BUSINESS IN FAIR CONDITION Result of the Storm on the Coast Lands of the Southern States.

CHATTANOOGA, October 1. - The Tradesman in its report on the industrial condition of the south for the week ending September 29th says: The heavy storm which passed over the coast portions of several of the south ern states during the week was quit. destructive to the orange crop in Florida, now nearly ready for the market. and injured the Georgia and South Carolina rice crop about ten per cent The Birmingham iron market continue active: Southern iron is growing in popularity and is commanding a pre mium for many uses as it becomes more widely known. Cotton growers are holding back cotton seed for higher prices, and mill men say they cannot advance on their present offers. General business does not improve so rapidly as was expected during August and the first part of September, but it is in fair condition and collections are good.

SHE COWHIDES HER DEFAMER.

Alabama Young Lady Uses the Whip Upon Abe Abrahams Upon the Street.

COURTEAND, Ala., October 1.-Abe Abrahams, a prominent merchant, was publicly cowhided here yesterday by Miss Lucille Doss, daughter of Peter Doss, proprietor of the Doss hotel. It is said that Abrahams made a disparaging remark about Miss Doss which reached her ears. The young woman armed herself with a cowhide and proceeded to give her alleged defamer a flogging, which brought streams of blood with every blow and made him beg for merey. Abrahams was also attacked by a brother of the young lady and would have been killed but for the interference of the chief of police, who arrested all the parties.

CASE OF CAPTAIN HOWGATE.

Strange Developments Promised When the Trial Takes Place.

YORK, October 2.-Captain XEW. Henry W. Howge spent Sunday at Ludlow street ja waiting the order of the United St. marshal remandmarshal remanding him to Washington to answer to charges of embezzlement and forgery. From remarks let fall by Howgate from time to time it is evident that he believes that sensational disclosures will be made and that testimony will come out at the trial which will show that the \$370,000 which is alleged the man embezzled was not used by him alone.

ROBERT YULEE TOOMBS DEAD.

Nephew of the Distinguished Georgian

CHICAGO, October 3.-Robert Yulee has positively declined to speak in Ten-Who attained lame as a Pented States nessee. The republican managers resenator from Georgia died yesterday morning at the smallpox hospital in this eity after a week's illness. Although he possessed an estate in Atlanta, Ga., valued at \$80,000, which was in the care of his grandmother, he worked at his trade of a printer when he first came to Chicago several years ago. For the st two years h nas been associate edi tor of the World, a weekly story paper.

and the Amount of Damage is Beyond Conjecture. JACESONVILLE, Fla., September 29.-Special dispatches continue to pour in Attorney at Law relative to the damage done by the West Indies oyclone which raged in the state Tuesday and Wednesday. The dispatches all tell the same story of houses wrecked and crops destroyed, but no loss of life is reported. At Tampa several large cigar factories were wrecked. The large threestory brick factory of Seidenberg & Co. was destroyed. The factory of C. A. Joyce was demolished, as were also the factories of Ybor & Maurara, Teodoro Perez & Co., and O'Halloran. The First Presbyterian church and the palatial Tampa Bay hotel were badly damaged. Several smaller structures were demolished, The total loss on buildings at

Tampa is estimated at \$50,000. The Anchor Did No Good. Communication with Fernandina has

been restored. The schooner Edward Stewart, which was loaded and was lying at anchor, was blown across the river, pulling her anchors with her, and is now lying on a mud-flat in about five feet of water. The small boats were all blown away and numbers are now lying high and dry up in the marshes, together with the floating dock, which was at the foot of Center street. During the storm at Fernandina the British steamships Boston City and Elmville collided and were badly damaged. A dispatch from Palatka announces great damage at that place to river craft. The steamer Princess was sunk between Palatka and Picolata. She is valued at \$12,000. The steamer Edith was driven ashore. The steamer De Earry was driven against the drawbridge and wrecked. The steam vacht Maude was sunk near Crescent City.

Advices have also been received from St. Augustine which has been cut off since Tuesday. No lives were lost but several houses were wrecked and the osses will run into the thousands. Rivers Made of the Streets. Nearly all the windows in the city were

blown in and the houses flooded with water. The Ponce de Leon hotel was damaged in this city. The loss on the hotel's furniture is heavy. At St. Augustine the wave dashed over the sea wall and made rivers of the streets. Many wharves were blown away. Between Green Cove Springs and Pa

latka, on the St. John's river, twelve wharves have completely disappeared Between Jacksonville and St. Augustine not a telegraph pole was left stand-

ing. The east coast is still cut off from communication below St. Augustine and Palatka, though communication may be restored today. It is safe to say that the storm has cost Florida more than a million dollars, but no lives have been lost unless at Key West, Titusville, Jupiter, or other east coast points.

When the cave-in occurred their death was regarded as certain, but on Thursday night the rescuers at work heard responses to their tapping and it was believed that there was one man to escape the fall. Yesterday when it became a certainty that all four were alive the agony of Thursday was turned into almost uncontrollable rejoicing. They pushed their work more vigorously then, and they pierced the black wall

that had made the prison, almost five hours earlier than expected. The men were faint from lack of food and drink, but these in stimulating quantities were supplied them, and they were shortly after midnight re-

stored to their friends, hundreds of whom stood massed at the mine's mouth to receive them. They were taken to their homes in wagons with demonstrations of joy greeting them along the Their escape from death is regarded

almost a miracle, considering the extent of the cave-in and the fact that they were at work right beneath it They had heard the warning of the cracking roof and fled to a place of safety before the fall reached where they were at work.

Manager Two of Them Killed. VALDOSTA, Ga., October 1.-There

was a small riot at the turpentine still Saturday night near this place, in which two colored men were killed and members of the family of the manager, a white man, were wounded. The blacks had been fined for gambling by the manager and the money taken out of their wages. They came here, got drunk and went back to camp and made an attack upon the manager and his house. The manager's name is A. Gillespie. He was wounded but not seriously. His wife and children were bruised. A black man in the manager's houes was killed. nah last night to one of the largest au-

speaker in that city. He referred, it is reported, without calling any names of men or papers, to the attacks made upon him by the Constitution and Daily Press and said the editor of one never had been a democrat while it could only be said of the other that he used to be a democrat. The statement created a sensation.

The populist campaign of Georgia closed with an address by Hon. Thomas E. Watson in the Marietta street opera house last night. Populists from many points in Fulton county were present, and the meeting was not lacking in enthusiasm. Judge Hines, their candidate for governor, arrived in the city yesterday and is spending the day quietly. He is much fatigued from the active campaign of the past few weeks.

THE STRIKE YET PROLONGED. Overwheiming Sentiments for Continua-

tion of the Textile Strike.

FALL RIVER, Mass., October 2.-Since the reports of Saturday's meetings between operatives and manufacturers were published in the local papers there has been considerable discussion among the idle operatives. The overwhelming sentiment favoring further resistance expressed at the weaver's meeting, together with the disappointing result of the conference betweed rate spraners and manufacturers, have combined to make much hard feeling and have ledto many bitter expressions on the part of the men who are in close contact with the working people. Today many ty among themselves and one of them people have the idea that the manufac turer's intention is to fight the spinner'.

union, and more particularly to fight Robert Howard, the successful leader.

REPUBLICANS IN CAROLINA. A Leader in their Ranks Belleves Three Districts Will be Carried. WASHINGTON, October 3.-Hon. James E. Boyd, ex-United States district at-

torney, and the present mayor of Greensboro, N. C., was prevailed upon to say a little about politics at the Ebbitt llouse yesterday afternoon. Mr. Boyd is a strict republican, and just now is paying more attention to his large law practice than to politics. "The republicans," said he, "have good reason to believe that they can carry three congressional districts in the Old North State. The friends of Mr. Settle are very confident that he will be returned, and I think that in the Eighth district Romulus Z. Linney, who is the fusion candidate of the republicans and populists, has an excellent chance to beat Mr. Bower, the democratic notai-nce. Mr. Settle's 1001 is to y the way, is Augustus W. Graham, of Ox ford, whose father was secretary of the navy under President Filmore, and who ran with Scott on the Whig presidential ticket of 1852. His father's name, however, will be of no especial benefit to him in this race, as Americans care very little about a man's ancestors, which, I think, is one of the excellent results of our democratic institutions.

DANGEB AHEAD IN DUVAL.

Troops Under Arms-May be a Clash Be tween Them and the Police.

JACKSONVILLE, Fla., October 2 .- The general election is in progress through-out the state today. In this city voting has been stopped by the inspectors in four out of the nine city wards because the sheriff has stationed a deputy in side each voting booth throughout the county. The inspectors in the third, fourth, fifth and eighth wards claim that the presence of these deputies is contrary to law and they will not allow the voting to proceed while they remain. The law says that at least one deputy shall be "at" each polling place, not "inside." In anticipation of trouble here yesterday the governor sent Adjutant General Houston here last night. The adjutant general now has two

companies of infantry under arms at their armories. The inspctors have requested him to have the deputy sheriffs removed from inside the booths and the adjutant general wired the governor for instructions. An answer is expected every minute.

If the military should be ordered to clear the booths of the deputy sheriffs. there will surely be a conflict, for the mayor has twenty special policemen at every polling place in the city. Each
