### Pale Faced Women Take Phosphates to Make Rosy Cheeks and Beautiful Forms. Men Need Phosphates to Make Strong, Healthy, Vigorous Bodies.

Athletes Increase Their Strength, Energy and Endurance 200% or More by Simply Taking a Few Weeks Treatment of Argo-Phosphate.

Atlanta, Ga. Dr. F. A. Jacobson says that Phosphates are just as essential to any man or woman who tires easily, is nervous, or irritable, worn out, or looks haggard and pale to make a strong, robust, vigorous healthy body, as they are to cotton to make it grow. The lack of Phosphate is the cause of all enemic conditions and the administration of 5-grain Argo-Phosphate tablets will increase the strength and endurance of weak, nervous, care worn men and women 300 per cent. in two or three weeks time in many instances, and their continued use will build up the whole nervous system, and give new life, vim, vigor, and vitality to the whole body. I always prescribe Argo-Phosphate to patients who are pale and colorless, and it is surprising to see how quickly a few weeks treatment will transform a pale face to a rosy cheeked beauty. There can be no rosy cheeked, healthy, beautiful women, without their system is sufficiently supplied with Phosphates. In recent interviews with physicians on the grave and serious consequences of a deficiency of Phosphates in the blood of American men and women, I have strongly emphasized the fact that doctors should prescribe more phosphates in the form of Argo-Phosphate for weak, worn out, haggard-looking men and women. When the skin is pale, and flesh flabby, it is a sign of anemia. When the phosphates go from the blood, the pink cheeks go too. The

muscles lack tone. They become nervous, irritable, despondent, melancholy, the brain fags, and the memory fails. Therefore if you wish to preserve your youthful vim, vigor and vitality, to a ripe old age, you must supply the deficiency of Phosphates lacking in your food by using Argo-Phosphate, the form of Phosphates most easily assimilated.

NOTICE: Argo-Phosphate which is recommended and prescribed by physicians in all enemic cases, is not a secret or patent medicine, but one that is sold and recommended by well known druggists everywhere, and physicians are daily subscribing the constituents contains in it. Being entirely unlike many other Phosphates, it is easily assimilated and will be found effective in the treatment of indigestion and stomach troubles, as well as for care worn, nervous conditions. The manufacturers of Argo-Phosphate will forfeit to any charitable institution \$200.00 if they cannot treat any man or woman under 65 who lacks Phosphates, and increase their strength and endurance from 100 per cent. to 300 per cent. or more in one month's time, if they are free from organic trouble. It is dispensed by all reliable druggists.

If your druggist will not supply tablets, 10 Forsyth St., Atlanta, Ga., and they will send you a two weeks' you, send \$1.00 to the Argo Laboratory by return mail.

### PERSONAL MENTION

Mrs. H. I. Horton (Bess Summer) and little daughter, Betty, have returned to their home in Charlotte, N. C., after a fortnight's visit to her mother, Mrs. W. W. Summer.

Mrs. R. W. McDow, Misses Frances and Irene McDow, Mrs. E. B. Cureton, Mrs. Spencer Perrin and Mrs. P. B. Barnes motored to Spartanburg Tuesday and spent the day with friends.

Miss Irene McDow will leave soon for her school in Aiken county. This is the second year Miss McDow has taught in that county and the patrons are very appreciative of her fine work.

Mrs. A. B. Adams (Louise Browning) and small daughter, who have been visiting her parents, Hon. and Mrs. L. J. Browning for a month, left last week for Washington, D. C., to join Dr. Adams, who holds a government position in the food conservation

Mr. and Mrs. Heyward Ewart have returned from a fortnight's visit to relatives in Newberry and Manning and have rented apartments at the residence of Dr. Hope on South street.

Miss Fredrika Bartwell of Jacksonville, Fla., spent the week-end with friends in Union on her way to Raleigh, N. C., to spend a fortnight with her grandmother, Mrs. John Jacob Senn.

Mr. Dogan Arthur, who made application for the aviation corps sometime ago, has been accepted and is studying at the University of Illinois in Champaign. In writing to a friend he said he would probably be at the University for six weeks and then be transferred for real work. Dogan is some bird.

Rev. and Mrs. W. D. Wakefield of Louisville, Ky., are the guests of Mr. and Mrs. Guy H. Wilburn on E. Main street. Mr. Wakefield was pastor of the First Baptist church in this city for several years and his many friends are pleased to see him again. He has resigned his pastorate in Louisville and will devote his time to evangelistic work.

### KORNILOFF WOULD BE SUPREME

Kerensky Takes Steps to Protect Him. Petrograd Under Martial Law.

The Russian government again is facing a crisis, but apparently with his usual "blood and iron" methods Premier Kerensky has taken vigorous steps to combat it and to punish severely those of the opposition elements who brought it about.

Succinctly General Korniloff, commander-in-chief of the army, has demanded for himself dictatorial powers by the surrender of the government into his hands. Kerensky refused to comply with the demand and has had incarcerated in the Petropavlovsk prison, for treason, M. Luvoff, member of the duma, who acted as Korniloff's intermediary and who under a severe examination had wrung from him the details of the plot to overthrow the government and bring about a return of the despotic regime. The names of the chief conspirators in the plot also have been ascertained and these men doubtless will receive punishment at the hands of the government.

### CORK COMES HIGH TO GERMANS

Amsterdam, Netherlands, Sept. 7.—Cork is at a premium in Germany, as the country does not produce any and the Entente blockade has interrupted all channels of supply. Used corks, especially those of champagne bottles, are eagerly purchased and they bring high prices.

Two chemists of Plauen, Saxony, have applied for a patent for making artificial cork from a tough species of roadstools, which grow in profusion in the Saxon forests.
