OUR CORRESPONDENTS.

Pacolet.

SEPT. 25.—The meeting at the Methodist Church which had been in session for 10 or 12 days, closed last Friday night with two accessions to the church. The services were

of unusual interest. The pastor, Rev. J. L. Sifley, was ab'y assisted by Revs. D R. Brown of Colleton Co., and T. J. Brock of the l'aptist and A. A. James of the Presbyterian church.

Reports from the crops are to the effect that corn, potatoes, turnips and other food that corn, potatoes, turnips and other lood crops are as good as the ground will produce. Cotton picking is in full blast now, and it looks as though it will all soon be opened. There has been a great falling off in the prospect of the cotton crop of '94.

New cotton has been rolling into the Mills; but it is bringing very low figures.

Last week it was worth from 5½ to 6 cts; while this week it seems to be on the up.

while this week it seems to be on the up grade somewhat.

The merchants seem very hopeful of a good fall trade. There is a good deal of sickness in the

community.
Mrs. J. L. Sifley and Mr. Charlie Wood have been right sick for several days, but are now convalescent. Miss Jennie Wilkins of your town paid a

visit to relatives and friends in this place Mr. Clarence Bryant left a few days ago

to resume his school duties at Vanderbilt Mr. Walton Brown, of Mullins, S. C., has

Jonesville.

SEPT. 21 .- Since the cool wave passed off the weather has got back to summer weather again. The cotton fields are white to the picking it out. Farmers are very much dis-couraged at raising cotton the price being so low. The grain crop and stock raising will get more attention next year than

In my communication two weeks ago I gave an account of an attack upon Mr. Munro Wood a short time before. I gave it as Mr. Wood gave it to me or as near as I could remember. Now, Mr. J. W. Vaughan comes up and says he and three others were the ones that met Mr. Wood in the road and that he and Mr. W. did have a little scrimage but the others had nothing to do with it. He puts quite a different light upon the He puts quite a different light upon the affair and vindicates the others and says it was only a matter between him and Wood and that they were not drinking so I give this explanation at the request of Mr. Vaughan as he says it is generally known that he was the man that had the difficulty

with Mr. Wood.

Mr. J. C. Spears packed 29 bales of hay the other day that he cut from his wet bottoms weighing about 400 per bale. Mr. Spears has a full crop of corn on his dry bottoms so with corn and hay plentiful he is alright for something to feed his stock.

The young people of our town came in

The young people of our town came in upon me last Friday night and from 8 till 11 o'c'ock they had what seemed to be a de-lightful time. Music, mesmorism and other amusements were engaged in. Wife and I enjoyed ourselves like the rest of the boys

and girls.

A few bales of cotton are coming in every day, Mesers. J. L. McWhirter & Co. are buying. The cotten seed market opened today the price is about 14 cents per bushel Mr. J. N. Lemaster left us a week ago to buy cotton for McCants & Co., of Columbia he is stationed at Blackstock.

Rev. J. S. Porter closed a very interesting meeting at Rethiehem last Friday night, which had been going on for several days. He was assisted by Rev. J. L. Harley, from Cowpens. Mr. Porter filled his pulpit here

yesterday morning.
Mrs. J. C. Farrar, of Pinckney, passed through our town last week on her way hone from Spartanburg.
Mr. J. A. Chambers and family, of Pinckney, were in our town one day last week.

Telephone.

terday to attend the third quarterly meeting of the North Pacolet Interdenominational Sunday school convention for 1894. A large congregation was present and the exercise throughout were characteristic of the people who compose that body. People from dif-ferent sections of the county were there, and all manifested an unusual interest in the

Miss Lizzie Moorhead, to whom had been assigned the duty of conducting a "mosaic primary class exercise" was present and prepared to discharge that duty. Her subject was "The Youth of Jesus." She began her work with a few simple questions, and as the pupils advanced she rivited upon their minds the important facts she wished them to learn. By a series of well arranged questions her class was taught in a few minutes what it would take a slovenly, slip-shod method weeks or perhaps months to accom-plish. This feature of the work was new to our people, and at first some were dis-posed to think it would prove a failure. But not so. Long before Miss Lizzie dismissed her class and took her seat we could read in the countenances of those present, (many of whom are first class teachers), that the North Pacolet Interdenominational Sunday School convention had scored a success of which it might be proud. When the minds and characters of the boys and girls of our common country are moulded for usefulness by the hand of pure and noble womanhood then will the church, the Sunday school and Society occupy the exacted plane to which each aspires. Let the old foggy idea that women should occupy no portion of prominence in public affairs, even when she can make herself useful, be relegated to the rear or buried beneath the wheels of progressive civilization and christianity.

Prof. Sams was also there, and in his usual clear distinct and comprehensive style give some lessons on normal teaching. As an educator Prof. Sams stands upon the top round of the ladder; and anything we might say of his ability would be superflu-ous. The State Sunday school convention has elected him to manage its State paper which will appear as soon as possible, we advise all who are in sympathy with the work to subscribe for it.

In regard to the convention at ElBethel we might say that the floral decoration of the church was with the choicest flowers that this climate affords, and the dinner spread by the ladies was a compliment to the occasion. Esq J. M. Greer says that there are nineteen cases of sickness within sight of his home this morning. Most, it

not all of them fever cases. Mrs. A. F. Kendrick has our thanks for an abundant specimen of her vegetables. She is one of the best horticulturists we have. May her shadow never grow less. Our people are busy making hay, picking

cotton, making melasses, etc. In fact, this is the busiest serson the farmer has if he is awake to his duty. A few days lost now will bring want or even ruin to many houseboulds in this community, and this is no exception in this respect.

Mr. S. F. Estes who was a de'egate to the

We are sorry to hear of the sickness in Mr. James Brown's family, also that Mrs.

. T. Moorhan I is sick. Much complaint has been made of the public roads. It does seem that the over-seers in many places have been remiss in their duties.
Mr. J. P. Williams has a very sick child. The little sufferer has been very near deaths door but his friends think he will pull

Some scientific man claims to have made the discovery that in the feline tribe only the females wear yellow hair. We have referred the matter to our committee of 'know alls' and will publish their report when this rendered.

Santuc. SEPT. 24.-Yeste day was a grand day at Salem church, at this place, with the little Sunday school scholars, and a pleasant, enoyable, and edifying one for the older Sunday School members, and the visiting congregation. As has been reported in this correspondence, 4th Sunday in September had been appointed as "Missionary Day," and it material z-d. The programme had been obtained for some few weeks, and the scholars who were to take parts of it has been meeting to rehearse, with the result of getting it to perfection, and all who expressed themselves openly gave the school great cred t for the arrangements, the decodering of the exercises—the recitations; of these it was participated in by teachers,

beautifully decorated with evergreens, and a large variety of other flowers, including many choice h t-house plants and flowers, made into wreaths, crowns, crosses, and arches, and many in vases, and in flower pots in abundance. A large arch, with some eccentric portions over the pulpit, and reaching to the floor on both sides of the pul-pit, had under it in pretty letters of evergreen, artistically arranged, the Bible command, "Go ye into all the world and preach the Gospel." The decorations could not be surpassed by any wedding decorations that I ever saw.

The services was opened with devotional exercises conducted by the Superintendent, Mr. J. H. Randolph. Then at the tap of the call bell, the Bib'e class walkel out in the call bell, the Bib'e class walkel out in front of the pulpit, and rendered "Christian Missionary Forming," The Land; Mrs. R. G. Hobson; Place of Sowing; Miss Nora Thomas. Time of Sowing; Miss Townsend. The seed, W. O. Jeter; The Growth; Miss Lily Cornwell; Time of Harvest, W. W. Bruee; Need of Laborers, J. C. Jeter. Others of the programe: Some of our Harvesters; by R. G. A. Jeter. Recitations by Tecoah Randolph, Ethel

Recitations by Tecoah Randolph, Ethel eter and Estelle Thomas.

Questions and answers by a 1 of the school. Recitation: "Little Brown Penny," by ive infant class scholars, Eessie Raudolph, Mattie Thomas, Agnes Thomas, Stella Hobson and Hattie Moss.

Recitation: "Loving and Giving," by Charles Moss and Mobiey Jeter. Two addresses, by Dr. J. P. Thomas and Dr. A. E. Fant.

Home Missions: J. H. Randolph. Some of our Gleaners in Foreign Fields: Mrs. R. G. Hobson. Recitation: The', Gleaner," Miss Vick

And in closing, the Reasons for Praise by H. Randolph, with remarks.

This day was one of benefit to all it seems, as all seemed to enjoy it, and gave strict at-tention to all of the exercises. The singing was splendi!, there being quite a number of hymns sang. A recess of one and a half hours was taken

in which a most appetizing dinner was en-joyed. The day being clear, and the temperature mild, there was every-thing one could ask for a "good o'd time," except the congregation being considerably disappointed in not be-ing able to hear some speakers who were expected, viz: Mr. Josiah Crudup and Rev. J. A. Beil. The latter was at his work at Carlisle, and Mr. Editor, many think you missed a treat.

We had plenty of rain last Moaday night and Tuesday. There was considerable damage done to cotion, as a large quantity SEPT. 24.-It was our good fortune yes- of it was open, and was beaten out and muddied. Some fodder was pulled, and badly damaged. Some young corn was not to, far gone to be benefitted, and peas were very much benefitted, and so were gardens. So the rain did much good, as well as some damage. There is much writing at present among the TIMES correspondence about the shortness of the cotton crop. That has been the foregone conclusions down here for some time. If one had kept up with the weather-crop report it would be seen that that was the case over the entire State. While we have a large "weed" and some very good cotton, it does not come up to what was ex-pected of it once. I believe this section is blessed with the best all-round corn crop that it has bad in a long time, and there is a large quantity of Sorghum cane this year, and it is turning out splendid per acre, The trouble is, there is an insufficiency of mills to make it up.

And now one crop on the housewives site of the farming industry, is loosing fast, i. e. the chickens. A disease has attacked the chickens of many people, their heads getting sore and swelling up, and causing death, and they are going fast. It seems to be sure death to a bird to take it, and everybody is getting to be afraid to enjoy fried

chicken.
Mr. G. M. Fleming, the R. R. Agent had a very fine and large hog to die of hydrophobia last week. Those who saw the hog said that it suffered intensely, squealing and snapping everything that came in its

way.

Cotton is being ginned quite largely here now, or was last week. It was genned, almost given away, and then shipped on the next train that went North. The price is so low the planters are greatly discourage and gloomy, and it seems that seme are giv-ing up hope of paying up debts end being left men again. With cotton cosing six cents to make, it is said, and being sold at 54, farmers who contracted debts under 10c and 8c cotton, are in the same predicament as the frog in the well coming up three feet per day, and falling back forty inches. Mr. J. P. Thomas, Jr., has moved into his new residence in front of the Methodist par

Miss Nelia Randolph has gone to Greenville to a tend school. Mr. Hedgwan Sims, who has been enjoy-ing a pleasant visit to his uncle's, Mr. C. E.

Sims leaves for his bome in Richland to day. Miss Belle Lyles left to resume her teaching in Barnwell county last week. I concur with K. E. N. F. in regard to

candidates electioneering with whiskey. It is a shame, if anybody should go into office by whiskey bought ballots. It is getting thingh morals in this said-to-be glorious country, down to a low and despicable ebb Would say too, God speed the North Paco-let Trial Justices in their stand taken against

lawlessness, as reported by Vox.

While in Chicago, Mr. Charles L. Kahler, prominent shoe merchant of Des Moines Iowa, had quite a serious time of it. He State convention last week has returned highly pleased with what he saw and heard on his trip. Hon. G. B. Fowler has been repairing Dr. Garner's gin at Skull Shoals. his cold so quickly that others at the hotel He put it in tip top running order. his cold so quickly that others at the hotel who had bad colds followed his example and Mr. G. W. Kirby and family of Henrietta
