Is Your Money Supporting the Government

At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States Government.

Would you like to do your share and help by putting your money where it will support the new Federal Reserve Banking System, which the Government has established to stand back of our commerce industry and agriculture?

You can do this by opening an account with us, as part of every dollar so deposited goes directly into the new system where it will always be ready for you when wanted.

One Pair of Eyes to a Lifetime...

Are you abusing and neglecting yours? If, so, you will pay the price later. More than two-thirds of all headaches arise from eye-strain. Dim vision, aching, watering eyes, that soon after, granulated lids and many other things are due to some form of eye strain. There is a remedy there if you use the one—promptly fitted glasses.

SCHOOL CHILDREN should have their eyes carefully examined before being taxed by study and if necessary, fitted with glasses.

An examination will cost you nothing, and if there is no need for glasses I will tell you so. My prices for glasses are very reasonable and I stand back of every pair with an absolute guarantee of satisfaction.

Delco-Light

Attracts "Hired Labor" to the Farm—
INCREASES FARM EFFICIENCY

Most men who work for wages prefer the city shops—a definite number of working hours. On the farm there can be no fixed working schedule. At the end of a hard day's work there are always the "chores" to be done.

But where DELCO-LIGHT is used there is plenty of bright, safe electric light. "Chores" can be done with half the time and effort. The water may be pumped electrically, and there is also electric power for operating machines that must otherwise be turned by hand.

And then, after the day's work is finished, the "hired man" may share the comfort and contentment of a well-lighted, modern home, or he can retire to a private, cheerful room of his own. DELCO-LIGHT is a complete electric light and power plant. DELCO-LIGHT runs on kerosene, and soon PAYS FOR ITSELF IN TIME AND LABOR SAVED.

New One on Snakes.

A group of boys were leaning their noses up against the glass case which harbors the boa-constrictor at the reptile house at the New York zoological gardens. "Where's its rattler?" asked one of the kids to a companion. "Ho, ho," roared another of the boys; he ain't got no rattler. When a snake gets that big he's got a whistle."

Correct.

The teacher had been telling them about the great forests, particularly the pines, and had asked if anyone could tell which of the pines and the sharpest needles. Johnny, in the front row, raised his hand and on being asked, said, "The porcupine."

A Wonderfully Interesting Letter

January 18-18.
In an American Hospital.

Dear Papa:—

I've intended to write you ever since we got to this place but prior to this time I've found little opportunity to do so. The last letter I wrote you as you recall was written from the boat and since then we've been on the move. We laid in harbor for a couple of days and then were brought to this place to begin honest to goodness work, not training, one of the only two sections out of the whole contingent that was honored and I for one am mighty glad that the chance was given us. In addition to being something of an honor for the section it means that we will have better quarters and get into action at once.

Just at present we are engaged in the work of evacuation, carrying wounded from the hospital trains to the hospital and from the hospital to other base hospitals. How long we will be here I do not know. We are in wonderful quarters and eat as good food as I've ever eaten away from home and as good as I've ever eaten except in time for vegetables and dried chicken. We sleep in beds too—can you get that? In real beds with sheets on them, a luxury to which I can scarcely become accustomed. And we can get to baths too, warm shows and the work too, it may be tiresome, won't be hard, so I figure that I'm pretty lucky in being where I am. Of course I think I threw away all chance at a commission in coming over but if I had thought that I would get one and stay in Allentown, or not get one and come over, I'd pass up the bars every time. My only regrets is that I was not over here long ago for there's a need of men in a country that has been drained like France has and it's up to every man to get into the thing and push, I am satisfied now for the first time in a long time, I'm healthy and as fine as a fiddle and am having a wonderful time, so I see no reason why I shouldn't grip and take what's coming as long as it's as fine as this is and believe me it is some fine.

France—well as for France—it's a wonderfully picturesque and beautiful country from what I've seen. I believe me to particular deity of the land should be that famous old saint, Jupiter Pluvius. It rains over here every day it seems to me and the level lands weep upward to the hills in undulating curves to be merged into a background of farm houses that were old when Columbus launched his rowboats and sailed across the seas. Coming up on the train we could see every now and then a castle on a hill, just like the pictures in the books, tho I saw none of the impregnable fortresses of the middle ages. There are uniforms everywhere, here blue, there khaki and wherever you go you see some veteran home on a furlough, with his decorations on his chest. It's a land that a man could learn to love very easily I know and I feel that before I leave I'm going to be strongly attached to "La Belle France." You can't help feeling sorry for what she has undergone and the tremendous drain she has suffered as you go down the streets and see the wounded limping by, but she takes her medicine with a smile like brave folk always do and it's inspiring to feel that you're working with such allies as these. We're going to finish up this little tea party over here and we're going

Unshaken Testimony

Doan's Kidney Pills have stood the test in Union. No Union resident who suffers backache, or annoying kidney ills can remain unconvinced by this twice-told testimony.

Mrs. F. B. Scott, 5 Hix St., Union, says: "My kidneys were in bad shape and I suffered from dizzy and nervous spells. My head ached, too. Finally I got Doan's Kidney Pills from the Palmetto Drug Co., and they relieved me."

Mrs. Scott said: "I haven't had the least sign of kidney trouble since I used Doan's Kidney Pills."

Have you a Farm for sale? Just now we want several farms, ranging in acreage from 50 to 1,000 acres to the tract, but bear this in mind, the price must be right if we undertake to handle it, we positively will not offer property for sale, unless, in our judgment, it is worth absolutely every penny we ask for it.

The senior member of our firm has been in the Real Estate Business for twelve years and we claim to know the game, aside from the fact that we have a string of customers and prospective purchasers that have cost us hundreds of dollars in printer's ink to get, by listing your property with us you not only have the benefit of our experience but you immediately have a long list of prospective purchasers.

Did it ever occur to you, that if you undertake to sell a farm yourself, nine chances to one, your prospective purchaser will come to us, give us your price and ask our judgment?

If you have a farm for sale, do the sensible thing, List It With

Pantaloons Originated in France.

Pantaloons became popular in France as a morning lounge costume in the reign of Louis XVI and were generally worn by the democrats at the beginning of the French revolution. Knee breeches as the formal costume of men lasted until the beginning of the nineteenth century. Beau Brummell was the first to popularize trousers or pantaloons in England and their general use followed in America. Brummell wore tight-fitting pantaloons, buttoned at the ankle, and from these gradually developed the looser style.
