Phe Rev. W. S. Minis, was discontinued as presiding elder and sent to the pastorate of the Bailey Bethel Circuit which is one of the best ap pointments in the state, Rev. Mims has a wonderful fature. the posses a most pleasing , personality and has a good education; therefore the church can use such a man to a great advantage. To my mind the church made a blunder in its dealings with this young man to make a presiding elder of a man who had not been in the ministry but four years including his career as exorter and local preach er. And who had not pastored even a first class circuit or station for the space of one year was a blander that would have proven fatal had not Bishop Ransom corrected it. The actions of the conference in dealing with Brother Mims will no dubt be the means of his being not only a presiding elder in his church but general officer or bishop. To succeed in the ministry one must matriculate in the school of experience or else he will eventually fall flat up the road. No getting around it. The Rev. M. G. Williams was also removed as pre--of the Alderille and made the pastor of Mt. Pi-gah Station. Greenwood. In this case it seems that the interest of that church demanded just the kind of service Dr. Willfam's is able to render. The is one of the best pastors of the Councetion. In fact he will get almost any not in the church's machine.
