"We again call attention to the removal of the German Medicine store, the principal depot for the sale of Dr. Houfland's German Bitters, from 278 Race to 123 Arch street, one door below Sixth. Owing to the increased demand for this medicine, and for the accommedation of his innersess patients, Dr. Jackson has been compelled to occupy a larger-store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the grantest medicine extant for discases of the Liver and Biwels. A stubborn case of Carroir Diarrhoza has comender our notice, wherein the patient had exhausted the Materia Medicias of size different schools of medicine with and apparent benefit. He was induced to use these bitters. Materia Medicas of the different schools of medicine with no apparent benefit. Despair not though your Physicians and Friends give you up to die!!!

Your condition cannot be more helpless than that of Mrs. Rowe

This is to certify that I was taken with a pain in my side and breast, attended with a distressing cough, and for the space of one year grew rapidly worse. Although I had in attendance three physicians, one of whom was considered very skillful, all of their efforts ploved sinke unavailing. last one of the physicians came ir, and decided that I could not live more than one day longer! All of my friends believed that a few days at most would end my earthly career.

My brother at to is crisis, hearing of the astonishing cures made by Dr. Rodgers' Liverwort and Tar, went to Chillcothe, distant thirty miles, to procure the above medicine; and, strange to tell, before I had used half a bottle my cough was entire y cured, and when I had used two butles I was able to attend to my family vocations as usual. H \RRIET ROWE.

Mr. Merriweather writes as Follows:

I feel constrained from a sense of duty to make the following statement conscious that it may appear unprofessional. Mr. Charles Wade, of t is city, was quite low with Fullmonary Consumption, for which I had been treating with less than usual success. At his request, and that of the friends, I permitted him to try Dr. Rogers's Liverwort and Tar; and I must confess that its effects were really surprising. After using the second bottle my visits were discontinued, and he was soon restored to results. I do concentiously recommend my brother pracvisits were disconfinited, and he was soon restored repealth. I do conscientiously recommend my brother practioners to prescribe this remedy in all pulmonary confinints which baffle the ordinary mode of treatment.
