will your Automobile. Cross circuits and leaking carburetor, and many other things may cause you to leave your car in the road, a heap of burnt iron and steel. Get a POLICY that will protect your car anywhere.

WE are the largest Insurance Agency in Williamsburg county. We have always made it a point to secure the best companies possible in our Agency, and for that reason we have always given our customers the very best protection that can be had.

Our business is a business with a CONSCIENCE. We're not in the business for the commission alone, but to give our customers Absolute Protection.

Before buying Insurance Protection always see **WELCH, Manager.**
