

4th. The refusal of Congress to admit a new State into the Union, on the ground of her tolerating slavery within her limits.

5th. The passage of any law by Congress prohibiting slavery in any of the territories.

6th. The repeal of the fugitive slave law and the neglect or refusal by the General Government to enforce the Constitutional provisions for the reclamation of the fugitive slaves.

Resolved, further, 7th. That, in the opinion of this Convention, the people in the recent elections have been governed by an abiding confidence that the said adjustment measures of Congress would be enforced in good faith in every section of the land.

Resolved, further, 8th. That, as the people of the State of Mississippi, in the opinion of this Convention, desire all further agitation of the slavery question to cease, and have acted upon and decided all the foregoing questions, thereby making it the duty of this Convention to pass no acts within the purview and spirit of the law under which it was called, this Convention deems it unnecessary to refer to the people for their consideration, approval or disapproval at the ballot box, its action in the premises.

Resolved further, 9th. The Convention having declared in the foregoing resolutions, the position which the people of Mississippi have taken, and which, in the opinion of the Convention, they will continue to occupy, on the great subjects embraced in the resolutions, deems it a duty alike incumbent on us equally important to the rights of the people to declare that, in our deliberate judgment and in their deliberate judgment, as we believe, the call of this Convention by the legislature at its late extraordinary session by the act of the 30th of November, 1850, was unauthorized and unnecessary, and that said act, in peremptorily ordering a Convention of the people of the State to be held, without submitting to them to be settled by the popular vote of the State, the question whether there should be a Convention or no Convention, was an unwarranted assumption of power by the legislature; at war with the spirit of republican institutions, and an encroachment on the sovereign power of the people.

Accident on the Rail Road.—We learn that the freight train that left here on Tuesday last on their way up, left the main track at the turn out just above Aiken, for the purpose of allowing the passenger train to pass down. While the latter was at Aiken waiting for the passengers who were at breakfast, the former again took position on the main track, and from some cause or other backed on the down train, by which collision several of the cars attached to the down train were very much broken, but we are pleased to learn that none of the passengers sustained any injury.—Char. Cour. of Thursday.

The total immigration into the United States for the last five years, less two months, reaches one million fifty-eight thousand nine hundred and eighty three souls. The total number for the five years previous was three hundred and eighty thousand four hundred and forty-three. A wonderful increase indeed.

The total population of Louisiana is 511,974, or whom 272,953 are free or free, and 239,021 are slaves. The Federal representative population is 416,365.

A new and bright Comet was discovered on the 22d of October, at the observatory of Baron Senftenberg, in Bavaria, by Mr. Brorsen. It is stated to have a brilliant nucleus and a conspicuous double tail, one branch being turned towards the sun, which is a rather unusual direction.

The Nicaragua route to and from San Francisco seems already to have got out of favor with the travelling public, as we perceive that the passengers by the route, who recently arrived at New-York in the Daniel Webster, complain greatly of the deceptions practised upon them and the inconveniences which they experienced, being forty-three, instead of twenty five days, on the passage. The inconveniences, however, as the Philadelphia Public Ledger justly observes, are doubtless such as have to be encountered in every new undertaking, especially before the business is properly systematized.—Char. Cou.

In New-York on Friday, a curious case came up before the Judge in Common Pleas Chambers. It appears that a Mr. Towsley was in the habit of going to the New-York Exchange Bank and demanding change of certain notes, which they were bound to redeem at a quarter per cent discount, and insisted on handing in his notes dollar by dollar, to the great annoyance of the tellers, who were nonplussed to find a coin small enough to deduct the legal proportion on each dollar bill. The party persisted in this perplexing exchange for several days, until at last he was apprehended on a warrant issued by Justice Osborn, on a complaint that his conduct tended to a breach of the peace. After a full hearing of the case, Judge Daly granted the discharge of Mr. Towsley.—Ib.

In an article on the present state and progress of Telegraphs in the United States and Canada, the New-York Herald estimates the lengths of lines built and in operation in those countries, to be at from 12,000 to 15,000 miles. The most distant points in communication are Halifax, N. S., and Quebec with New-Orleans, near 3,000 miles intervening between them, following the circuitous routes of the wires. The towns and villages which are accommodated with telegraph stations amount to between 450 and 500, and as there are two or three lines, under different companies, between New York and other principal cities, many of the towns have two or three separate telegraph offices.

Teachers Wanted.

THE CAMDEN SCHOOL ASSOCIATION, being about to open a Male School in Camden, will elect on the 15th December next, a Principal to take charge of their School. He must be qualified to prepare pupils for the Junior Class in the South Carolina College. If a sufficient number of scholars offer he will be required to have an Assistant in the English department, to be approved by the Association. They have recently built a comfortable School House, consisting of two rooms with fire places; and furnished with desks and chairs of the most approved style, sufficient to accommodate forty-eight scholars; this will be given (rent free) to such Teacher or Teachers as the association may elect. We confidently expect that the income of this School will not be less than Eighteen hundred dollars. The exercises of the School will commence on the 1st Monday in January next. Application may be made to, and any other information obtained, from either of the undersigned.
