MEN FOUGHT WELL AGAINST GERMANS

With the American Army in France, Nov. 11 (By the Associated Press.)—Complete details and verified reports of the recent German trench raid show that the American troops on that occasion set an example for courage and valor unexcelled. The officer who had charge of verifying the accounts of the raid said to the correspondent today:

"I am proud to say that our men engaged in the fight did everything within their power. They jumped into the fight and stuck to it. In the first place the troops had been in the trenches less than three hours when the barrage fire of the Germans began. They had marched a good part of the previous night and were tired. Some of them were allowed to go to sleep in a dugout 25 feet under ground.

"When the barrage began these men did not hear the racket. It is apparent that first knew of it when the Germans started throwing grenades down upon them. It was these men who were taken prisoner but they fought well, even when surprised that way, for the stairs of the dugout were covered with blood, and especially the top half, showing that the Germans there must have been hit. The entrance to the dugout also gave indications of close hand to hand fighting.

"From the dugout, the trenches and over the top through the barbed wire and well out into No Man's Land, there was a wide red trail. How much of it was American and how much German blood is not known.

"There is a corporal now in the hospital back of the line who did a good job. He was in the listening post when the barrage began. During the firing an officer made his way through the shells—God knows how—and yelled to the corporal to go into the dugout. There the corporal saw the officer's lips moving but did not understand the command and remained at his post. At the end of the barrage he saw Germans all around him—five being right in front of him. He took careful aim and fired three shots and three of the enemy were seen to fall. Then a hand grenade fragment entered the corporal's back and put him out of action."

Investigation shows that all the American telephone wires between the observation posts and trenches and batteries at the rear were cut by fragments of German shells, which numbered approximately 50,000. The Germans crossing No Man's Land rolled up telephone wires behind them and set up a small field telephone exchange outside the American barbed wire with branch lines running to at least three points, while the raid was in progress, to direct the enemy artillery.

VIRGINIA TOBACCO MARKET

No one in sane moods would ever have imagined that sun-cured tobacco could be sold on an open market at 35 cents a pound and yet this has actually happened at Richmond this year. A few years ago weed of this type might possibly have sold at 3½ cents a pound, but even this is doubtful. The growers on hand in one day received \$15,000 for their loads.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

TAKE YOUR HOME PAPER AND THE PROGRESSIVE FARMER

Realizing that this year, the next and the next maybe, the American farmer will be called upon to feed the major portion of the peoples of The Earth, we have arranged for our readers to receive The Progressive Farmer. We recognize it as the South's leading exponent of the now vital doctrines of crop diversification and farm products conservation.

So important have these problems appeared to our President that he has issued an appeal to the South to not only feed itself but have something more for our sorely needing friends across the Seas.

As your patriotic duty equip yourself by using the advice and guidance of the Standard Farm Weekly which sells for one dollar a year and may be had with our paper for the amount named below.

Both Papers \$1.50

BYRAN'S LIFE IS SAVED AS WILD BULL PURSUES

Chandler, Ariz., Nov. 6.—William J. Bryan, former secretary of state, was saved from a wild bull by the presence of a mesquite tree on the desert near here yesterday. Mr. Bryan and R. A. Hayward, superintendent of the Pima Indian reservation, were duck hunting when they were chased by a bull and succeeded in reaching the mesquite tree. Other members of the hunting party shot and killed the bull. Mr. Bryan was unhurt, but lost part of his hunting suit in the flight from the animal.
