Impressive Funeral Services Held for Floyd J. Calvin

Charred Wood Rejected by Mills

"The paper mills which secure all or part of their pulpwood in South Carolina will not accept charred wood," said State Forester H. A. Smith. "The charred wood interferes with the normal pulp and paper-making processes, therefore, when a car or barge load of wood arrives at a mill with charred sticks in it they are cast aside and their volume is not included in making settlement to the shipper. The shipper has not merely lost insofar as the cost of the stumpage and preparation of the charred sticks is concerned but he has also lost the cost of the freight haul of the charred wood."

All of the pulp mills have fully advised pulpwood cutters and shippers that they will not accept charred wood. Most of the cutters prepare their wood so as not to include charred sticks. However, woods fires char the butts of trees and the cutters must go to considerable trouble and expense to eliminate the charred butts or the charred portion. In many cases after the wood is cut and "penned" in the woods a fire may burn thru the area and destroy or char the wood.

"The people who cut pulpwood have to work very hard to make a living and it is unfair to them for others to be careless with fire in the woods and thereby deprive them of some of the reward for their work," said the State Forester. "In addition the landowner incurs less for his stumpage if it is necessary to cut high stumps or to cut off a portion of the butt of the tree to avoid harring, rot and cavities caused by woods fires. This is just as true in selling saw timber, pole or piling stumpage as in the case of pulpwood."

Dr. Robinson asked the question "What is good?" and read one of Longfellow's famous poems. Then he said "What is the chiefest good of all living?" Let my Master answer. He asked "What shall it profit the man to gain the whole world and lose his own soul?" "What shall a man give in exchange for his soul?" "If you believe in your soul God will take care of you." Gospel Tornado Speaking

I am speaking from Kansas City, Kansas.

Had planned to leave for Little Rock and South Carolina today but I called Dr. T. J. Miles over long distance phone last night at 11 o'clock, he advised that I stay here about two weeks and make these conferences and I would not have to come back to the west before general conference in Detroit in 1940. I have made all of the towns in the radius of 250 miles campaigning for Dr. Miles and Mr. Hampton. I truly believe if I keep these conferences Kansas and Missouri I am sure Oklahoma and Texas will be taken over. Rev. E. P. Bryant, pastor of Trinity A. M. E. church, Kansas City, Kansas gave me his word that he would support our candidate and would be the key man for this part of the state. You can contact Dr. Bryant 426 Greeley Ave., Kansas City, Kansas. I am in the hot bed of the friends that are supporting another man for the office that Mr. Hampton is running for. But I am using my influence and feel I have brought some pressure to bear. I have not received but two reports from candidates up until this broadcast. Rev. Collins' market increased 4 percent; Dr. Miles of South Carolina according to the Texas and La. report increased 16 1-2 percent. I am sure I will get the other reports tonight but will be too late for this article. Next week we will be able to give the percentage of every candidate according to public sentiment. This is enough for the candidates.

I am sorry that I will not be able to attend the meeting at Morris college, September 26. If the president will contact me I will mail check covering my pledge.

By the way, Old Viv is on her vacation. She wrote her husband for some money and her husband wrote her and said you know I am broke and was waiting for you to bring money back of your vacation. I guess she will quit him when she gets back. Poor Old Viv is in a pickle.

Send all mail to P. O. Box 128, Little Rock, Arkansas. So long, will be on the air next week over station PMLOC.
