

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired weakened or unheartly condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been propounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovery of

Dr. CHRISTIE'S GALVANIC BELT

A Derangement of the Nervous System. Of In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they we ken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful die overy, the exhausted patient and weakened sufferer is restored to former health, strength, electricity and wigor.

elasticity and vigor.

The great peculiarity and exce lence of Dr. Christie's Galvanio Curatives,

consists, in the fact that they arrest and cure disease by our word application, in place of the usual mode of drugging and physicking the patient, till exhau ted Nature sinks hopelessly under the infliction. under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, an never do the slightest injury wader any circumstances. Since their introduction in the United States, only three years slice, more than

including all ages, classes and cor ditions, among which were a large number of ladies, who are peculiarly subject to New ous Complaints, have been ENTIRELY AND PERMANENTLY CURED,

ENTIRELY AND PERMANENTLY CURED, when all hope of relicf had been given up, and every thing else been tried in vain!

To illustrate the use of the GAI VANIC BELT, suppose the case of s, erson afflicted wit that bane uf civilization, DYSEPSIA, or sny other Chroni or Nervous Disorder. Is ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stom ch, afford temperary relise, but which leave the patient in a lower state, and with injured faculties, after the action thus exc ted has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fix d as directed. In a short period the insensible perspiration will not on the positive element of the Belt, thereby cau ing a Galvanic circulation which will pass on to the negative and thence back again to the positive, thus keeping up a centinuous Galvanic circulation throughout the system. Thus, the most severe cases of DYSPEPSIA are PERMANENTL. CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

what has been the . Bult in my ov n case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had I cen suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. About fourteen year since, in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after yes, caused me indescribable anguish. Farther: in the winter of 45 and 46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervent system was now thoroughly prostrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheur stic affection—thus evincing that these disorders were connet ed with each other through the medium of the Nervous System. In the whole pharmacopoia there seemed to be no remedial agent which could reach and recuperate my Nervou. System: every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the applicatio of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To My GREAT AND OBJECT LABORS, NOR HAR I SINCE OMITED A SINGLE SERVICE ON ACCOUNT CHE BEAND TO THOUGHE ME.

MEMPHIS, Tenn., March 1850. The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare fave rable with the most distinguished in our coun try. The medical faculty constitutes an anomaly in this or any other country-all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER CITY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose faculty are practically acquainted with those diseases.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a UNIT in action which augurs well for its tuture success; and that the peculiar internal organization which connects them, cannot be interrupted. E. W. M. KING.

During the last summer, a son of Mr. Abraham Brabill, of this country, was very seriously afflicted with Liver Complaint, and after trying in van various remedies, he purchased a bottle of the Bitters and after using it, was so much relieved of his distressing malady that he procured another bottle, and is restored entirely to health.

"We again call attention to the removal of the German Medicine store, the principal depot for the sale of Dr. Hoof-land's German Bitters, from 278 Race to 120 Arch street, one door below Sixth. Owing to the increased demand for this medicine, and for the accommodation of his numer-ous patients, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the greatest medicine extant for diseases of the Liver and Bowels. A stubborn case of Chronic Diarrhoga has come under our notice, wherein the patient had exhausted the Materia Medicas of the different schools of medicine with and a few bottles of them have entirely cured him: Many neh cases we could refer to. We hope our readers will recollect this great restorative, should they be so unfortu-nate as to require its use. Dr. Jackson possesses the orig-inal unpublished receipt of Dr. Hoofland, and he prepares this medicine with this care. DR. HOOFLAND'S GERMAN BITTERS. "It is seldom that we recommend what are termed Pat-ent Medicines to the confidence and patronage : four readers, and therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrains of the day, that are noised about for a brief period and then forenten after they have done their guilty race of mischief, but of a medicine long eltaclished, universally paged, and which has met
