A NEW PAPER, For the Fireside, the Parlor, and the Leisure Moment.

TO BE PUBLISHED In Columbia, S. C., on the first of November next S. A. GODMAN,

Late Editor of the Laurensville, S. C. "Herald," Author of "The Slaver," "For and Adt," "The Ocean Born," &c., &c.

NOT from the lack of Newspapers in the Paletto-State, nor from their want of ability-for we feel proud to know that the Press of South Carolina will compare favorably with that of any State in the Union—are we induced to anticipate the success of the ILLUSTRATED FAMILY FRIEND.

But, whilst cheerfully acknowledging the mark-ed and unmistakeable talent displayed in the management of our cotemporaries, and cordially wishing them a full support and generous patronage, we yet think there is an ample field, now unoccupied, for the growth and expansion of the paper which it will be our endeavor to make, not only nominally the Family Friend, but really and amerely the Friend—leal, loyal and true—of every family in the State. ery family in the State.

The fierce and fiery discussion of party politics, the useful, but dry records of commerce and traffic, as leading features, we will leave for the pens now so active and eloquent in their service; and hilst we will give to both subjects, as much space as will be desirable to the general reader, our greatest object and principal aim will be, the evolvement, elucidation and exaltation, of the Pure, the Beautiful, the Useful and Instructive, in the paths of Morality, Virtue, Literature, Science,

Art and Agriculture.

The Ideal being more easily comprehended and more captivating, when combined in some degree with the Material—we will bring the Artist's skillful hand into requisition to illustrate the mind's conceptions, and to render the Family Friend as nearly perfect as it is possible to make a physical means adapted to a mental end. In every number, therefore, we will give, in addition to a large Art and Agriculture. ount of original reading matter from the pens of WRITERS OF ACKNOWLEDGED POW. ER AND GENIUS,

To stimulate the young to renewed exertions the pursuit of knowledge, fame and fortune—I to encourage those who have already entered on the actualities of life, to persevere and be sadast in their strivings onward and apward wards the goal of their hopes, has in all ages and all countries, been considered an object worthy the noblest ambition. To effect ende so desible, what means can be imagined more likely prove efficacious, than would familiarity with a painful struggles undergone, the privations the, the difficulties overcome, by men now living, who have distinguished themselves, either as cholars, Statesmen, Politicians, Arrists, Physicas, Divines, Authors, Artists, Merchants, Membles, Military men, or Agriculturists. Consecutly, as a new, and we think very valuable ature, we will give

MEMPHIS, Tenn., March 1850. The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare fave rable with the most distinguished in our coun try. The medical faculty constitutes an anomaly in this or any other country—all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER

CITY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose faculty are practically acquainted with those diseases.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a unit in action which angurs well for its inture success; and that the peculiar internal organization which connects them, cannot be interrupted.

Chas. Robinson, Esq., Easton, Md., in a letter to Dr. Iackson, Jan. 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"The Tenth Legion," published at Woodstock, Va., Jan. 10, 1850, said—

"A GREAT MEDICINE."

READ FURTHER A FEW FACTS.

The "Philadelphia Democrat," the feading German journal of Philadelphia. The editor said, Nov 24th—
"We sgaint cell attention to the removal of the German Medicine store, the principal depot for the sale of Dr. Hooland's German Bitters, from 278 Race to 120 Arch street, one door below Sixth. Owing to the increased demand for this raedicine, and for the accommodation of his numerous patients, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the greatest medicine extant for diseases of the Liver and Bowels. A stubborn case of Chronic Disrrheas has come under our notice, wherein the patient had exhausted the Matteria Medicas of the different schools of medicine with no apparent benefit. He was induced to use these bitten, and a few bottles of them have entirely cured him: Many uch cases we could rafter to. We hope our readers will recollect this great restoration, should they be so unfortunate as to require its use. Dr. Jackson possesses the original empultilated receipt of Dr. Hooland, and he prepares this medicine with this care. Those purchasing should call at his store, or see that his name is written upon the wrapper outside, and blown in the battle, as imitations of all good articles are common."

Judge M. M. Nosh, a gentleman with great scientific and literary againments, said in his "New York Weekly Measenger, Jan. 8, 1850,

"Da. HoorLand's German Bitters."

Judge M. M. Noah, a geotieman with great such as Judge M. M. Noah, a geotieman with great such as literary againments, said in his "New York Weekly Measonger, Jan. 6, 1850," "Dr. Hoortann's Gerstan Birtrea.—Here is a preparati." which he leading presses in the Union appear to be man? down in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern time, the late Dr. Christopher Wilhelm Hoofland, Professor to the University of Jens, Private Physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in liver complaint, dyspopsia, dshility, vertigo, actility of the stomach, constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances we leed warranted us only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

The "Philadelphia Saturday Gazette," the best family owspaper published in the United States, the editoranys of DR. HOOPLAND'S GERMAN BITTERS.

DE. HOOPLAND'S GERMAN SITTERS.

"It is seldon that we recommend what are termed Patent Medicines to the confidence and patronage of our readers, and therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostroms of the day, that are not speaking of the nostroms of the day, that are noted about for a brief period and them forgotten after they have done their guilty race of mischief, but of a modicine long almelished, universally prized, and which has met the hearty approval of the Faculty itself."

Evidence upon ardience has been received (lika the foregoing) from all sections of the Union, the last three years, and the atminument assimony in its favor, is, that there is more of it mop in the particle of the regular Physicians of Philadelphia than all other restrume combined, a fact that can easily be established, and fully proving that a scientific preparation will use liver complaint and dyspeptia, no one can doubt, after using it as directed. It acts specifically upon the someth and liver—it is preferable to calonel in all billous diseases—the effect is immediate,—They can be administered to female or infant with safety and reliable benefit, at any time.
