what has been the. Bult in my or n case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had I cen suffering from Dyspepsia. Every year the symptoms became worse, nor equal I obtain permanent relief from any course of medical treatment whitever. About fourteen year since, in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumaism, which for year after yea, caused me indescribable anguish. Farther: in the winter of 45 and 45, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nerveus system was new theroughly prestriced, and as my Bronchitis became worse, so also did my Dyspepsia and Rhem atic affection—thus evincing that these disorders were connex de with earh other through the medium of the Nervous System. In the whole pharmacopois there escemed to be no 1 medial agent which could reach and recuperate my Nervou. System; every thing that had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very singuish hopes of twoir efficiency.) I determined to try the effect of the application of the GALVANIC BELT AND NEOKLACE, with the MAGNETIC FLUID. This was in June, 1846. The Faculties, for intellectual abilities, mora worth and professional acquirements, will compare fave rable with the most distinguished in our coun try. The medical faculty constitutes an anomaly in this or any other country—all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER CITY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose faculty are practicaly acquainted with those diseases.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a UNIT in action which augurs well for its tuture success; and that the peculiar internal organization which connects thein, cannot be interrupted.

Owing to the increased demand for this medicine, and for the accommodation of his numerous patients, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the greatest medicine extant for diseases of the Liver and Bowels. A simborn case of Chronic Diarrhoga has come under our notice, wherein the patient had exhausted the Materia Medicas of the different schools of medicine with no apparent benefit. "Dr. Hoopfand's German Bitters.—Here is a paparation which the leading presses in the Union appear to be unanimous in recommending, and the teason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern tim s, the late Dr. Christopher Wilbeim Hooffand, Professor to the University of Jena. Private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in liver complaint, dyspepsia, debility, vertigo, acidity of the stomach, constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience.
