

For Spring 1918

Styleplus Clothes will be made in two grades---\$21. Green Label and \$25. Red Label

The Styleplus plan is to concentrate a great manufacturing volume of cloths of definite grades and prices.

And under the present market and conditions of high prices of wool. We had to advance to the above prices, to keep up the quality of Styleplus Clothes.

We still have 75 Styleplus Suits on hand in Blue Serges and Worsted from the last season and we will sell them at the Old Price Long as They Last.

LOCKHART JUNCTION

Lockhart Junction, Feb. 13.--Well, we are having some fine weather now, and everybody seems to be wearing a sunshine smile. Every one has it to shine upon their backs now when they have it in their soul. Sure we should feel grateful for this beautiful weather; the ground hog prophecy is proving all right so far.

I guess many took advantage of the beautiful Sabbath in going to Sunday school and preaching. There was Sunday school at the Gault school house Sunday with a very good attendance; there has not been any services for several Sundays on account of the cold weather and fuel being scarce. Thrasher says the Sunday school at Elford Grove has put on more zeal as there was a large attendance there Sunday. He will preach there next Sunday by unanimous vote of the people. I will say for Rev. Thrasher that he has the best advanced children that I have seen in any Sunday school anywhere. The primary class is well

trained and can answer many Bible questions.

The Gault school closed today on account of the meningitis scare.

I spent the week-end in Spartanburg and attended preaching at the Methodist church, also went to preaching at the First Presbyterian church, so you see I am not partial and if I had stayed long enough would have gone to the Baptist too. My religion is not so narrow as to think the Methodist is the only church, nor do I think that the Baptist or Presbyterian or any other church is the only one. The best evidence I think of a Christian is to love the brethren and then it matters not what church you belong to.

While in Spartanburg I took in the cantonment--a friend going with me. He has been there before but it was my first time, so I sure did enjoy the trip, meeting many soldier boys who gave me a warm welcome. I visited the Y. M. C. A. and was shown around and the most interesting place I visited was the Hostess House of the Y. W. C. A. which I did not know they had. This place is headquarters for visitors at Camp Wadsworth, soldiers and their friends and relatives can all meet there and talk and enjoy themselves. I met there Miss Bertha M. Loheed who is directress and I found out I had entered the room of the information bureau. She told me and then she showed me the rest rooms, reading rooms and writing rooms. This place is not for dancing or amusements of that sort as I will explain. The hostess in charge endeavors to establish an atmosphere of hospitality and hominess. Before leaving this subject will say that the lady who so kindly showed me around was a northern lady from Massachusetts for I asked her, is why I know. That's why I learn, I always ask for information.

Some folks said it was a wonder they did not take me for a spy. Now folks I believe I could go to France without being hurt for a spy or taken up for one or anything of that kind. This is only a joke, friends. Now listen, please a gentleman is a gentleman wherever he goes and a man should use his courtesy and behave himself nicely and he will get through most any old place. A soldier boy took me over about one hundred acres of land showing me the trenches and explaining to me and showing me something I never saw before. I will quit for this time as my paper has given out and if I don't stop talking there will be nothing left to tell next time. I am going back to Wadsworth if nothing happens and I will have some more to tell.

J. E. Gault passed through this section from Oakland this morning; he is on his way to Cherokee county on business and to visit friends.
