**Cincinnati Man Tells How to Shrive Up Corns or Calluses So They Lift Off With Fingers.**

Ouch ! ? ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

A Harvard experimenter says that an ape is brighter than a child. It would be interesting to watch that man's fate as a judge at a baby show.

**NEW HOPE**

New Hope, Sept. 18.—Since our last writing we have had some real winter days instead of the September gale coming. We had cold windy days, but it seems this morning as if we are going to have some fine autumn weather, which everything is indicating fall already by the tints of the leaves turning.

Cotton picking and fodder pulling is the order of the day now.

Our regular services were held at New Hope Sunday afternoon.

On October 13th is work day for the Orphanage, and it is hoped that everybody will give their day's work that day to aid them, which we know they need our gifts very much.

We were sorry to read of the death of Dr. W. P. Jacobs, the founder of Thornwell Orphanage. His life seems to have been devoted to his work, and we know his good influence will live. I think it is the duty of everyone to aid in every way to help the work of the Orphanage. We are hoping that there will be more given this year.

Mrs. J. W. Scott was called to the bedside of her sister, Mrs. Mattie Moorhead of Blacksburg, where she is very ill.

Mr. Anson Brown of Union attended services at New Hope Sunday afternoon.

Mrs. J. G. Bishop has returned to her home after visiting her sister, Mrs. Johnnie Gallman, of Bethlehem community.

Miss Sallie Whitlock left this week to attend college in Meridian, Miss., for the coming session. We wish for her much success. Verro.

**UGH! CALOMEL MAKES YOU DEATHLY SICK**

Stop Using Dangerous Drug Before It Salivates You! It's Horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

**ARTILLERY RANGE IN CHESTERFIELD (?)**

Charleston, Sept. 17.—That the government is considering buying a large tract of land in the sand hills of South or North Carolina is reported here. Such a tract of land will be used as an artillery field for the men in training for the surrounding territory, and several government agents and inspectors have been over several large tracts situated in Chesterfield county and they are likely to report favorable. If such a report is made and the officials of the government buy, the transaction will involve several hundred thousand dollars. Not only will there be a direct result of such a sale, but the whole country around will benefit materially.

A large field situated in North or South Carolina will be utilized as a means of training the raw men in the national army, and perhaps be used also as a target field of the National Guard units that are to be trained at Spartanburg and other camps.

**LOCKHART JUNCTION**

Lockhart Junction, Sept. 18.—We have had quite a cool spell. The equinoctial gale has been on as we always have a September gale but this was one without rain. It has only been cloudy and windy but very cool. There has been frost in some places, none to hurt in this section. I guess if it enough were to come to nip the cotton in Texas the price would go up. It does seem to me that the Texas prospect for cotton generally rules the market. When the report was made that it had rained in Texas there was figuring on a top crop and it seems to press the market down.

I think there will be enough bread stuff if it is all gathered and saved and not wasted to feed the world. That will be a great thing for all people.

Well, now, I think of the late war and of the Revolutionary war. The Confederate war lasted four years; the Revolutionary lasted six, so if this war lasts six there is a great deal more we will hear and see. I remember when my mother went to the grainery in time of the late war and let some people have wheat without money and I think without price, because she had plenty and some to spare and the others did not have any.

I forgot to mention in my last letter of Mrs. W. A. Willard and Miss Lucile Harmon of Inman visiting relatives in this section and Mrs. Jane Vinson went home with them.

Rev. J. S. Thrasher placed his letter with the First Baptist church at Jonesville last Sunday.

Mrs. Ethel Edmonds of Jonesville was a visitor in this section Sunday.

Mr. Millard Page, one of the Coast Artillery boys of Jonesville, who is stationed at Charleston, is home on a furlough for a few days. Other boys of the company will get furloughs soon.

"G. T. G." says the ladies are economizing by cutting their dresses high and low. Well, that made this fellow think of seeing some young ladies pricing and buying shoes, that the prices were \$15.00, because the shoes laced up so high is the only reason I know.

Miss Jennie Graham is clerking for Mrs. D. W. Whitlock in her millinery department. Mrs. Whitlock has a fine display of new hats.

I met Lieut. Walter Hames and First Sgt. Albert McWhirter this morning at Jonesville.

Mr. Walter Tweed is also on furlough. These young men are all from Charleston and are made up of the Coast Artillery company of Jonesville.

I was at the Bonham picnic last Thursday. This was given by the good ladies of that section, which was given really by the Community club of that place. Moxy.
