To Call Men Of February Group

Washington, May 2.—Army service will start next month for some of the men who enrolled in the registration of February 16.

State draft directors received instructions from Major General Lewis B. Hershey national director, today to include men of the 20-21 and 36-44 age groups in the June calls. He said the request came from the war department.

The local boards were directed to draw for new selectees on the February 16 group and earlier registrations in accordance with the number of class 1-A men in each.

"If the first age group (men registered in October and July 1941) has been exhausted, the call should be made only upon the second age groups (Feb. 16, 1942, registrants), Hershey's instructions said.
