In Columbia, S. C., on the first of November next, S. A. GODMAN,

Late Editor of the Laurensville, S. C. "Herald," Author of "The Slaver," "For'ard and Aft," "The Ocean Born," &c., &c. NOT from the lack of Newspapers in the Pal-

metto-State, nor from their want of ability-for we feel proud to know that the Press of South Carolina will compare favorably with that of any State in the Union-are we induced to anticipate the success of the ILLUSTRATED FAMILY FRIEND.

But, whilst cheerfully acknowledging the mark-ed and unmistakeable talent displayed in the management of our cotemporaries, and cordially wishing them a full support and generous patronage, we yet think there is an ample field, now unoccupied, for the growth and expansion of the paper which it will be our endeavor to make, not only nominally the Family Friend, but really and sincerely the Friend-leal, loyal an i true-of ev-

ery family in the State.

The fierce and fiery discussion of party politics, the useful, but dry records of commerce and traffic, as leading features, we will leave for the pens now so active and eloquent in their service; and whilst we will give to both subjects, as much space as will be desirable to the general reader, our greatest object and principal aim will be, the evolvement, elucidation and exaltation, of the Pure, the Beautiful, the Useful and Instructive, in the paths of Morality, Virtue, Literature, Science, Art and Agriculture.

The Ideal being more easily comprehended and more captivating, when combined in some degree with the Material—we will bring the Artist's skillful hand into requisition to illustrate the mind's conceptions, and to render the Family Friend as nearly perfect as it is possible to make a physical means adapted to a mental end. In every number, therefore, we will give, in addition to a large amount of original reading matter from the pens of WRITERS OF ACKNOWLEDGED POW.

ER AND GENIUS, FOUR HANDSOME, PERTINENT, AND ELEGANTLY EXECUTED EN-

GRAVINGS.

To effect ends so desirable, what means can be imagined more likely to prove efficacious, than would familiarity with the painful struggles undergone, the privations borne, the difficulties overcome, by men now liv ing, who have distinguished themselves, either as Scholars, Statesmen, Politicians, Jurists, Physicians, Divines, Authors, Artists, Merchants, Mechanics, Military men, or Agriculturists. Consectants quently, as a new, and we think very valuable feature, we will give

IN EVERY ISSUE. A CORRECT LIKENESS OF SOME PRO-MINENT SOUTH CAROLINIAN,

WITH AN AUTHENTIC BIOGRAPHICAL SKETCH. These are brief, very brief hints, at the intentions and purposes of the ILLUSTRATED FAMILY PRIEND—the narrow limits of a Prospectus will not permit us to make them more full; but scant as they are, we trust they are ample enough, to conceive every candid and intelligent person, that though we intend not to boast, we design puplishing a paper that will be worthy a liberal support.

worth and professional acquirements, will compare favorable with the most distinguished in our coun try. The medical faculty constitutes an anomaly in this or any other country-all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER CITY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose faculty are practically acquainted with those diseases.

That the public may be satisfied of the perma nency of this school, we feel it our duty to state, that the Trustees and Faculty form a UNIT in action which augurs well for its tuture success; and that the peculiar internal organization which connects them, cannot be interrupted.

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoosland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine have been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Brabill, of this country, was very seriously afflicted with biver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters and after using it, was so much relieved of his distressing malady that he procured another bottle, and is restored entirely to health. ly to health.

The "Philadelphia Democrat," the leading German jour The "Philadelphia Democrat," the leading German jour-nal of Philadelphia. The editor said, Nov 24th—

"We again call attention to the removal of the German Medicine store, the principal depot for the sale of Dr. Hoof-land's German Bitters, from 278 Race to 120 Arch street, one door below Sixth. Owing to the increased demand for this medicine, and for the accommodation of his numerous patients, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; ous patients, Dr. Jackson has need competite to occupy, a larger store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the graatest medicine extant for diseases of the Liver and Bowels. A stubborn case of Chronic Diarrhoza has come under our notice, wherein the patient had exhausted the Materia Medicas of the different schools of medicine with Materia Medicas of the different schools of medicine with no apparent benefit. He was induced to use these bitters, and a few bottles of them have entirely cured him: Many uch cases we could refer to. We hope our readers will recollect this great restorative, should they be so unfortunate as to require its use. Those purchasing should call at his store, or see that his name is written upon the wrapper outside, and blown in the bottle, as imitations of all good articles are common."

Judge M. M. Noah, a geutleman with great scientific and literary attainments, said in his "New York Weekly Messenger, Jan. 6. 1850,

"Dr. Hoofland's German Bitters.—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern tim s, the late Dr. Christopher Wilhelm Hoofland, Professor to the University of Jena, Private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in liver complaint, dyspepsia, debility, vertigo, acidity of the stomach, constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances we feel warranted not only in calling its effects from their own individual experience. Under these circumstances we feel warranted not only in calling the attention of our readers to the present proprietor's (Dr. C. M, Jackson's) preparation, but in recommending the article to all afflicted."

MORE EVIDENCE. The "Philadelphia Saturday Gazette," the best family newspaper published in the United States, the editor says of

DR. HOOFLAND'S GERMAN BITTERS. DR. HOOFLAND'S GERMAN BITTERS.

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage (four readers, and therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostroms of the day, that are notised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine than the proposition of the day of of

ong eltaclished, universally prized, and which has met he hearty approval of the Faculty itself.'

Evidence upon evidence has been received (like the oregoing) from all sections of the Union, the last three foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it usep in the practice of the regular Physicians of Philadsiphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure liver complaint and dyspepta, no one can donbt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—ihe effect is immediate.—They can be administered to female or infant with safety and reliable benefit, at any time
