How To Get Nitrate For Fertilizer Use

Notice has been received by W. J. Tiller, agricultural agent for Chesterfield county, that the United States Department of Agriculture will sell at cost a supply of nitrate of soda to farmers in Chesterfield county.

The nitrate was purchased through the War Industries Board under the authority of the Food Control Act as a part of the program for stimulating agricultural production. It will be unloaded at Atlantic ports and the price will be \$75.50 a ton, free on board cars at port of arrival. Farmers are to pay in addition freight from port of arrival and the State fertilizer tag fee.

How to Obtain Nitrate

Applications for a part of the 100,000 tons of nitrate bought by the government will be received only from actual farmers or owners or holders of farms for us on their land, and may be made through County Agent W. J. Tiller, or through any member of a local committee consisting of J. H. Ratcliff, Mt. Croghan; J. A. Turner, Pageland; L. S. Horton, Jefferson; T. M. Beatie, McBee; W. P. Pollock, Cheraw; F. H. Gillespie, Patrick.

No money will be required with the application but upon notice from the County Agent farmers who have signed applications must deposit with a local bank, association, or individual, designated by the Secretary of Agriculture to act as the farmers' agent for that purpose, money to cover the cost of the fertilizer except the freight charge. After the money is transmitted to Washington the nitrate will be shipped to the farmers. If applications for the nitrate exceed the supply of about 100,000 tons the government will allot the supply on a pro rata basis among those who applied. Applications must be received by February 4th, 1918.

SQUARE DEAL DRUG CO. HOLDS ANNUAL MEETING

The annual meeting of the stockholders and directors of the Square Deal Drug Co. was held in their office on January 22d. The report of the year's business for 1917 was declared by the stockholders to be very satisfactory.

The following board of directors was elected: A. A. Douglass, Sr., M. S. Watson, W. C. F. Harris, Walter Teal, Sam White.

After the meeting of the stockholders the board of directors met and elected the following officers: M. S. Watson, president; A. A. Douglass, vice-president, and W. C. F. Harris, manager.

Dr. Harris was complimented for his past management of the store and for his painstaking care at the prescription counter.

WHERE TO GET APPLICATION BLANKS FOR 1918 AUTO LICESSES

For the information of automobile owners who desire to take out their license for 1918 the Highway Department states that a supply of application blanks for 1918 have been forwarded to every dealer in the State, and also a supply has been sent to the Clerk of Court of every County. Owners can obtain same by applying to these dealers, or to the Clerks of Court, and thus save considerable time, as in most cases they can obtain the necessary information as to the horse power of their automobile, the motor number, style, the model, and such information required by the Highway Department before the license can be issued. A simple reference to the 1917 license number is not sufficient and an application must be filled out and sent in for each motor vehicle.

As the time is getting very short and no authority is given any one man in the State, or to any group of men, save the Legislature, to extend the time limit it would be wise for all owners of motor vehicles to make application promptly so as to get their license plate at the earliest possible moment.

Up to Saturday night, January 19th, less than half of the licenses issued for 1917 have been taken out for 1918, and though the Highway Department is working over time they will not be able to issue all licenses before February 1st. However, this will be no excuse for automobile owners and under the law they cannot operate their motor vehicles without the 1918 license plate on same, whether they have made application for their license or not.

ELIZABETH MATTER BEFORE ALLIES NOW

"Food is the most important matter now before the allies," David Lubin, American representative in the international institute of agriculture, said today.

"It is useless to deceive ourselves. It is necessary to feed our armies well and in view of the increasing consumption of food and decreasing production we shall be unable to do this unless exceptional weather prevails this spring and unless extraordinary measures are applied. I am reporting to the States department and also to congress that Europe's crops may be worse than last year's, and that the mobilization of men in the United States for farm work may be necessary. We should also consider plans for devoting land in the eleven arid States to grazing purposes so that the United States will be able to supply cattle and replenishment of the diminishing stocks.

"Our allies are dependent upon the United States. Without its help they would reach a condition similar to that in Germany and Austria in which there is merely food enough for the armies, with the civil population dying off."

LUMBER MEN AND ROAD BUILDERS NEEDED

Washington, January 21.—So urgent is the need for lumbermen and roadbuilders for immediate service in France that the War Department has made an exception to its previous ruling, and will now allow experienced men of draft age to enlist under certain conditions.

Any man between eighteen and forty-one years of age, who is qualified physically and by experience, may enlist for this service; but they must obtain permission to do so from Major C. E. Clarke, Chief of Engineers Office, War Department, Washington, D. C., by mail or telegraph. The men required will be sent to France as soon as they are assembled, without being held here for military training.

Tremendous quantities of lumber are required by the American troops in France. A special regiment, known as the 20th Engineers, is being recruited to cut timber in the forests of France and manufacture it into lumber. This regiment will include experienced men of every class required in lumber camp operations.

The 20th Engineers needs immediately 2,000 woodsmen, sawmill men, machinists and others who have worked at lumbering. It also needs 3,000 men who have worked at road building. These men are to construct road from the woods to the mills and from the mills to the distributing depots. In connection with both the lumbering and road-building operations complete crews of men experienced in the great variety of machinery used and in the camp and repair work involved are required.

Please watch the date on your label. It will tell you when your time has expired. For instance, 10 Jan. 18 means Jan 10, 1918. Let us hear from you promptly.

If He Dies His Business Will Die

How often do you hear some such statement about a particular business?

IT MEANS THAT THE MAN, EITHER THROUGH HIS KNOWLEDGE OR EXECUTIVE ABILITY, IS THE TIME BEYOND THE TIME OF THE FIRM. THE EDITORS MIGHT BE INQUISITIVE, OR EVERYONE'S BUSINESS MIGHT BE IN DANGER.

Unless his business is insured in favor of the firm, it is possible that the business will be carried on by his heirs.

It is possible to insure "his" life so that the business will be successfully carried on by his heirs.

PERSHING'S MEN LEAD CLEAN LIVES

Washington, Jan. 22.—There never has been a similar body of men to lead as clean lives as the American soldiers in France, General Pershing said in a cablegram today to Secretary Baker in reply to inquiries as to the truth of reports of immoderate drinking among the men.

General Pershing's message was made public by Mr. Baker in this letter to Governor Capper of Kansas: "You may recall writing to me several days ago concerning persistent reports as to the immoderate sale of liquor among our forces in France. My impression was that these rumors were not well founded in fact; but I felt it my duty to convey their content to General Pershing and to ask him to communicate with me as to the facts. You will be glad to know that I have just received the following words from the commander of the American expeditionary forces: "There has never been a similar body of men to lead as clean lives as our American soldiers in France. They have entered this war with the highest devotion to duty and with no other idea than to perform these duties in the most efficient manner possible. They fully realize their obligation to their own people; their friends and the country.

"A rigid program of inspection is carried out daily with traditional American enthusiasm. They are engaged in interesting exercises in the open air with simple diets, officers and men, like trained athletes, are ready for their task. Forbidden the use of strong drink and protected by stringent regulation against sexual evils and supported by their own moral courage, their good behavior is the subject of most favorable comments, especially by our allies.

"American mothers may rest assured that their sons are a credit to them and to the nation and they may look forward to the proud day when they will be home again."

CHERAW

Special to The Advertiser:

The Rev. Thomas, who is captain of the local home guards, has resigned as rector of St. David's Episcopal Church, and leaves in February for Columbia, where he has accepted the pastorate of the Church of the Good Shepherd. Rev. Thomas will be greatly missed by all the people of the town.

Quite a great deal of interest is being evidenced among the traveling men in the matter of distinguishing between the McFarlan twins, who are clerks at the Hotel Covington. They are more alike than the proverbial black-eyed peas. Mr. Crawley never knows which is tother.

Word has been received from Lieut. Dan Spencer, who is now seeing active service "somewhere in France." From the kodak picture sent by Dan, he seems to have sprouted a misplaced eyebrow, as a partial protection against the German gasses.

All of Cheraw's manufacturing enterprises are following closely the orders by Fuel Chief Garfield.

On account of the fact that farm labor will be unusually scarce it is rumored that the District Exemption Board will furlough a good many of the contingent called to the colors February 15th.

Lieut. L. C. Wannamaker, from Camp Jackson, was at home for the week-end.

C. L. Prince, Esq., who has been in the Baltimore hospital for about six months, has returned to Cheraw almost entirely cured, to the delight of his many friends in the town and county.

Mr. and Mrs. E. D. Crawley have been spending a week in Columbia.

The C. & L. Itney is furnishing convenient accommodations for the traveling public between Cheraw and the L. points.

Mr. Perry, superintendent of the River Power Co., is at home.
