NOT from the lack of Newspapers in the Palmetto-State, nor from their want of ability-for we feel proud to know that the Press of South Carolina will compare favorably with that of any State in the Union-are we induced to anticipate the success of the ILLUSTRATED FAMILY FRIEND.

But, whilst cheerfully acknowledging the mark-ed and unmistakeable talent displayed in the management of our cotemporaries, and cordially washing them a full support and generous patron age, we yet think there is an ample field, now unoccupied, for the growth and expansion of the paper which it will be our endeavor to make, not only nominally the Family Friend, but really and sincerely the Friend-leal, loyal an true -of every family in the State.

The tierce and tiery discussion of party politics, the useful, but dry records of commerce and traffic, as leading features, we will leave for the pens now so active and eloquent in their service ; and whilst we will give to both subjects, as much at the Commercial Hotel. spice as will be desirable to the general reader, our greatest object and principal aim will be, the evolvement, elucidation and exaltation, of the Pure, the Beautiful, the Useful and Instructive, in the paths of Morality, Virtue, Literature, Science, Art and Agriculture.

The Ideal being more easily comprehended and more captivating, when combined in some degree with the Material-we will bring the Artist's skillful hand into requisition to illustrate the mind's conceptions, and to render the Family Friend as nearly perfect as it is possible to make a physical means adapted to a mental end. In every number, therefore, we will give, in addition to a large amount of original reading matter from the pens of

The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare fave rable with the most distinguished in our coun try. The medical faculty constitutes an anomaly in this or any other country-all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER CITY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose faculty are practically acquainted with those diseases.

That the public may be satisfied of the permaency of this school, we feel it our duty to state, that the Trustees and Faculty form a UNIT in action which augurs well for its future success; and that the peculiar internal organization which connects

Their power over the above diseases is not excelled, in equalical, by any other preparation in the United States as the cures attest, in many cases after skilful phycicans, had failed. These Bitters are worthy the attention of invalids. Pos-

"A GREAT MEDICINE "

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, inless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, inven-ted by Dr. Hoodand, and prepared by Dr. Jackson, in Phil-adelphia. One instance in particular, in which the supe-rior virtues of this medicine have been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Brabill, of this country, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters and after nsing it, was so much relieved of his distressing mal-ady that he procured another bottle, and is restored entire-ly to health. consider worthy of notice is the German Bitters, inven

The editor said, Nov 24th— "We again call attention to the removal of the German Medicine store, the principal depot for the sale of Dr Hoof-land's German Silters, from 278 Rose to 120 Arch street, one door below Sixth. Owing to the increased demand for this medicine, and for the accommodition of his numer-ous patients, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; he is deserving of it. The Sitters Mixture is without doubt the gratest medicine catant for diseases of the Liver and the gradest medicine extant for diseases of the Liver and Bowels. A stubborn case of Chronic Diarthica has come under our notice, wherein the patient bad exhausted the Materia Medicas of the different schools of medicine with Materia Medicas of the different schools of medicine with no apparent benefit. He was induced to use these bitters, and a few bottles of them have entirely cured him: Many uch cases we could refer to. We hope our readers wil-recollect this great restorative, should they be so unfortu-nate as to require its use.
