NOTES FROM STATE COLLEGE.

The Palmetto Leader: State College, Sept. 26th. The College Y. M. C. A. welcomed the new male students Saturday night in the "Gym" with a serving of ice cold punch and male dancing, together with good laughter and speech-making.

Mr. Harold D. Crawford, Capt. of the foot-ball team, spoke in behalf of the Athletic Association; Mr. Verdel Covington, assistant Captain, spoke on the relationship between the Y. M. C. A. and athletics. Mr. Frank Edwards spoke in behalf of the Dramatic Assn. Mr. Wayman Johnson, Secretary of the Y. M. C. A. spoke in behalf of the "Y." He showed that the principle of the Y. M. C. A. means finer manhood, and it offers many opportunities to those who will join.

For many years thousands of students have wished for the opportunity which this month has brought. Many have dreamed of rubbing their heads against college walls. It will prove a blessing to some and a curse to some. Training helps some people and hurts some.

There are many reasons why students go to college. Some are sent to avoid home trouble. Some go to play athletics only. Some go to spend a winter vacation, while others go to take advantage of those things which mean a better day in the life of our people, and a help to human society.

All of our leading schools have Christian organizations for the young people.

They also have an Athletic Association, Dramatic Club, Debating Club, Literary Societies, Scientific Club, Agricultural Club, Choral Club, Glee Club, and many other voluntary organizations such as the Bible Study Club and Christian World

Fellowship. All these point to a noble life of service and the world does not question the character of a student who has connected himself with and has functioned according to the rules of any of these organizations. Now, the students have come. What is their aim? Have they come to reflect discredit on our people by taking advantage of nothing that means good, or have they come to grasp every opportunity that means a step forward in this age?
Wayman Johnson.

THE PALMETTO LEADER CHANGES OWNERSHIP.

The Palmetto Leader, formerly owned by Messrs. J. B. Lewie and Geo. H. Hampton, under the firm name of The Lewie Printing Co., has changed hands and is now owned by Mr. Geo. H. Hampton, who was Manager of The Lewie Printing Co., and The Palmetto Leader.

The Lewie Printing Co., has been in operation for the past ten years, and has grown to be one of the largest plants of its kind in the State. On account of the ill health and other business connections, Mr. Lewie could not attend to his interest, so he decided to give up this line of business and devote his time to his Badge and Regalia department.

Mr. Hampton, the present owner is an experienced printer and well known as one of the best business men in the State. He has made The Palmetto Leader one of the biggest Negro journals in the South and he intends to continue giving to the public the best there is in the newspaper world and also in Job Printing.

By Leonard Massenburge. (By The Associated Negro Press.) Tristan Da Cunha, a little island in the South Atlantic, 1600 miles west of Cape Town, South Africa, is said to be the loneliest inhabited island in the world.

Only three times in 115 have missionaries returned to civilization to give account of the island's little settlement.

The island was discovered in 1506, but it was not inhabited until 1810. In the war of 1812, it was used as a base by American commerce destroyers, and in 1815 was annexed by the British governor of Cape Colony. When Napoleon was sent to St. Helena, the island was garrisoned by the British to prevent it from being used as a base for his rescue.

After the garrison was withdrawn, Corp. William Glass, a Scotchman, with a few others remained as permanent settlers. These, together with a few Amsterdam Dutch, a few Boers, a few American sailors from whaling ships, and a shipment of Race woman from Africa, constituted the original stock. The present population of the island is said to be less than 150.
