FARMERS GIVEN FIRST CALL ON SHOTGUN SHELLS

Columbia, August 15.—Whatever South Carolina's shot gun shell quota it will be shared by some 80,000 hunters after farmers have had first call to rid their fields of such crop pests as crows and hawks.

Last year the state issued 85,932 hunting licenses and the state game warden's office was prepared for an equal sale this year as the first hunting season date, that for deer, came today.

The War Production board has yet to announce this state's share in the 100,000,000 shells authorized for manufacturers, but if South Carolina's quota follows the manufacturer's output, it will be one-sixth of peace time years.

No rationing plans have been announced and retailers believe sales limitations will be left up to them. Farmers will be able to obtain shells up to one box at a time by signing a statement with each purchase that the shells are to be used for killing crop pests, the state agricultural war board said it had been told.

The state's hunting season runs to March 1. The season on squirrel, opossum and raccoon opens September 1; on ducks November 2, and on doves November 20. Exceptions, for shorter seasons are made in several counties.

HOW TO PRONOUNCE NAMES IN THE NEWS

QUEBEC, capital of Quebec province. The name is probably an Indian word meaning "a sudden narrowing," in reference to the narrowing of the St. Charles at the city. The English pronunciation is: kwee-BEK. French Canadians call it: kay-BEK.

HOTEL FRONTENAC, famous hotel of Quebec, built in the style of a French feudal chateau (shah-TOE). It was named for Louis de Buade, Comte de Frontenac, French governor of Canada in the 17th century.

The English pronunciation of Frontenac is: FRON-tee-nak. In the French pronunciation the "n" is nasalized, and the accent shifts to the last syllable, thus: fraw(n)-tuh-NAK.

KIEV, Ukrainian city on the Dnieper. Say: KEE-yeff.

JUNKER, a type of German aircraft. Pronounce the "J" as "Y." The "u" has the sound of "oo" as foot, book. Say: YOONG-ker.

KURIL (also spelled Kurile), name of a Japanese island group south of Kamchatka. The name is derived from the Russian word "kuiri," meaning "to smoke," because of the active volcanoes on the

island. First choice: KOO-ril. See second choice: kee-REEL. The Japanese name is Chishima, pronounced: CHEE-shee-mah.

PARAMUSHIRU (other spellings: Paramoshiri, Paramosheer, Paramushir, Paramushiro), Japanese naval base, one of the northernmost of the Kuriles. Say: FAH-rah-moo-SHEE-roo.

BALIKPAPAN, large Jap base on Borneo, recent target of McArthur's long-range bombers. Say: BAH-leek-PAH-pahn.

WIENERNEUSTADT, Austrian town home of a Messerschmitt plant. The name means "new town of Vienna." The "W" is pronounced "V." "Neu-" rhymes with "toy."

LE BOURGET, famous airfield near Paris, where Lindbergh landed May 21, 1927. Say lah-boor-ZHEH.

Partners with Industry!

The railroads of America are backing industry to the limit in the war of production. Only the close coordination born of a common cause could result in the extraordinary achievements of transportation and industry since the war began.

For many years the Seaboard Railway has recognized the interdependence of industry and transportation. On the established principle that the welfare of the railroad depends upon the prosperity of its patrons, the Seaboard has been working over a long period of time for the economic development of the territory it serves.

The Seaboard's interest extends beyond the location of new plants. It is equally concerned with the success of all industry served by its line. Its policy is to provide adequate service and to adjust the freight rates on raw materials and finished products to enable these industries to compete with similar industries whether located in the South or elsewhere.

Remarkable progress has been made in the industrial development of the South in recent years. Present indications point to further expansion in the post-war period.

Seaboard will work in the future—as in the past—as Partners With Industry.

When Your
Back Hurts—

And Your Strength and
Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested of many years. Are at all drug stores. Get Doan's today.
