WHO ARE THE DISUNIONISTS!

Breckinridge in his late very able peech delivered in Lexington, Ky., affects a lear and satisfactory answer to this enquiry, whilst vindicating himself and the party with which he is acting, from the charge of dismuion which had been made by Mr. Douglas and Mr. Crittenden and others. He shows clearly that his own antecedents fully establish his loyalty to the Union and Constitution, whilst the principles of his party will relieve it from any imputation of disaffection or disunion.

The principles of the Constitutional Demperacy are fully set forth in the platform adopted at Baltimore. It is not pretended that the resolutions of the platform which relate to the acquisition of Cuba, the Pacific Railroad, the charge to the people; Rev. Jonn McLEESE or the rights of naturalized citizens, contain disunion sentiments, but if disunion is embraced anywhere it must be in the resolutions relating to the protection of property in the Territories. These resolutions are in the following words:

1. Resolved, That the government of a Territory, organized by an act of Congress, is provisional and temporary, and during its existence all citizens of the United States have an equal right to settle with their property in the Territory, without their rights of either person or property being destroyed or impaird by Congressional or Territorial legislation 2. Resolved, That it is the duty of the Federal Government in all its departments to protect, when necessary, the rights of persons and property in the Territories, and wherever else its constitutional authority extends

It will be seen that they are almost a verbal transcript from the opinion of the Supreme Court, and Mr. Breckinridge shows conclusive ly, that the principles set forth are supported by the precedents and practice of the Govern ment, and affirmed by both political parties in the State of Kentucky, by both branches of the Legislature by the whole Democratic party in the State Convention, and by Mr. Critten den himself. These principles are therefore Constitutional and hence cannot be sectional, and it would be about to charge disunion proclivities upon a party which is pledged to their maintenance. These principles concern the honor and equality, of the States, and can alone restore peace and maintain harmony -They are not abstract, but vital and important, and upon their maintenance depends the perpetuity of the Union.

To charge the Constitutional Democracy with disunion would be to libel a majority of the Senators in Congress, three fourths of the Democratic members of the House of Representatives, and all the eminent men of the country who are now battling for Constitutional right and Conservatism.

The real Disunionists are those who are denying to the South the rights which have been guaranteed by the Constitution, and who are now engaged in violating its clearest provisions-who are resisting the Execution of the Fugitive Slave Law, and making it penal to as sist in its enforcement; who are keeping alive the anti-slavery excitement, at the North, and inciting the slave to insurrection at the South. The enemies of the Constitution are the real Disunionists.

But the true friends of the Union will be the first to resist the infraction of the Constitution, and to demand equality and fraternity as the essential condition of our existence as a united people.

OUR "PALMETTO" SKETCHES.

Several of the surviving members of the Pal metto Regiment have forwarded us their names since the commencement of our sketches It is our desire that every member of that ill fated Regiment, in whatever part of the Union or the world he may be, should have a copy of our paper during the publication of our sketches. And they shall have it if they will only send us their names and address; and if Herndon, Chr'n; W. B. Dorn, Esq., Dr. John any should not be able to pay for it, they shall have it gratis. We claim for our sketches the utmost reliability in their more important facts dan, Robert Haddon, Dr. P. W. Connor, John election, be the right man in the right place and features and we with those who were eye witnesses, and participated in the campaign, to to read and judge for themselves. We may touch some points that may never have seen the light before, and which may be considered mportant to the truth of history. Men and n easures-matters and things will all be sketch ed, as far as possible, with the impartial pen of historic truth.

Will the press of this State, and of other States, assist us, as far as they may find it convenient in extending this notice .- Son of Tem-

THE DISTRICT FAIR.

We have been requested by the Executive Committee, to say that by way of increasing an interest in fine Teams, they will give for the best Team of five well broke Mules, Silver Cup \$10.00. The Mules to be driven around the track on Thursday after the trotting match. And for the purpose of encouraging fine Saddle Horses, there will be given for the fastest Pacer, Silver Cup, \$1500. This premium is open to the world. The premium for the best Team of Mules open to the State. No premium awarded unless competition.

We are requested to say to the Ladies that he Executive Committee have made ample arrangements, by which every article, from the finest Needle Work to the Wine Closet and handle, touch, or taste anything on exhibition except the judges; and for the purpose of enforcing this rule, there will be stationed in the of taking the utmost care of everything comyou will have to play knucks with some one's stick. We then say to the Ladies, one and all, come up with your pretty things, your nice things, and your sweet things; and bring your daughters along. There cannot be any Fair without you. Let the men see that the drought don't effect your enterprise in such a cause. Let every one bring something, no matter whether it will take a premium or not-bring it along. Who knows but that it will take a premium? Let all do their best, and my word for it, we will have a grand exhibition next Fair.

The Executive Committee are busily engaged in making ample preparation for a large exhibition of stocks of Horses, Cattle, Sheep and Swine. All they ask is to be sustained in their efforts by the Farmers, Mechanics and Tradesinen. Let no Farmer or Mechanic say that he has nothing worthy of exhibition, or "I know that my neighbor has better-I cannot take the premium," &c. suppose every man talks thus, what would beome of the Fair ! All our efforts and labors would be in vain. So away with such excusesbring along the best you have, for your part of the contribution. Do your duty in this great cause, and all will be well.

We would say to those who are going to ex hibit at the Fair, to call on the Secretary at as early a date as possible, and have their articles entered, and get cards for the same. This will prevent confusion on the day of the Fair.

Life members, call and get your certificates and cards for admittance. Court week will be a good time to attend to these matters. W. C. DAVIS, Sec'y.

CORRESPONDENCE. The New York Times of Thursday, only

rerched us yesterday. It contains a letter from Col. Jas. L. Orr, to Hon. Amos Kendall, who in a private note had disented from the views expressed by Mr. Orr, and Mr. Kendall's reply. Col. Orr calls Mr. K's. attention to the result f the teachings of Black Republicanism, as leveloped in resistance to the frigitive Blave law, the inveigling of tlaves the raid of John Brown, and the recent insurrectionary move-Advices from Washington indicate that there ments in Texas, and asks-can it be prudent, may be some hope of the construction of the safe or manly to submit to the domination of a telegraph line to the Pacific, in accordance with party whose declared purpose is to destroy us

> The reply of Mr. Kendall, occupying three olumns of the Times, is that of a rank consolidationist utterly denying the rights of a State to secede and intimating that 200,000 volunteers will be ready to crush out the attempt and all engaged in it.

GREAT UNION MEETING IN NEW YORK. A large meeting took place in New York on the evening of the 17th. Among the list of Vice-Presidents we notice the name of Hon. Joseph L. Umphrey, of South Carolina. The Herald says:

"The grand Union demonstration at the

flowing and enthusiastic affair. Such a united and popular movement has, perhaps, never taken place in this city. The utmost harmony pervaded the proceedings, and the preposition to appoint a committee to nominate one straight out Union ticket for the defeat of the Black Republicans was received with such applause and heartiness of enthusiasm as are seldom witnessed. The meeting was addressed by Dairy, shall be taken care of and returned to gentlemen from different States of the Union, hem in good order. No one will be allowed to and the proceedings were, on the whole, very interesting. A grand torchlight procession of the Union leagues and minute men took place in connection with the demonstration, and at Ludies Hall men charged with the especial duty a late hour the immense gathering, inside and outside of the institute, broke up with loud mitted to their care. So hands off young 'uns, or cheers for the Constitution and one straight out Union ticket."

CAPTURE OF WALKER BY THE BRITISH AND HIS SUBBERDER TO THE HONURAN AUTHORITIES—Sympathy, &c.

My last would I ave shown you that the end of Walkerism in Central America was drawing to a close, as far as he was personally concerned. After being ordered off by the commander of the British gunboat learns, he was pursued to his retreat on Negro river by the royal steamer, carrying detachments of the troops of Alvarez and towing a small schooner, having also troops on board. Walker and Rutter, with seventy men, worn out and exhausted with wounds and sickness, were brought here this morning by the leaus and delivered at the castle, with the understanding had with the ommander of the learns that the seventy men should be allowed to return to the United States after taking an oath to return no more to Centrrl America with arms in their hands, and on condition that the consular agent of the United States should provide transportation for them. and Walker and his second in command to be dealt with as the nuthorities might deem prop-

er. Their fate, I have no doubt, is determined in advance; indeed, it is currently spoken of as a fixed fact, ulthough the shooting is yet to be done. Such is the fate of the last of the filibusters, so far as we are concerned, and Walker, who has been a terror to the wicked government of Honduras, will be shot, if not to norrow morning, in a very few hours, having with him him the secret sympathy of the people of this country, who are overridden by a brutal tyranny under the name of liberty.

Washington -September 21, 10 P. M. Hon, WM L. YANGEY AT Washington.-Hon. Wm. L. Yancey arrived here to day. An immense and enthusiastic crowd, headed by the "Marine Band," serenaded him this evening .-In response to frequent calls, Mr. Yancey appeared and made a handsome reply. He spoke most eloquently, and advocated disunion in the event of Lincoln's election. He said the Union was in the hands of the Northern anti-Lincolnites, who could prevent disunion by fusion for Lincoln's defeat. Mr. Yancey coucluded by saying that if the Northern sectional majority disregarded the checks and limitations of the Constitution, Southern freemen would plant the banner of equality upon the mountains of Georgia, and entrench themselves in a Southern Confederacy : but he hoped that a timely fusion would avert such dire evils -Mercury.

GUBERNATORIAL - A writer in Union Press, of Unionville, nominates Hou. W. Porcher Miles, for Governor. The Press, in calling attention to the nomination, says that it meets with its hearty endorsement, and that Mr. Miles would, in the contingency of Lincoln's

OUR RELATION WITH MEXICO.-A special des patch to the New Times says:

The Government, it was understood, he given its assent and co-operation to the inten-given its assent and co-operation to the inten-ded mediation of Roctand, Prussia, France and Spain, in the Mairs of Mexico, and Mr. Mc-Lean has received instructions to that effect. However this intelligence may be contradicted you may rely upon it as accurate in every par-ticular.

PARTRIDGES. The Edgefield Advertiser, referring to

paragraph from Porter's Spirit, adds:
We can attest the same abundance in the partridge crop for this portion of South Carolius. Several enthusiastic huntsmen have told us that the prospect is unusually fine: It is to be hoped that the advice of the Spirit will be heeded, and that this only remaining field of sport of the older States will not be ruth-lessly curtailed by traps and nets.
