

Clemson's President.

Friday's Greenville News had the following:

A telegram to the News from Trustee M. L. Donaldson, last night, stated that Henry S. Hartzog, of Barnwell county, had been elected president of Clemson college.

The new president is a native of Barnwell county and is about thirty-two years old. He graduated at the South Carolina Military Academy about twelve years ago.

His first experience as a teacher was at Bamberg, where he considerably improved the public schools. He went next to Johnson, where he infused new interest into the public schools, and increased the attendance from practically nothing to 300.

He is said to have been a book worm from his boyhood and to be now a fine disciplinarian and a splendid organizer.

A prominent man who professed positive knowledge as the fact, said last night that Senator Tillman was Mr. Hartzog's presidential daddy; that about a month ago Senator Tillman sent for Mr. Hartzog and offered him the place. This interview took place at Senator Tillman's home at Trenton.

As to the other candidates, it comes from high authority that but for the opposition of Senator Tillman, Dr. McBryde, of the South Carolina College, would have been elected president of Clemson.

Sunday Use of the Bicycle.

How shall the bicycle be used on Sunday? This question, no doubt, troubles the individual as well as the public conscience sometimes. It is not exactly similar to the use of railways, coaches and other public conveyances on Sunday. It stands on the same footing that the use of horses on that day does. The owner of a well rested horse might benefit both himself and horse by taking a few hours' exercise, or by riding or driving to church. When a horse has labored hard for six days he needs his Sunday rest, and he ought to have it. The bicycle needs no rest. Shall men and women, who are kept closely confined during the week, take a little exercise on their wheels? Is it proper for cyclists to ride eight to ten miles to church? Or is it proper to ride a mile to the town churches? The wheel is here to stay. It has become a very important factor in business and pleasure. It has reduced the use of intoxicants. It is slowly supplanting the old-time amusement of dancing. One would be a little shocked to see a long string of buglies and other vehicles, filled with merry riders, just riding for fun Sunday afternoon. In our conservative old Southern towns it would not look exactly right to see cyclists out spending Sunday just in the search of pleasure and exercise. With increased use of wheels these questions will come up for solution.

A Remarkable Cure for Chronic Diarrhoea.

In 1862, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after that I bought and took a 50-cent bottle; and now I can say that I am entirely cured. I cannot be thankful enough to you for this great Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, HENRY STEINBERGER, Allentown, Pa. Sold by H. A. Ligon, Druggist.

The Luetgert trial is moving on slowly in Chicago. The circumstances are very much against the accused. He is quite at his ease and does not seem at all disconcerted by the damaging testimony. It was reported that a demented woman had been found in some of the suburbs of Chicago, looking as if she had been exposed to hunger and the weather for several weeks. Some think that person is Mrs. Luetgert, but they were mistaken.

The Georgia department of Agriculture reports that cotton lost much the 10 days preceding the middle of September. The caterpillar had appeared in the southern part of the State and the top crop was drying up and it was opening prematurely. The same condition prevails in South Carolina. But because the excessive heat and drought hastened the opening of cotton, planters will flaunt the September and October receipts in the face of the fact and show that the crop reached about twelve million bales.

Never refugees are going to Atlanta hundred.

Turnip Seed

The best varieties in large quantities, warranted to be fresh and true to name. Now is the time to plant Ruta Bagas. Country merchants supplied at whole sale rates at

Ligon's Drug Store

Also headquarters for White Lead, Paints and Oils. For everything in the drug line call on
