#### Our Agents.

WILLIAM HILL and JOHN McBRYDE, Esqs., are our agents. Any orders left with them will be attended to.

#### Communications.

SEVERAL good original articles appear in the present number. The contributors, one and all, will please accept our thanks, and remember us again.

We have also some others, which have boen unavoidably delayed for weeks, that will appear as soon as practicable.

#### The Newberry Press.

Jos. S. Reid, Esq., has recently purchased the Newberry Sentinel establish ment, and merged it into that of his ownthe News Mirror. The latter will henceforth reflect the current news of the day, as also the sentiments of its accomplished editors, Messrs. Reid and Garlington.

#### The Farmer and Planter.

This worthy agricultural monthly is now the only one in the State, and we venture Honor, we gave the statement second-hand to appeal, once more, to the farming community in its behalf. The contents of the March number, if read and reduced to practice, would pay any farmer, we think, more than the price of a year's subscription, which is only one dollar. Address GEO. SEABORN, Pendleton, S. C.

#### Notice to Claimants.

THE following notice has just been issued is highly important to the applicants for bounty land, we call their attention to it:

"No attention will be given to applications from persons who act as agents, unless they are known at the War Department, or are vouched for as respectable persons by some one who is known to the Department."

## The Wedding Cake.

Mr. and Mrs. SMITH, whose marriage we have elsewhere announced, will accept the thanks of this office in return for the largest wedding cake, perhaps, that it has been the fortune of printers to receive recently, if ever. They commence life under most auspicious circumstances-surrounded by all the world can contribute to make it comfortable and happy; and we devoutly pray heaven's blessings to be added to those of earth.

## The Erskine Recorder.

entertaining college monthly, and it sustains us fully in the opinions we have heretofore entertained and expressed in regard to it.

Erskine College and the Recorder are each, we are pleased to hear, in a prosperous condition :-the former having now over one hundred students-more than ever before; and the latter a band of supporters which numbers rank and file little short of one thousand. Success to both!

### A Copper Mine. Mrs. Cannon, near this place, some

weeks since, sent us a specimen rock from a vein which is now being worked on her place. Being absent at the time, and having an accumulation of matters to attend to since our return, are the reasons why an parlier acknowledgment line not been made. We are not mineralogist enough to deacribe the rock-scientifically, but are confident from its general appearance, that copper exists there. It presents strong indicalike political factions at the North, in a state of fusion. We return our thanks for

BATTALION REVIEWS .- The battalions of the sixth regiment are ordered by Col. ROBERTS to parade, at times and places which may be learned by reference to the official order in another column.

We hope that branch. > Extra Court.—We committed a mistake in a former number in saying the extra court was to commence on the first Monday of July. The third Monday, as will be seen by the order of the Judge, in another column, is the day. It has been our good fortune (thanks to our stars!) never to have any business of any kind in any court, civil, military, or ecclesiastic, and not being present when the order was made by his -a fact which accounts, in a majority of instances, for misstatements.

THE RASCHE FAMILY:-We invite attention, from the citizens of the village and its vicinity, to the advertisement of this musical company. They will give a concert on to-morrow (Saturday) evening. We have never heard them; but judging from the flattering testimonials of the Virginia by the Commissioner of Pensions, and as it press, as well as of several of our own State newspapers, we feel uo qualms of conscience in asking for them, in advance, a general audience. We have a programme of the contemplated performances, from which we anticipate a delicious feast of music. The company pledges that nothing of an mmoral or unchaste character enters into their performances.

CHAMBERS & MARSHALL.—This firm have opened an elegant stock of spring dry goods. We commend, most heartily, the public to call, examine and buy; and we have several reasons for our commendation. They have superior goods; they sell exclusively for cash, and therefore can sell cheap they are liberal advertisers, and hence must be liberal men; and our friend GRAY, than whom there is no more reliable, gentlemanly and attentive clerk, has laid heavy tribute upon our gratitude by the several tangible WE have the March number of this truly evidences of his liberality towards us-the last instance of which was the presentation f a most elegant and beautifully wrought lady's collar. ' He has plenty more equally as fine, as well as all other articles suited to the taste of the ladies. No one who visits Abbeville should go away until they have called at the "cheap cash store."

## Savannah Valley Railroad.

In a former number we promised a more extended notice of the proceedings of the last meeting of the Savannah Valley Railroad Company, which occurred on the 22d and 23d of last month, at Calhoun's Mills. whilst we were at the Federal City endeavoring to get a sight of the "lions" and larger animals that there congregate. We hope, even at this late day, the brief abstract which we are able to present will be acceptable, and have the effect of promoting, indirectly, the cause of the Road by acquainting the public with somewhat of its operations, plans and liopes.

Dr. HILL, presented the conditions on which the City Council of Augusta propose to subscribe \$500,000. #### [FOR THE INDEPENDENT PRESS ] Truth.

The existence of Truth necessarily imolies matter and rational, thinking agents, is without them it is utterly impossible to conceive of its having an existence, though forest trees. The Sentinel, in speaking the oxygen or the carbon are the truth, but of our Congressional Delegation, says: the fire burns is the truth. THE BLACK WARRIOR CASE.-The Washington Union of Saturday repeats its statement that the difficulty about the steamer Black Warrior has been adjusted, by the Spanish Government agreeing to the terms which the United States Governmen prescribed. To remove all doubt of thisas doubts have been expressed -- the Union published of Saturday a portion of the correspondence which passed between the two er poor editors, have nothing to expend in governments, and would complete the publiaction in its next issue. So, with this re peated, emphatic, official assurance the he matter has been adjusted, we may con clude that there is no danger-as some the papers in New Nork and elsewher insist-that there will be war about it.
