Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER TTY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; hose who intend practicing among the diseases of he West and South should certainly educate hemselves at a school whose faculty are practicaly acquainted with those diseases.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a UNIT in action which augurs well for its future success; and that he peculiar internal organization which - onnects them, cannot be interrupted.

"Dr. Hoptann's GERMAN BITTERS.—Here is a proparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnaled by one of the most celebrated phyticinus of modern tim s, the late Dr. Christopher Wilhelm Hoofland, Professor to the University of Jena. Private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enengy of humbug. a medicine of which he was the inventor and endorser may be confidently relied on. If a specially recommended it in liver complaint, dyspepsis, debility, vertigo, acidity of the stomach, constipation, and all complaints arising from a disordered condition of the stomach, the liver and the indisordered condition of the stomach, the liver and the in-testines. Nine Philadelphia papers express their convic-tion of its excellence, and several of the editors speak of its effects from their own individual experience. Mr. A. If Cincinnati, Nov. 8th, 1847. HENRY MORSE.

Despair not though your Physicians and Friends give you up to die !!!

Your condition cannot be more helpless than hat of mrs. Rowe.

This is to certify that I was taken with a pain in ny side and breast, attended with a distressing cough, and for the space of one year grew rapidly worse. Although I had in attendance three physicians, one of whom was considered very skillful, all of their efforts proved slike unavailing. At last one of the physicians came in, and decided that I could not live more than one day longer ! All of my friends believed that a few days at most would end my earthly career.

My brother at U is crusis, hearing of the astonish-ing cures made by Dr. Rodgers' Laverwort and Tar, went to Chilhcothe, distant thirty miles, to procure the above medicine ; and, strange to tell, be ore I had used halt a bottle my cough was entirely cured, and when I had used two bottles I was able to attend to my family vocations as usual.
