## ANTI-LYNCHING LAW

The first lynching of the year took place in Alabama .. The of ficers do not seem to have acquit ted themselves very well in th natter. In fact, one could readily conclude that they were in al liance with the mob. Governor Graves ordered an investigation of the savage affair. A special.Grand Jury was called for the task but it failed to find any fault with the officers. In fact, it praised the officers and pinned bouquets on them. But who expected anything else? They are their neighbors and friends, and, no doubt, of that class which really believes in Inych ing. That, of course, is not to say that there are not thousands

of fairminded men and women the Alabama who look on lynching with horver and as a menace to ther eivilization. But they ar not articulate enough to stamp ou. lynching. But sentiment in the outh against lynching has grow. very much and the majority senti nent is for a Federal Anti-lync. ng law. A recent poll on this subject by the American Institut of Public opinion shows that u percent of the people of the Sout! ire in favor of the Federal Gov rnment taking a hand in crush ing this monster even as it nov usy itself with kidnaping. May be, there soon will be such a lay macti d. When that is don lynching will not be any longe in rujeyable sport at the expensi

the leadership of W. H. Witterspoon of Emmett Scott high, disssed Education for the need of life.

At the end of the first hour bth groups assembled in the schol's ditorium for the second partof he program. Pres. Abram Sinp-

on, of Allen university, Columia, delighted, inspired and informed the group in his very pleasing vay with an address on "The Hunan Side of Education." He point out that education is to prepahe child to live in the age of reneration; that the personality of the teachers had the greatest ect on the character on the chi te stated that the teacher's p which the child comes in conta with the education system vogue; that it is the teacher while determines the status of the child mong his fellow mates. He poi d out that the classroom at class activity should be such that the child could be himself and decelop individuality. The teachers ersonality plays a most impeint part in the child's life.

W. A. Schieley, of the Star department of Education, pointed out, in his remarks, four outstandme factors necessary to the rund the solution of the solution o use common tools, and should have good health. Mr. Schiffley pointed but that if the teachers had these four qualifications, he could assure macht that he was putting the ob over.

The association is always glad o welcome such persons as Mis Thomas, Pres Simpson and Mr. Schiffley to their meetings, Music for the occasion was furnished y groups from Clinton and Friend hip colleges of Rock Hill.

The association wishes to thank Miss Add e McLendon of the Nome Economics department of Emmett Scott High, and members f her department for the very efcient and delightful manner in tich they handled the serving of effeshments at the meeting of the

ETHIOPIAN CONTRIBUTION: AGAIN.

Sometime ago, we had some thing to say about Negro citizer of this country contributing to fund to help Ethiopit-Ethiopit that is now under the domination of Italy by conquest. In our discussion of matter we deprecated the idea one. colored people giving now of their dimes and dollars for Ethiopia :. is being done in certain section. of the country-notably in and a round Ney, York. When we wrote the article, we were of the opinio that the contributions were rathe of the nature of war funds. How ever, in a communication from "The United Aid For Peoples of African Descent, Inc.", we are it formed that such contributions a are made are "to help the Eth'o pians who are now refugees in large numbers in the various cour tries outside of Ethiopia", and that ex-Emperor Haile Selassic has designated, commissioned and one of his former subjects here to receive the money. Of course we have no desire to hurt the said gentleman or anyone els personally; we were trying to dis cusa principles. We are still the opinion that Negroes can mak better use of their money by doing ore the conventions and associasomething to ampliorate our de
