We are glad to say that Mr. F. B. Culp, Cheif of Police is out again and able to be on

KNIGHTS of Labor meeting on Thursday night the 24th inst. A full attendanc earnestly requested.

We have a new jeweler in town, Mr. D. B. Gordon. He has opened a temporory shop in Mr. J. T. Rose's store. See his s'gn and the watches on the window.

Mr. James F. Thom; son, who was we 1 and i worably known here, has accepted a position as menager of the dry goods department in the store of Gastonia Manufacturing Cempany at Gastonia, N. C.

Worth not Union support a bakery? There is a good bakery here that can be rented cheap. We believe there is a good opening here for an enterprising taker. Will not someone who knows somathing about the business take the matter under consideration?

M. Cassimin Penter has resigned his office as President of the French Republic. It is said to have been caused by a vote in the Chamber of Deputies on Monday, which the President construct to be a censure to himself. His resignation, entirely unexpected as it was, has created consternation in France. The French national assembly wi'l have to be called to elect a successor.

THE war between China and Japan still continues. Several eff rts have been made by friendly powers to bring about an under-Standing, but without success. Japan seems to be getting the best of it, decidedly, but China with her immense resources of men and money still continues to fight in spite of defeat on the field and dissention at home.

WE had a big horse sale here last Tuesday. Mr Charles Sciferd from Kentucky sold twenty one horses at auction and got for them \$1386.00. Some of them were beautithem away, they sold so cheap. A good many of our citizens' bought and we believe most of them got bargains.

Mr. W. E. Ray is thinking of opening a government distillery here at Union. He as he gets his papers giving him authority to manufacture. His distillery will be lecated near the Hawkins mill place. Corn whiskey will be made and sold to the state for use in the dispensary. Two stills will be run with a daily capacity of adout sixteen gallons.

LAST Sunday was one of the coldest days we have had in some time. The cold wave was quite unexpected until about four o'clock saturday evening when a telegram came from the Weather Bureau saying that a fall in temperature of twenty degrees might be look. ed for. This was followed soon afterward by another indicating a still further decline. It turned colder gradually all day Saturday until about night when the mercury just tumbled. By Sunday morning it was almost frigid and the sunday schools and churches had a small attendence.

ONE of the biggest frauds ever perpetrated n any of our States, was the recent default State Treasurer Taylor, of South Dakota, No is said to be behind in his accounts some three or four hundred thousand dollars. It is said that some other State officials are also implicated. The probability is that they used the funds of the State at first with the hope of replacing them. Finding that he could not do that on account of heavy personal losses, Taylor swept in as much of the State's money as he could by his hands on, thus heavily embarrassing the State in his frantic and desperate endeavor to save himself and his bondsmen.

The enemies of the Income Tax did not cease lighting when the bill passed, but have followed it up and endeavored to prevent the collection of the tax by refusing any appropriation for that purpose. Their efforts will no doubt prove futtile as the taxes would. have to be listed and paid to avoid the forfeit thre whether there were any special appropiaion or not. We are sorry to see this fight against the appropriation. It is an underhand ed business, and in one light looks simost criminal. It is an endeavour to prevent the execution of the law, by an unheardof means, and no doubt comes from the mind of the astute Hill, trained to finding technical objections in his extended business as a lawyer. we are glad that the law will be inforced in

spite of Mr. Hill.

Now for a Telephone Exchange.

CONNECT WITH SPARTANBURG, GREEN-VILLE, AND OTHER PLACES.

Some of our enterprising citizens seeing the need that there is of a Telephone Exchange here, have gone to work to get it-And have it, we will. So the people say who are interested.

Mr. W. D. Arthur went out one day this week just to try the pulse of the people, and secured fif v shares of stock at ten dollars a share in little or no time. He could have gotten much more but it is desire 1 that there should be as many of our people in the enterprise as possible so the shares have been placed at \$10. each, so as to put stock witha reach of all of our citizens. The capital stock is to be \$1000, and the company will be called The Union Telephone Company

It is proposed to put in fifty instruments at once. That will be enough to connect with all the business houses, factories, banks, and many of the private residences. Of course more instruments will be put in from time to time. When we get the system well at work burg by way way of West Springs which is only sixteen miles from here, and then we will be in communication with Greenville, Gaffney, Enorce Mills, etc., One important item is the cost. While at Spartanburg an instrument with the use of the line costs \$50. per year it is confidently believed that we can obtain the same service for \$12. per year. only one dollar a month, just think of it

Now dont you want a hand in this enterprise? You can obtain the stock and any in formation you may want from Mr. W. D.

THERE are some who think that there is a conspiracy on foot, the object of which is the independence of Cuba. However. improbable it may be, it is not entirely imcossible that the scenes of a few years ago may be re-enacted in the island. If that should ever be we would carnestly wish that the results might be different. Cuba is not the hot, lifeless, desert island that some people think, but it is a garden spot. With a climate and soil equal to any in the world, and unsurpassed facilities for commerce, it is only the tyranical and iron heel of ignorant and bigoted masters that has kept this favored spot in the back ground. It is no doubt the enlightening influence of the Christian religion which has made such unprecedented progress in Cuba in the last few years, that is opening the eyes of the Cubans to their present condition, and to their possibilities under more favorable conditions. A revolution for freedom and independence is not something that can be gotten up and carried through by one man or set of men. But independence must be sought after conscientiously and intelligently by the masses of the people. Only such a people is prepared te utilize independence. If the people of Cuba have gotten to this stage we would hail their independence with delight and predict a bright future for

The grading done on the Cotton Mill yard by Mr. L. B. Willard is creditable work and adds a great deal to the appearance of the grounds. Cotton Mills. The "waste" is taken care of and sold and is a considerable item.

The Cotton Mills will seen put in forty more looms and fourteen spinning frames. That and provisions and deposit same with Mr. J. will make a total of three hundred and forty | W. Sanders here at Union to be forwarded to looms and twelve thousand six hundred and seventy-two spindles. We understand that that will about fill the present building.

The trestle has been completed and will be used as soon as it is connected to the rail

The Mill and the grounds about it are as neat and clean and free from rubbish as a

Personals.

Miss Annie Norris, of Anderson county, spent the Christmas holidays in Union, the guest of Mrs. Jacob Rice.

Mr. and Mrs. John Rice are now making Union their headquarters. They have lately been located at Asheville, N. C., from which point Mr. Rice has been running as the past, and now solicit the patronage of the Railway Postal Clerk.

Miss Lizzie McComb, of N. C., is visiting Mrs. W. D. Arthur. The Hon. George Johnstone, of Newberry

is here on business. MISS. MARY WITHERS of Chester, is in town visiting Mrs. Dr. Meadow.

The in 'u try that is a tracting the most at teation now is the manufacture of catton cloth Prehaps the reason of the buzz can be found in the fact that certain large firms in the New England States have had their charters so amended as to allow them to do business ontside of their own State, and have decided to come south on account of the special advantage that the South offers. Our daily papers have been filled with mill matters for several days, and the citizens of Columbia have e mmenced in cornest, an effort to bring more capital and Cotton Mills to their city. We are glad that the Cotton Mills are to be brought South. We think that the South is the proper place for them, and while not wishing our Northern brethren any harm, we hope that the day may soon come when all of the cotton will be manu-

factured and made up in the South. Cotton mills are desirable for many res sons. In the first place it is a lucrative and safe investment for the capitalist, and a good living for the poor. A man who will live economically can save money continually out of the wages that are paid by a'l of our Cotton Mills. The mills help the merchants. here at home we will connect with Spartan. They put money into the hands of the pro ple, the people who buy. They help the whole community. Somehow or other, and the cause is apparent, those towns that have had factories erected and operated in them are the ones that have grown into cities. They are the towns that have the most thrift and life, the wealthiest and most enterpri-ing men, and the happiest and most ndependent laboring classes.

The reason is that the poor are given means of turning their labor into wealth. They work, and are paid for it. With their money they buy the objects of their desire, and are made happy. With increased sales the merchants income is increased, and he is able to obtain more luxuries, on which some other merchant makes a profit, and so

Why may we not have more factories here? The single cotton factory that we have is paying the stockholders and doing untold good to cur community in giving work and comfortable houses to the thirty or forty fam ilies over there. It has added immensely to the industry of our town and itself a model of beauty in its line, it has made that part of town quite different from what it used to be. Lets have more factories, cotton factories wood factories, anything that will pay and give employment to labor.

Alliance Meeting.

THE Farmers Alliance had a meeting here last Friday. One of the most important things that came before them was the petition from the farmers in the famine district of Nebraska. The petition was as follows:

To the Alliances of South Carolina : DEAR BRETHREN; Owing to the excessive drought of the past season, preceded by others in 1893 throughout the State, the people are in a deplorable condition; neither orn, wheat, oats, barley, potatoes, vege ables, hay, fodder, or other necessaries to sustain life. Their cred t is exhausted and they will be in no condition to put in a crop the coming season or to tide themselves over the coming winter unless they receive outside assistance. We therefore appeal to you in dehalf of suffering humanity, feeling that our appeal will not be in vain. Any contributions hich may be sent our members by you will be received by this board and distributed according to the name of our hyothran as for

In response to this petition, a resolution was, passed calling upon all the sub-alliances to contribute as they might be able in money alliance nen will also help as they may be able. The meeting was not as fully attended as was expected many being kept away by the bad weather and some by high water.

Lets all respond to this petition and resolution and strain a point for these sufferers They are indeed in destitution and they that give to them will be lending to the Lord. Farmers you must attend the alliance better. How can you hope to succeed if you neglect this your only organization. Why not call a another meeting at once and all come and work in earnest?
