Valuable Florida Lands.

THE subscriber offers for sale his Plantation in Ma-rion County, Florida. The Tract contains sixteen hundred acres-nine hundred of which is hammock land, and the remainder pine, oak and hickory. There are four hundred acres cleared and under good fence, two hundred and fifty of which is prime hammock land. There are on the premises a good Dwelling House, and a sugar house, capable of containing a crop of two hundred hogsheads of sugar-a sugar mill and boiler complete, with negro houses, corn cribs, and all necessary outbuildings. The Land is situated two miles South of Orange Lake, and seventeen miles from the Ocklaof Orange Tailet, which furnishes a good navigation to the naha River, which furnishes a good navigation to the St. John. Besides these advantages, there will be 3000 bushels of Corn, which would be disposed of reasonably to a person purchasing the place.

Large crops of sugar and cotton, both Sea Island and Upland, have been realised from these Lands. The opportunity of purchasing so desirable and valuable a plantation, is rarely offered.

For Terms, &c. address the subscriber at St. Augustine, East Florida, until the 20th October; and af-

ter that period at Flemington, East Florida. JOHN H. MASON. Oct 4. 80 w8t Oct. 4.

Florida Lands for Sale.

THE following valuable Tracts of LAND, lying in Marion and Alachma counties, will be offered at private sale during the months of October, November and December, next, viz "WETUMPKA HAMMOCK," situated about ten miles North of Ocala, (the County Seat of Marion County.) containing 3,000 acres, about one half of which is hammock, unsurpassed by any in the State, and the remainder White Oak and Hickory land.

A TRACT, well known as the "Fort Drane" Planacres of Land, principally first tation, containing 3. en four and five hundred quality hamme hly cleared and at present for several years averaged be acre, and every year that roduced fine crops of Corn could readily be divided inacres of which in cultivatio two hogshe Itivated I and Cotton. These tra to two or three plantati each being surrounded by

high rolling pine land. A TRACT of 1,000 acres on Orange Lake, consisting of hummock, orange grove and well-timbered pine land

TWO TRACTS of 1,000 each, near the Alchua Prairie. The greater part of these tracts is rich hammock.

Also, 5,000 acres on Indian river. Any one wishing to cultivate Sugar Cane would do well to examine this land, as, being remarkably fertile, and lying south of the region of frost, it is as well adapted to that culture

Picolata. There are many small hammocks and orange groves on this tract, but it is principally valuable for its pine timber. It has a river front of 7 or 8 miles. 1,000 acres on Lake George, and several small tracts Cow Hides, Sheep, Deer, Otter and Land near the St. John's river, well situated for farming, the rearing of orange groves, &c. The above tracts of Land were purchased by the late Gen. Clinch immediately after the accession of Florida to the United States. From his position at that time, his facilities for selection were unusually great, and it is believed they include as good land as can be found in the State. On account of their accessibility from Charleston and Savannah, they offer great inducements to planters in Carolina and Georgia wishing to remove. The titles are clear and indisputable.

From the " Bo The editor said, Dec. 22nd

The editor said, Dec. 22nd Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspepsia Chronic or Ner-vons Debility, is deservedly one of the most popular medi-eines of the day. These Bitters have been used by thou-rands, and a friend at our elbow says he has himself re-ceived an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in inste and smell, and can be used by persons with the most delicate stomachs with safety, un-der any circumstances. We are speaking from experience and to the afflicted we advise their use. "SCOTT'S WEEKLY," one of the best Literary papers published, said, Aug. 25— "Dr. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most

Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in coses of female weakness. Assuch is the case, we would advise all mothers to obtain a bottle, and thus we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health as we know from experience the salutary effect upon weak systems." MORE EVIDENCE. The Hon, C. D. of the liver and digestive organs, and the powerful influ-ence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing. • If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and and impringer diseases emanate. Have them in a head liver, and nervous system the great majority of real and and imaginary diseases emanate. Have then in a heal-thy condition, and you can bid defiance to epidemics gen-erally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit." Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three rears, and the strongest testimony in its favor, is that there is more of it used in the practice of the regular Phys-cians of Philadelphia, than all other nostrums comb-in fact that can easily be established, and fully primed-that a scientific preparation will meet wilh their quoving proval when present d even in this form. PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice--the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines.
