KAUFFER, BAUM & CO., WHOLESALE DRY GOODS ESTABLISHMENT,

175, BROAD STREET, 175, UNDER THE AUGUSTA HOTEL, AUGUSTA, GA.

THE Undersigned would respectfully inform Merchants and Dealers that they have just completed their arrangements for the coming Fall and Winter Season. Our Store has been enlarged to double its former size, it is the largest store in the State of Georgia. Our Stock, which for variety of the most desirable Goods, is unsurpassed in this State, will in every respect compare favorably with any house either in Charleston or any other Southern city. It is our intention to establish a regular Wholesale-Jobbing House, selling exclusively for cash. Which, as an old fact is the only way to buy Goods cheap.

Having a similar establishment in New York City, of which Mr. J. KAUFFER, is the proprietor, we are enabled to obtain the latest and most fashionable Goods at the lowest market. We would only ask the favor of an examination of our stock and Prices before going elsewhere, and we will prove to the Trade that we can sell Goods fully as cheap as any other Wholesale House, besides saving your time for further travelling, and many other expenses.

JUST RECEIVED

ENCOURAGE SOUTHERN ENTERPRISE! SUPERIOR COTTON AND WOOLEN GOODS, COLUMBIA MILLS.

THE Subscribers, in view of the GREATLY INCREASING demand for goods of Southern Manufacture, have added very largely to the machinery in their extensive COTTON and WOOLEN MILLS, and are now prepared to furnish COTTON, OSNABURGS, STRIPED OSNABURGS, COTTON YARN, WOOLEN PLAINS, WOOLEN KERSEYS, or JEANS—all of which they WARRANT to be of SUPERIOR quality. We also continue to manufacture Wool into Cloth, at very low rates, finishing everything except the wash, and charging but 12 1/2 cents per yard for Plain Cloth, and 15 cents per yard for Twile; or we will work up for one half of the cloth it makes. This arrangement enables planters raising wool to obtain a SUPERIOR ARTICLE of Negro Cloth, at a very small cost. Planters or others sending us wool to work up, can send it either clean or dirty; if sent dirty, one half cent per yard extra will be charged for expense of washing it. We would prefer the wool however, to be sent clean. The yield will be more satisfactory—dirty wool loses from 25 to 60 per cent in clearing. Bales are not objectionable as they are removed by machinery. THE NAME OF THE OWNER SHOULD BE MARKED DEFINITELY ON EVERY PACKAGE SENT. This must be strictly attended to. We will also pay a fair CASH PRICE for any wool sent us. We solicit the patronage of the South, and pledge ourselves to give satisfaction to all our customers. Address: JAS. G. GIBBS & CO., Columbia, S. C. April 20, 1860. Mr. JOHN McBRIDE is our Agent at Abbeville, and has always a Stock of all classes of our goods, and will furnish them by the Bale, manufacturing prices, freight added. He will also purchase all Wool offered to him at fair market prices, and attend to any business connected with his Agency.

RHODES' SUPER-PHOSPHATE!

PLANTERS seeking Manure, will recollect that RHODES' SUPER-PHOSPHATE is the only Manure the late eminent analytical Chemist, Professor Bickell, of Maryland, pronounced

Standard! and which has been confirmed by every section into which this Manure has been introduced. This Manure is sold under a legal guarantee of Purity and Freedom FROM ALL ADULTERATION!

From the eminent manufacturing chemists, Messrs. Potts & Klett, under whose personal supervision RHODES' SUPER-PHOSPHATE is manufactured. This Manure has been used in the South Carolina for several years past, with great success in the culture of Cotton and Corn, and is now thoroughly established for these important staples. It is the present season pass without the exception of the best.

Read the annexed letters from gentlemen who have tried it the past season.

J. A. ANSLEY & CO., NO. 300 BROAD ST., AUGUSTA, GA.

ATHENS, GA., Nov. 22, 1859. Dear Sir: Rhodes' Super-Phosphate has been applied this season to a small scale, to both Corn and Cotton. The result exceeds my expectations, although the experiments, for many reasons, were not, and could not be conducted with due caution; yet I am entirely satisfied, that the growth of wool, in both instances, the yield in corn, and the quality of both of cotton, were fully double the yield in the previous unmanured, and this when only a table-spoonful of the Super Phosphate was applied as a top-dressing to each hill of corn, and a tea-spoonful to each stalk of cotton. The best late in the season as the 10th of Nov. 1859. The wool grew long to nine feet high, with six feet branches, covered with bells, while the unmanured was not half so good. It is my intention next year, to test it more fully. Very Respectfully, Yours in great haste, W. W. WRIGHT.

Very Respectfully, Yours in great haste, W. W. WRIGHT. (Signed) C. C. M. HAMMOND.

UNION POINT, (C. H. R.) Nov. 22, 1859. Messrs. J. A. Ansley & Co. Gents: I bought a ton of Rhodes' Super-Phosphate in Baltimore, last Spring, Mr. H. D. Lettice, of Beaufort, to test its value as a manure. I purchased 125 lbs. in the previous unmanured, and this when only a table-spoonful of the Super Phosphate was applied as a top-dressing to each hill of corn, and a tea-spoonful to each stalk of cotton. The best late in the season as the 10th of Nov. 1859. The wool grew long to nine feet high, with six feet branches, covered with bells, while the unmanured was not half so good. MANIPULATED GUANO. No. 32 SECOND STREET, BALTIMORE January 26, 1860. REPORT OF ANALYSIS OF ROBINSON'S MANIPULATED GUANO FOR FRANCIS ROBINSON, ESQ., BALTIMORE CITY.

A SAMPLE of the above, which was taken at your Mills, was found, upon analysis, to be capable of producing of Ammonia, 83.1 per cent. Add to contain of Bone Phosphate of Lime 45.82 " " The above proportion of Ammonia and Bone Phosphate of Lime is known to be the most proper for a concentrated fertilizer. Both theoretical reasoning and the results of numerous practical experiments have approved it. An application of 200 lbs. of this article per acre, will supply more of Bone Phosphate of Lime than is required by any crop. It contains a considerable surplus of this valuable nutrient incorporated with the soil after cropping, and will furnish a sufficient quantity of ammonia to act as a nutrient and stimulant. CHAS. BICKELL, Ph. D.

REPORT ON MANIPULATED GUANO, FOR FRANCIS ROBINSON. THE sample analyzed was taken by myself in the late in the mill where the guano was manipulated. It contained of Ammonia, 82.4 per cent. Phosphoric Acid, 21.98 " " Equivalent to Bone Phosphate of Lime 47.69 " " It is therefore an excellent manipulated guano, containing enough ammonia to produce a rapid and vigorous growth, and a great quantity of phosphates to prevent exhaustion of the soil.

AYER'S SARSAPARILLA.

A compound remedy in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Pure Sarsaparilla, so combined with other substances of still greater alterative power as to afford the most reliable antidote for the disease. Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumatic complaints, and that one which will accomplish their cure must prove of immense service to the large class of afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:— SCROFULA AND SCORFLOUS COMPLEXIONS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, FLEA-BITES, TUBERCLES, SALT RHEUM, SCALD HEAD, SYCOPHILIA AND SYPHILITIC AFFECTIONS, MERCURIAL POISON, DROPPY, NEURALGIA OF THE DORSAL VERTEBRAL JUNCTION, DYSPYPTIC AND PHTHISICAL TUBERCLES, BOBOL-ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

Persons afflicted with it will find a great promise of relief when taken in the spring, or before the hot summer season, as it will purify the blood before it enters the system, and thus prevent the formation of the miasm which festers in the blood at that season of the year. By the timely employment of this remedy, many morbid disorders are averted, and the system is kept in a healthy condition, and the system is kept in a healthy condition, and the system is kept in a healthy condition.

CHEROKEE REMEDY.

One to Three Days. An Infallible Cure for Gonorrhoea and all Diseases of the Urinary Organs. This Remedy cures when all other preparations fail. It is entirely unlike every other compound, containing no mineral poison or poisonous drugs, as it is prepared solely from Roots, Bark and Leaves, and has been handed down from one generation to another by the Cherokee Indians. It is offered to the public on its own intrinsic merits. It is perfectly safe, and does not require the use of any other medicine, but is equal to any other in its power to cure. It is equal to any other in its power to cure. It is equal to any other in its power to cure.

Persons afflicted with it will find a great promise of relief when taken in the spring, or before the hot summer season, as it will purify the blood before it enters the system, and thus prevent the formation of the miasm which festers in the blood at that season of the year. By the timely employment of this remedy, many morbid disorders are averted, and the system is kept in a healthy condition, and the system is kept in a healthy condition.
