

X-RAY CLINIC AT JOANNA MILLS SET FOR JULY 27-28

Plans for an intensive educational campaign and x-ray clinic for employees and residents of the Joanna Textile Mills community have been worked out by local groups in co-operation with Mrs. R. C. Bolen, tuberculosis nurse of the Laurens County Tuberculosis association.

The clinic will be held July 27 and 28 in the workshop of the Joanna Mills. Monday, July 27, between 10 a.m. and 11 p.m. will be for employees. Tuesday, between 2 and 6 p.m. for residents of the community.

The expense for x-raying employees will be borne by the Joanna Mills. Those who are not employed by the mill will be charged 90c for the examination.

Miss Blanche Durgin, general chairman of the educational campaign in the community, will be assisted by W. W. Niver, who will be in charge of posters to be placed in the mills. A. B. Galloway's scout troop will place posters in local stores and buildings. They will also assist in helping with the clinic.

The rapid paper film method which utilizes rolls of x-ray film, each capable of making 100 full size 14x17-inch chest x-rays in 50 to 60 minutes, will be used.

Dr. E. C. Hood, superintendent of the Florence-Darlington sanitarium, will read the films, and letters will be sent out informing those with negative findings and referring others to their family physician.

W. A. Moorhead, general manager of Joanna Textile Mills, and P. B. Mitchell, superintendent, are helping to work out plans for the campaign.

Dr. Dossey McFadden and Miss Margaret Warren, resident nurse, will assist with the clinic.

SAY, "I SAW IT IN THE CHRONICLE." THANK YOU.

The seven tiny flags of the Rising Sun of Japan represent the total Jap planes sent plummeting earthward by Lieut. E. Scott McCuskey (in plane). Ensign George Henry Gay is the official score keeper for Lieutenant McCuskey, and is shown at the left. With pilots like McCuskey the U. S. is showing the Japs who controls the air, and in recent battles with the Nipponese, American airmen were far superior.

Such a big operation here obviously carried the implication of a new threat to the capital. The Germans had been clinging to the Rzhev sector since being hurled back from Kalinin, on the north, last winter.

One Russian dispatch reported that the Germans "have superior tank forces" in the sector southwest of Rzhev and this, it was indicated, meant that another big Nazi push was about to begin.

APO No. 957

25 June 1942

To: All personnel 34th Infantry.

1. I derive considerable pleasure in receiving, and passing on to the personnel of the 34th Infantry, this official acknowledgment of work well done by officers and enlisted men of this regiment.

2. The standard of performance demonstrated by the two groups is, in my opinion, indicative of the standard which can be expected from any unit of this regiment.

CEILING PRICES PUT ON NUMBER TEXTILE GOODS

Washington, July 15.—The Office of Price Administration fixed specific ceiling prices, in terms of dollars and cents, upon more than 1,700 individual cotton products today. The ceilings were mostly at manufacturing levels.

Covered by the new ceilings are various types of terry cloth towels, washcloths, bathmats and toweling; blankets made of cotton, cotton and 5 per cent wool, and of mixed cotton, wool and rayon; corduroy fabrics, ripcords, cottonades and other miscellaneous items.

The most important groups covered are the terry products, with prices named for 1,280 types, styles and sizes.

The new price order is effective at once, except with respect to blankets, blanketing and blanket-robe cloth. For the latter items, the new ceilings were declared effective as of last May 4.

Previously prices for these products were calculated under a general formula which permitted each seller to use his own average price in effect in the period July 21-August 15, 1941, plus 5 cents per pound of cotton content. The percentage adjustment was intended to cover the rise in the price of cotton between last summer and March of this year.

THEY ALSO SERVE

Telephone offices now proudly display service flags—as a patriotic tribute to those in the armed forces of the Nation.

Although the star figures in the center field of white show the number of Southern Bell men now in the armed services, the flag might also symbolize all Southern Bell employees—for all are wholeheartedly serving their country in this great world crisis.

The telephone, fittingly termed the nerve center of the Nation, is even more vitally important in war than in peace. Thus, the telephone men and women at home whose lives are devoted to its dependable and efficient function are definitely—in the war. All stand ready for emergency calls at any hour of any day—operators, line-men, construction men, repair men—everybody.

In or out of uniform, telephone folks are doing their war work—for they all serve, and the spirit of service was never more in evidence than it is today.
