The Palmetto Leader is not responsible for advance payments of subscribers. Payment should be made until the money is received in the office of publication. Advance payments for subscribers should be made direct to the Palmetto Leader or to any of its authorized agents.

GOV. THUMMERMAN IS 'PLAYING DIRTY'

We figured that sometime soon Negro citizens in Columbia and other South Carolina cities would be the ones to get the blame for the backward and unenlightened attitude of the white man in running down their throats.

It is a fact that the State of South Carolina is one of the few states in the South where the white man is still in the saddle. The white man is still in the saddle in South Carolina because he is still in the saddle in South Carolina.

The white man is still in the saddle in South Carolina because he is still in the saddle in South Carolina. The white man is still in the saddle in South Carolina because he is still in the saddle in South Carolina.

WHITE MAN — BLACK HEART

"SEARCH ME, O GOD, AND KNOW MY HEART: TRY ME, AND KNOW MY THOUGHTS: AND SEE IF THERE BE ANY WICKED WAY IN ME"

— PSALM 139:23,24

IN THIS OUR DAY

BY C. A. CHICK, Sr.

"WHITE GOLD MINES"

The thought for my article this week is the result of my attending the Southeastern Cattle Show near Fayetteville, N. C. As I sat and observed the adolescent boys and girls lead their thoroughbred cattle before the judge to be judged my heart leaped for joy. And, when I saw there were only a few of various breeds of breeds to be judged.

Said I to myself as I sat and observed with a keen interest the various breeds, "there is a lack of interest in the raising of cattle in the Southeastern section of the United States) of the white man for the most part, cotton and tobacco. It has long been observed that farmers who diversify their crops have a higher standard of living than those farmers who do not diversify.

At Raleigh during the holding of the different farm demonstration agents gave brief remarks. One agent pointed out the fact that there is a shortage of milk in North Carolina. As I recall, he stated that annually North Carolina imports \$2,000,000 worth of milk. Inasmuch as North Carolina is generally regarded as one of the progressive Southeastern States, I am assuming that each of the other Southeastern States imports about the same amount of milk as does North Carolina.

Thus, the real purpose of this article is to point out that there are "white gold mines" (milk) right here in the Southeastern section of the United States. Let's start now encouraging our boys and girls to immediately start raising this gold that is making daily cattle and their products for the market. Moreover, if we produce milk our "white gold mines" will never become depleted.

Let's raise our standards of living in the rural South by diversifying our farming, devoting more of our time to raising dairy cattle and milk for the market.

Let's raise our standards of living in the rural South by diversifying our farming, devoting more of our time to raising dairy cattle and milk for the market.

Let's raise our standards of living in the rural South by diversifying our farming, devoting more of our time to raising dairy cattle and milk for the market.

Health For All

Away To School

It's a mile-stone in your life — the day you send the first bird out of the nest, the day he goes away to college. Fortunately, he'll never know how much you're worrying and wondering how he'll get along.

You're of course, all out you nowhere. You won't be there to get him up in time to eat breakfast before his first class.

You can't remind him to drink his milk or eat his vegetables or brush his teeth or get eight hours of sleep.

In the first burst of freedom he may break some of the rules of health you've helped him follow for years.

Be sure yourself with the fact that it's probably well on its way to the boy permanent damage. Before long he'll return to the good health habits you have instilled. For your own peace of mind,

as well as for his health, be sure he gets a complete physical check up before he leaves home.

Some colleges will give him a physical after he reaches campus. Most will ask for a report from the family doctor, but they vary considerably in the amount of information required.

It's up to you to see that the boy has a head-to-toe examination including a tuberculin test.

If the test shows that he has tuberculosis germs in his system, the doctor may advise a chest x-ray.

You'll want to be sure that TB isn't hiding beneath that healthy summer tan. TB has weakened too many promising college careers.

As the parent of a college student, you'll want to know about college health problems and programs.

Your local tuberculosis association can get for you a copy of THE COLLEGE AND STUDENT HEALTH by Ethel L. Ginsburg. This little volume will help you understand what's needed to protect your boy's health in the important years ahead.

This column is sponsored, in the interest of better health, by: Richland Tuberculosis Association.

Charleston Voters Hold 3rd Meet

CHARLESTON — The third in a series of instructional meetings for Negro voters was held Thursday at Central Baptist Church on Radcliffe Street.

Instruction was offered in preparation for registering to vote. The Charleston County Board of Registration will open its books Sept. 16 to register voters for a 10-year period beginning Jan. 1,
