

Bill Offered To Aid Dependents

Wives, Children, Parents and Others Provided for In Senate Measure.

Washington, April 20.—Legislation sponsored by the war department to provide for dependents of enlisted men in the army and navy was introduced in congress today, calling for payments by the men themselves and by the government.

The measure would provide \$40 a month for a wife and \$10 additional for each child; \$35 for one parent, or \$45 for two.

Dependents are divided into two classes, A and B. In class A are wives and children; in class B are parents, grandchildren, brothers and sisters of the men in service.

The men would be required to contribute from their pay \$20 a month if they have dependents in one class and \$35 if they have dependents in both classes if they desired to take advantage of the legislation.

In addition to these payments, the dependents would receive allowances

from the government on this monthly scale: wife \$20, with \$10 additional for each child; one child and no wife \$15, with \$10 more for each additional child; divorced wife who has been awarded alimony \$20, one parent \$15, two parents \$25, each grandchild, brother and sister \$5.

Additional payments by the federal security administration would be authorized in any case where it was found that these allowances were insufficient for actual living expenses.

The bill would affect all enlisted men in the army from the lowest grade of private up to and including the lowest grade of sergeant and men of equivalent rank in the navy and marines.

Other legislation broadening the law preventing foreclosure of mortgages on homes of selectees was introduced by Chairman George, of Georgia, of the senate finance committee.

Under the bill, draftees called into service after October 17, 1940, who incurred obligations on their homes after that date but before their induction, would be protected from foreclosures. The present law, said George, affords protection only to men who had incurred the obligations prior to October 17, 1940.
