We Are All Working Together With One Aim

Although many of our employees have gone, we are still working together—working on the biggest order we've ever had—to help win this war.

Our boys listed above have gone to take up the fight on the field of battle, and we are proud of them. Their co-workers

who remain at their jobs here in our plants are devoting their time and skill to the production of goods to help win the war.

Yes, we're still working together—working to help fill the order for Victory, and we will!

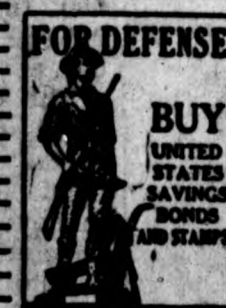

One Hundred and Sixty Six Years of Freedom

WE AMERICANS consider it a privilege—not a sacrifice—to defend the land we love . . . to pay more taxes . . . to buy more bonds . . . to do without sugar and tires and hairpins so that our soldiers will never have to do without planes, tanks and guns. In this spirit, we face the job ahead . . . with the firm resolve that nothing shall stand in the way of a complete Victory . . . that each one of us shall work longer and harder . . . that we shall build for a better world . . . and "that government by the people shall not perish from the earth."
