

JONESVILLE

Jonesville, Oct. 9.—I read with interest in The Union Times of last week of the five dollar bill given by Mr. and Mrs. A. F. McKissick to the William Wallace chapter, U. D. C. This brings to my mind the Cotton Loan Association of 1862, which was organized at Union by Messrs. Wm. J. Keenan, Dr. B. F. Rawls and others for the relief of the situation in financial affairs, but really it was not very long until the situation was relieved by Confederate money which was put into circulation in great quantities. The Cotton Loan Association was based upon cotton a good collateral of course, but the association was really not necessary as matters turned out. Confederate money came in just about the time of the Cotton Loan Association. I came home from Richmond late in December, 1861, on leave of absence quite sick and was at home for awhile. I was paid off in Richmond in Confederate money, the first I ever saw, as it was just coming into circulation. I brought \$80.00 with me and it was a curiosity in the neighborhood. I bought a bale of cotton from a negro for 7 cents a pound and I kept it till after the war and I sold it for 45 cents the pound in greenbacks. The Cotton Loan Association went up with the war but there was an effort made to make those who had conscripted cotton pay it, but they got out of it some way or other, that I just don't remember and that was the last of it. Greenbacks got very plentiful soon after the close of the war but our Southern people were a little shy of them and gold was very plentiful for a year or two after Lee's surrender. The premium on gold was about forty or one forty in greenbacks for one in gold, the gold finally went into the banks and greenbacks went at par and but little gold has been in circulation in this country since.

The fourth quarterly conference of the Jonesville circuit was held here Saturday. Presiding Elder R. E. Stackhouse of Spartanburg was present and presided. Reports from the different officers of the church were fairly good. Finances are a little behind, but they will come up before the annual conference.

There were quite a number of people in our town Saturday. Some cotton was put on the market at 25c.

Miss Sallie Cunningham of Kershaw and Miss Ella Earle spent the week-end with Mrs. W. H. Page at her country home.

A very bright meteor passed over Jonesville Sunday morning about 8:30 o'clock. It was going from East to West at a very rapid rate. It went down in the West, but so far off it was not heard. Some of the boys who saw it at first thought it was a German aeroplane.

The cotton market here played between 25 1/4 and 26 3/4 cents last week. Farmers are selling part only of their crop, as they hope to get 26c later on.

From all reports from the farmers over the country there is a bumper crop of corn made and it is about ready to be harvested.

It seems that much of the world war over on the other side of the Atlantic will be in the air and on the water, so this lets me out for I can neither swim nor fly.

I see we will soon have to pay 3 cents for postage stamps and 2 cents for postcards.

Mr. Munro Faucett of Union spent Sunday with Capt. R. W. Scott at the postoffice.

Miss Irene Gore, who is teaching at Duncan, spent the week-end with her father, Mr. Thos. H. Gore.

TO SOLVE ALL LABOR TROUBLES DURING WAR

Great Falls, Mont., Oct. 8.—Great Falls labor unions and employers sent to President Wilson, Secretary of Labor Wilson and Samuel Gompers, president of the American Federation of labor, a request to establish a national arbitration board and compel the submission of all labor problems to it during the period of the war.

The propose a board of seven, three to be appointed by Samuel Gompers, three by the National Employers' association and one by President Wilson.

And when Susie starts to knit socks for soldiers, she finds that some preparation is needed here also.

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair. Make It Thick, Wavy and Beautiful—Try This.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which, if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

MRS. PHILLIPS TAKES IRON IF BLOOD IS BAD

SUFFERED TWO YEARS WITH PELLAGRA; COULDN'T WALK ABOUT THE HOUSE IRON BUILT HER UP.

TELLS WHAT KIND OF IRON TO TAKE.

Everyone's energy, vitality and general good health depends so much upon the condition of their blood, and the normal functioning of the vital organs of the stomach, kidneys, liver and bowels, the slightest irregularity should be corrected immediately.

Anyone troubled with their blood, for instance, is sure to sooner or later experience uric acid pains, weak, lame back; lost strength; nervousness; headaches; dizzy spells, or some other kindred symptoms, and iron has become so well known as the one best remedy everybody should use it. The question is, in what form? Iron is put up by the chemist in pills, liquid solutions, and mixed with all sorts of elements including, in some cases altogether too much alcohol for the good of the system.

The cheapest, strongest, most efficient remedy is plain, natural iron, highly concentrated, and bottled just as nature intended it should be taken. It is called Acid Iron Mineral, is sold by druggists in fifty-cent and dollar bottles. It goes from two to six times as far. It will help the digestion, stomach, kidneys and blood. If the bowels are inactive a good liver pill like the A-I-M Liver Pill at 25c for a generous size box is recommended. People with normal bowels should not use iron formed in combination with laxatives. Altogether too many remedies contain purgatives.

To indicate how quickly Acid Iron Mineral will cleanse the blood and tone up the general system and renew the wasted strength the statement of Mrs. N. E. Phillips of Kershaw, S. C., is quoted below:

"I began to be troubled with my bowels, stomach hand blood a little over two years ago. It finally turned into pellagra and at the end of that two years suffering I couldn't even walk about the house. Mrs. Ella Hunter suggested I take Acid Iron Mineral and after taking it six weeks and using but four small bottles, I am up and about doing my work and gaining in strength every day. It has done me more good than anything I have ever tried and am glad indeed to recommend it to anyone who needs a good tonic or for pellagra or stomach trouble.

A teaspoonful of Acid Iron Mineral in a glass of drinking water after meals makes an unusual, powerful, economical and delightfully invigorating tonic, appetizer, blood and kidney remedy.

A large dollar bottle if druggist hasn't it will be sent prepaid on receipt of price by the Ferroline Chemical Corp., Roanoke, Va.

ONE DEAD IN QUARREL OVER NIECE OF VICTIM

Greenville, Oct. 8.—Monroe M. Williams was shot and killed by Arch McCullough, about 4:30 o'clock yesterday afternoon in the Mills mill village, dying almost instantly. It is understood that the tragedy resulted out of a quarrel concerning Mrs. McCullough, who is a niece of the deceased.

Mr. Willis, who was a farmer at Hunts Bridge, in Pickens county, drove here yesterday and was on the back steps of a house about two houses distant from his brother's when shot. Willis was about 35 years old.

McCullough lives at Mills mill and was taken into custody by Sheriff Rector shortly after the shooting and lodged in jail. Willis leaves a wife and several children.

HEAVY SNOW FALL IN SOUTH DAKOTA

Deadwood, S. D., Oct. 8.—A heavy snow and rain yesterday broke an extended drought in the Black Hills region. Two inches of snow fell here. A forest fire which had been burning north of here for a number of days was extinguished.

ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION

"Pape's Diapepsin" Fixes Sour, Gassy, Upset Stomachs in Five Minutes.

You don't know what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.

OPENING OF LIMESTONE.

Gaffney, S. C., Oct. 1, 1917.

To The Times: Limestone college opened Sept. 19, 1917, with the brightest prospects for the most successful session it has had in its 72 years of history.

The dormitories are full to overflowing. There are girls here from all parts of this State and quite a number from other States. Union county has 11 of these, which shows quite an advancement over previous years.

In order that Limestone may know Union county and Union county may know Limestone better, we have organized a Union county club. Our aim is to boost Limestone and Union county. We organized immediately after our arrival. Only five of us were here last year, and those of us who are "new" girls feel that it is quite a privilege to attend a college where there are other Union county girls who show such a sister spirit. Limestone is noted for this home-like spirit. Here's Dr. Lodge, who is truly a second father to us and his daughter, Miss Aurelia, who advises us as a big sister or mother. In fact, all Limestone girls are sisters and act in this way. If there are other Union county girls who really want an education and are willing to concentrate their powers to acquire it, Limestone is the place to go.

Our club roll is as follows: Sara Little, who is the only A. B. senior from Union, president; Pearl Johnson, vice president, and Lizzie Mae Estes, secretary and treasurer, Evermae Broughton, Mae Whitehead, Louise Johnson, Mae Johnson, Lizzie Hollis, Cornelia Palmer, Mary Little and Sarah Thomson.

The sunflower, whose very life is so pure and whose heart is open to all who would look into it, is our flower. Our motto is "Work and Win" and we aim to boost Limestone and Union county. Our colors are black and gold.

We look forward to the day when the dear old Times comes and each of us read every word. It is almost like a letter from home.

This is our song:

(Tune: "Hold the Fort")
We're a band of cheerful workers,
To our tasks we're true;
If our lessons are so hard
Fresh courage we renew.

—Chorus—
Work and win is our motto;
Work and win we will;
We will never be discouraged—
Stop, we never will.

Every day our tasks are harder
Than the day before;
But we'll work and soon
We'll triumph over every foe.

See our brave band now advancing,
To the front we'll go,
We will overcome the hard things
And we'll win just so.

If we do our very best,
And do it every day;
We'll be sure to win the victory
For we know the way.

Work and win will be our motto
To the very end;
For we know the faithful
Are the ones who always win.

THREE CENTS POSTAGE AFTER NOVEMBER 1

Applies to All Letters and First Class Matter Except Drop Letters—Two Cents for Postcards.

Washington, Oct. 5.—Detailed instructions to postmasters on the increased letters mail rates which become effective November 2 under the terms of the war tax bill, were asked today by Postmaster General Burleson. They do not apply to mail to most foreign countries for which rates are fixed by international treaties, but they do apply to all domestic mail, and under that classification is included mail to Canada, Mexico, Cuba, Panama, the United States postal agency at Shanghai, and all persons in the military service of the United States in Europe.

The Postoffice Department issued these instructions:

Postmasters shall, on and after November 2, see that postage is paid at the rate of three cents an ounce or fraction thereof on letters and other first-class matter except drop letters. All drop letters, that is, letters mailed for delivery from the office at which posted, including those for delivery by city, rural, or other carrier of such office, are required to have postage paid on them at the rate of two cents an ounce or fraction thereof. Postal cards are required to be prepaid two cents, and, therefore, the one-cent postal cards must have a one-cent postage stamp affixed to them in addition to one-cent stamp impressed on such cards. Postcards (private mailing cards) bearing written messages must have two cents postage prepaid on them.

The farm may be a healthful place to live, and again it may not. Country doctors usually are prosperous.

The blunders that happen for lack of forethought generally pull a heavy train of afterthought behind them. Shark hunting might be submitted for shark-dodging as a seaside sport.
