Blue Hose Win Over Wofford, 45-7

Presbyterian's Blue Stockings swarmed over a plucky but, outclassed Wofford football team in Sumter Friday and won 45-7 before a crowd of 2,500 at the county fair.

During most of the game the Blue Hosemen kept the ball in the air, with Wofford seemingly unable to break up Roddy Martin's rifle passes.

Th win virtually assured Lonnie McMillian's squad the little three championship.

NEWSPAPERS LAUDED IN SCRAP CAMPAIGN

Donald Nelson Says Unprecedented Job Has Been Done By Nation's Journals.

Washington, Oct. 16.—Donald M. Nelson told the nation's newspapers today they had done a magnificent and unprecedented job in carrying on the nation-wide household scrap salvage campaign during the past several weeks.

Addressing a group of publishers and executives who have served as members of the newspaper's united scrap drive committee, the war production board chairman said:

"The job that the newspapers have done is absolutely unprecedented in this country. It has been magnificent. The results surpassed the fondest hope that I entertained when I asked the publishers to come in a few weeks ago and discuss the problem of our materials shortage and how the newspapers could help."

With that statement Nelson urged the newspapers to turn increasing at-

tention to the problems of industrial scrap salvage.

Richard W. Slocum, general manager of the Philadelphia Evening Bulletin and committee chairman, and other publishers and executives, told Nelson they felt certain that newspapers throughout the country would accept the new challenge and gladly work to stimulate the flow of industrial scrap into war channels.

The committee, Slocum told Nelson, will discuss the problem at once and, together with newspapers in all parts of the country, work out plans as rapidly as possible. In addition to giving increased attention to industrial salvage, in which the tonnages involved are great, Slocum said the newspapers would continue their interest in household salvage and all other phases of the scrap effort.

The newspapers' "wonderful job," Nelson said, had resulted in increasing the flow of scrap to steel furnaces that must be kept going.
